One improvement which the city will take in hand is a draw bridge across the slough and improving the road to the county line north of town, both of which have been in a dilapidated condition for a long time. With hard surfaced pavement as far as the railroad crossing, and the road graded up both sides of the track, this will be a great improvement to those entering the city from that direction.

Another advertising scheme has been submitted to some of the business men, which, if we understand it, comes under the lottery laws of the post office, publishers being liable to have their newspapers excluded from the mail by advertising them. When a perfect stranger walks into a newspaper office and wants a certain amount of advertising free and wants business men to pungle up money to carry out the lottery scheme, it looks to us

that it was about time that the postal authorities were put next and advised to investigate. So business men had better take a kindly hint and not get tied up in what the department construes to be a lottery scheme.

The injured man was brought to this city Saturday night and taken to Portland Sunday morning for treatment. He was examined by Dr. R. T. Boda of this city before being taken to the hospital.
