As an example of what some of our bottom lands will do under proper management, we thought it might be of interest to our readers to hear of the report which Assessor Hare makes in regard to the returns which he received from four Jersey cows for July butterfat.

Mr. Hare received from his four Jersey cows, pastured on 3.85 acres, with nothing else to eat but grass, \$74.33, in payment for July butterfat. Besides this amount, 25 pounds of milk was used daily for the raising of a calf and for home use which if added to the above check would bring the total production of four cows to about \$85.00.

Besides pasturing the four cows, Mr. Hare's 3.85 acres produced three tons of hay which has been stored away and five tons of roots.

Mr. Hare kept a record of the production of one of his cows for July which was as follows: 1740 pounds of milk in 30 days, which tested 4.3 pounds of butterfat to the 100 pounds of milk, income \$28.00.

**Reformed Church Notes.**

Beginning with next Sunday, Sunday school will be held at 10 a.m., services at 11 a.m. Sunday, September 15th, at 11 a.m., the installation of the new pastor, and at 2 p.m. the dedication of the church will take place. Rev. G. Hafner and his elder, Henry Raz, of 1st Reformed Church of Portland, Ore., and Rev. G. Ulrich, of Meridian Reformed Church, of Sherwood, Ore., constitute the committee for installation.

At said services collections will be taken up exclusively for the benefit of the church.

Later on, according to future announcements, German school will be held in the Sunday-school room of the church. So as not to interfere with our public schools, it will be held on Saturday forenoons from 10 o'clock till noon. It will be open to children of the congregation and also to others, whosoever desire to take a course in German. Saturday afternoons religious instructions will be tendered to advance children of the congregation.

August 21st, 1912, Nana Naegeli and John Kuehse, September 1st Albert Perren and John Eggman have joined the German Reformed Church of this city. Welcome!  
FRED C. SCHNUELLE, Pastor.

**BAY CITY PORT WINS. Annex New Territory by Narrow Margin.**

One hundred and sixty sections were annexed to the Port of Bay City in a special election, Saturday, giving that port a bonded limit for port improvement of \$600,000, as compared with a \$400,000 limit in the old port district. The requirement to meet the government's appropriation is \$400,000.

The vote was as follows: In the present port district: For annexation, 133; against annexation, 5. In the territory to be annexed: For annexation, 21; against annexation, 18.

The reason of the smallness of the vote was because the 160 sections are nearly all in the hands of big timber companies. The fight has been very bitter. Some of the opposition was due to a desire for one big port on Tillamook bay instead of three, as at present.

It is believed the Whitney company, Ltd., will now erect an immense saw-mill plant at Idaville, one mile south of Bay City, the result of the money being in prospect for the improvement of Tillamook bay and bay. The government appropriation, made at the session of congress just ended, required dollar for dollar from the people of Tillamook bay. J. O. Bozorth, president of the Port of Bay City, was recently assured by Major J. J. Morrow that work could begin as soon as the port was ready with its share. The Whitney company is said to be prepared to subscribe all the proposed bond issue of \$415,000.

**The Killkare Klub.**

The Killkare Klub, after a vacation of a month, will again meet at the home of the President, Mrs. Emmett Bales, the second Thursday in September. All members are requested to get together full of new enthusiasm for a profitable, as well as pleasurable year. Travels in the United States will be taken up and each anticipate better times than ever.

**Booster's Meeting.**

A booster's meeting will be held at the Tillamook Commercial Club next Tuesday evening, when the report of the committee appointed to draw up a plan for the purpose of organizing a County Development League will be submitted. This is another "Get Together" meeting of the different organizations of the county for the purpose of boosting all sections of the county, which can be better and more effectively carried out by united effort. It is hoped that a large number of our citizens will attend and lend a helping hand to help make this the most widely known and attractive county in the state.

**A Double Wedding.**

The Adventist Church in Tillamook, Oregon, presented a beautiful sight on Monday night, where a double wedding took place. The church was decorated in white and green, great banks of white flowers and maiden hair. The wedding party composed of George L. Schraff, of British Columbia, and Miss Carrie Fox, of this city; Ernest M. Subke and Miss Pearl Knapp, both of Salem, Oregon, marched up the aisle of the church to the wedding march played by Miss Florence Ebbeman, and formed a half circle under the large wedding bell suspended from an arch made of ferns, upon which a motto composed of white letters, "Blest be the tie that binds" was placed. Rev. H. W. Cottrell, of Portland, performed the marriage ceremony. The crowded house spoke of the high regard in which these two couples are held, guests being present from Salem and Portland. Many valuable and useful presents were received. All join in wishing these happy couples a prosperous voyage through life.

**Wet Weather Was a Benefit.**

The wet weather in August broke all previous records and was something the oldest settlers had never before experienced. We have had light showers of rain during August in previous years, but the showers last month were heavy and at a time when the weather is usually dry and warm. The wet season was unfortunate for the beach business and caused some inconvenience to campers who generally have good weather while at the beaches and in the mountains, but apart from that the rain was a great benefit to the dairy industry, producing an enormous amount of green pasture for the dairy herds. Most every dairyman has an abundance of hay for the winter feed, and the rain that makes Tillamook famous will help to swell the output of cheese this year, which will be over 4,000,000 pounds, all of which will be sold at good figures. It is no wonder that the

dairymen are satisfied with present prosperous conditions of the country and are content to well enough alone and not much notice of the political binders who are agitating for change of administration, for they know if a change is made liable to bring down the price of butter fat considerably.

**New Party Meets.**

On Saturday a meeting of the party was held at the Court House to hear Hon. E. A. Brown, chairman of the State organization. Attorney J. L. Henderson presided, and there were about 20 persons present to hear the speaker. The whole tenor of Mr. Brown's address was to engulize Ex-President Roosevelt and denounce the Republican party, the Democratic party, President Taft, and Woodrow Wilson, the Democratic nominee. He said it was necessary to form a new party because the two old parties were boss ridden and under the control of the interests, but the most prising part of Mr. Brown's address was in justifying and praising Mr. Perkins, of the Standard Oil Company, who had contributed large amounts of money for Roosevelt's previous campaigns, and who is backing him now, with the Harvester Trust, in forming a new party. Chairman Henderson, in a remarks before the meeting, said he was going to give the two old political parties the devil.

Another meeting was held in the evening at the Court House, where about 40 persons were present which included some staunch Republicans and Democrats.
