

The Prime Objects

Of every money earner should be to lay up something for the future; to reach middle life with something substantial to show for the labor of years; to have a home and property.

Then the inevitable emergency, or declining years can be approached without flinching; trouble can be looked in the eye.

The world owes us all a living and more, too. The "more" represents what we put aside in a good bank where it may grow in safety.

Put your surplus in this bank. We have space on our ledger for YOUR account.

PORT OF BAYOCEAN ELECTION DEFECTIVE Judge Galloway Decides that Notices Are Therefore Void.

SALEM, Or., Sept. 3.—Pronouncing the election notices to be defective, Judge Galloway today declared the Port of Bayocean to be void in contemplation of the law. The suit was brought by the state on the relation of Edward Blum and others and charged that the election notices did not correctly describe the territory taken in by the Port, that the territory included embraced the watersheds belonging to other drainage districts, and also charged fraud. The court said that the state proved all these contentions, save that of fraud.

THE EXECUTIVE BOARD MEETS. Makes a Move to Start Publicity Work.

A meeting of the Executive Board of the Tillamook Commercial Club was held on Monday evening, when President D. L. Shrode, E. T. Halton, R. W. Watson, Fred C. Baker, C. E. Trombley and Secretary E. J. Clausen were present.

The Board devoted its time mostly in discussing publicity work. The school fairs at Fairview and Nehalem having been favorably commented upon, and as there is a desire on the part of different sections of the county to hold a county fair in connection with the district fairs, it was decided by the Board to hold an Industrial, Stock and Dahlia Show in this city next year.

As there was a demand for Tillamook products and moving picture films of the county's scenery, and the need of advertising matter, the Board decided to raise a publicity fund to help boost the city and county. Secretary Clausen has already a plan worked out whereby the publicity bureau of the Southern Pacific materially assists in the publication of a booklet, paying one half the cost and undertaking to distribute them to those who are seeking information about Tillamook County. It will take \$750 for the booklet and several hundred dollars for other publicity work the Board had under consideration.

It was suggested that freight cars containing material for the improvement of the city have a suitable sign attached to them, such as "Material to Improve Tillamook City," was referred to Secretary Clausen to arrange with the contractors and others.

The Publicity Committee of the club reported to the Board that it was unable to undertake publicity work on account of the need of a publicity fund to help advertise the city.

TO BEAUTIFY THE CITY. Hemlock for Shade Trees and Dahlias for Floral Display.

The property owners in the residence part of 2nd Avenue East will "Get together" and decide upon some uniform system to beautify the parking in front of their property. It is proposed to form an improvement society of person living on that street, and W. C. King, R. W. Watson and Dave Martiny are on the committee. It is also proposed to plant hemlock trees, as they remain green the whole year and in the summer plant dahlias. This is a commendable move to improve and beautify the city, and no doubt property owners on other street will "Get together" for a like purpose. Whatever trees or flowers are decided upon to beautify the city and homes it will be as well to agree upon one kind of flower and make a specialty of them.

Those who have experimented with the dahlia think that Tillamook county should adopt that flower for its floral emblem. As the new

varieties are exceedingly handsome and showy, it would present a pretty sight to see all the parkings in the city sown to these beautiful flowers. As to shade trees, the property owner on 2nd Avenue East has the right idea in proposing hemlock on account of keeping green in winter. Their idea seems to be meeting with approval, and, no doubt, some steps will be taken in the near future to make the shade tree and flower uniform all

over the city, which, as they contend, would give the city a far prettier effect than dabbling into so many different kinds and varieties of trees and flowers.
