

Garden Tools.

Taking care of the garden is lots of fun if you have the proper tools. We sell shovels, spades, hoes, rakes and spading forks. Shovels 75c., \$1.15 and \$1.40. Spades 75c., Hoes 25c., 35c., 50c., 65c., and 75c. Rakes 40c. and 75c.

Lawn Mowers.

Make your lawn the pride of the neighborhood. Don't always borrow your neighbor's—buy one yourself—a good mower lasts for years. Prices \$5.00, \$5.50, \$6.00, \$6.50 and \$12.00.

FENCING MATERIAL.

Do you expect to put up a new fence or replace that old one? If so, let us suggest Wire Fencing. It outwears any other kind and the first cost is less than any other kind of fence. Your place will look 100 per cent better with it. There's a difference in different wire fencing. We keep the good kind, "Royal Fence." It's made of good heavy wire. The stay wires are one piece from top to bottom. It stretches tight and stays tight. 39 inch fence 37c. per rod. 47 inch fence 45c. per rod.

We have a special price on Royal combination stock and poultry fence. Ask about it.

If you intend to use any poultry netting and wish to save money on it, you will call on us.

Ye Fisherman.

The out of doors is blossoming forth in all its splendor, calling forth the fisherman to his favorite fishing ground. You surely have heard the call. We are better prepared to supply the angler with his wants than we have ever been before. Our stock is fresh, clean and complete.

Brighten Up Week

SHERWIN-WILLIAMS

PAINTS AND VARNISHES

MONDAY MORNING, May 13th, at 7.00 o'clock a.m., the "BRIGHTEN-UP" WEEK will start. Let's make this week a genuine old-fashioned house cleaning week for the entire country. The Business Men's Excursion from Portland will visit our county the following week and we should have our places looking spic and span. Cut the grass from the door yards, sweep off the walks and if the buildings need a coat of paint see that it gets it. Don't stop at the outside of your buildings, but get busy on the inside as well. Cleaning, scrubbing and polishing to be sure, but for brightening up the home and making it permanently cheerful and cosy, a can of Varnish, Paint or Enamel, with a brush and a little energy, will do wonders. That old floor, your soiled and scratched woodwork, the dingy cupboard—all these can be made clean and new, if you use the proper "BRIGHTEN-UP" Finish.

Paint is not a luxury, it's economy. It not only makes your buildings look fresh and neat, but protects the wood and metal from decay and rust, lengthening the life of the building. Of course, the important thing is choosing the paint which looks the best, wears the longest, is the easiest to apply and affords the greatest protection for the money. Poor paint is dear at any price. We recommend Sherwin-Williams Paints and Varnishes because they are scientifically made from the purest materials. Regular colors, price \$2.25 per gallon—worth more.

We have installed an Auto Delivery Truck and can Deliver to any Part of City on Short Notice.

KING & SMITH COMPANY,

Next Door to Post Office.

BUILDING MATERIAL.

Tillamook County will experience the best year it has ever had in the building line. Every one seems to be talking of building or remodeling. If you contemplate the building or the remodeling of any kind of a structure, we want to have a chance to quote you prices on your hardware, doors and windows, roofing or anything that is needed on the building.

Several barns and quite a few houses have been built last fall and this spring that have been exposed to the weather ever since. You pay \$75.00 for a buggy that is well painted, but you always put it in the barn and protect it from the weather. Your building that cost you several times that amount stands out in all kinds of weather without a drop of paint for protection. Then the looks is worth something. Barn paint \$1.15 per gallon. Sherwin-Williams Ready Mixed Paint (none better), \$2.25 per gallon. Lead and oil if you want it.

WASHING MACHINES.

The family washing is the dread of every household. The REGAL water power washer does the hard part of the washing and does it as good and quicker than it can be done by hand. They are well made and have but few parts. They have stood the test in the community. Regular Price \$15.20, and worth it

COOKING UTENSILS.

As Your Granite and Tin Utensils Give Out Replace Them With "Wear-Ever" Utensils.

"Wear-Ever" Aluminum Cooking Utensils speak for themselves, prove their worth—if given a fair trial.

They are stamped from thick, hard sheet aluminum, 99 per cent pure—and are made without seam or solder. They can not rust, do not contain and can not form with fruit or vegetable acids any poisonous compound—food may stand in

a "Wear-Ever" utensil without injury, the same as in a glass or china dish. They are solid metal, uninjured by sudden changes of temperature. They cannot crack or scale. They are practically indestructible.

Just as solid silver must be cared for intelligently in order to give satisfactory service, so also must aluminum utensils. And just as there are different kinds of enamel utensils, so also are there different kinds of aluminum utensils. Progressive housewives are now studying as never before the

household economy—seeking to know which foods are pure and how they may be made most healthful, which utensils are safe and how the most satisfactory service may be secured from them and what articles give most value for money expended.

Aluminum utensil cost but a trifle more than granite and never have to be replaced. Our stock is complete and we would be more than pleased to have you come in and see what the line consists of and price the different articles.
