 Tillamook, Ore., under the act of  
 March 3, 1879.

**The Tillamook Headlight.**  
**Editorial Snap Shots.**

We hope it won't be neces-  
 sary to send anybody to the bug  
 house on account of the agita-  
 tion over the pavement.

Republicans who voted for a  
 Democratic governor should  
 not complain if the governor  
 appoints a democratic circuit  
 judge.

It is enough to make one feel  
 scarce now we're under a Dem-  
 ocratic administration. We do  
 hope that it will pan out better  
 than the last Democratic fizzle.

The saying is that war is hell.  
 Well, we've had a whole lot of  
 personal wars in this city, and  
 from the looks of things the pre-  
 sent fight will become more tropi-  
 cal and interesting whenever  
 the other side starts on the war  
 path.

Those of our citizens who  
 joined the agitation with the  
 expectation that by some hook  
 or crook they will not have to  
 pay for their street pavement  
 should not be counting their  
 chickens before they are hatched,  
 for the probabilities are that  
 they will have to "cough up."

So Attorney Bagley, of Hills-  
 boro, denies having anything to  
 do with employing detectives  
 for the purpose of incriminating  
 city officials. The citizens have  
 a right to know who "framed  
 up" that part of the investiga-  
 tion, seeing that no report was  
 handed in on Friday of that part  
 of the proceedings.

The fight over the street pave-  
 ment is going to entail con-  
 siderable expense upon the tax-  
 payers before the fight is over,  
 for we would not be surprised  
 that the fight has only just  
 started and it will become ex-  
 ceedingly tropical before the  
 sun is all over, with the tax-  
 payers "coughing up" to foot  
 the bills.

Cultivate the habit of speak-  
 ing a good word for Tillamook  
 city and county and our wide-  
 awake citizens whenever you  
 have an opportunity. That is a  
 good way to do the boosting act  
 that will bring results if every-  
 body would do so. No matter  
 where one goes there are pes-  
 simists and it is not surprising  
 that there a bunch in this city  
 who undo the efforts and the  
 work of those who make it their  
 business to boost.

It is generally agreed that  
 the State Legislature, notwith-  
 standing the antagonism and  
 boss methods of Governor West,  
 passed many bills of importance  
 to the people along progressive  
 lines. With such a large num-  
 ber of bills, some of which were  
 of a freak nature, it took a  
 whole lot of hard work, and not  
 having time to finish it, the leg-  
 islators stayed on the job until  
 they completed the work, even  
 to adjourning so that the next  
 legislature would not be ham-  
 pered with bills vetoed by the  
 governor.

There is not much doubt but  
 what the present ruction over  
 street pavement originated at  
 Hillsboro, where a certain at-  
 torney happened to get into a  
 personal dispute with an engi-  
 neer who was in the employ of  
 the Warren Construction Com-  
 pany. And desiring to cause  
 the company as much trouble  
 as possible, the battle ground  
 was changed to Tillamook City,  
 with a whole lot of our citizens  
 dragged in to help out the per-

sonal scrap of another town.  
 This shows how "easy" some of  
 our citizens are in taking up  
 another person's and city's  
 fight, which is harmful to this  
 city, causing bad blood and bad  
 feeling and factional strife. All  
 because of a personal fight in  
 another town.

It is safe to say that the con-  
 tinual agitation on account of  
 the street pavement will queer  
 sales of city property and put it  
 on the bum this summer if it  
 continues much longer, for in  
 a ruction of that character there  
 are sure to be more or less knock-  
 ing. For instance, some few  
 months ago, two gentlemen who  
 were engaged to fight the con-  
 struction company, inferred that  
 the city was liable to go broke  
 with so much improvement  
 going on. Of course, this was  
 said for effect, but these and  
 similar remarks by curb stone  
 knockers will surely have some  
 weight with those who were in  
 the notion of investing in this  
 city.

So the City Council has de-  
 cided to obtain technical and  
 legal advice from those who  
 are not interested in the pave-  
 ment fight. Anything for a  
 change. But do something to  
 have the matter settled as soon  
 as possible. Quit chewing the  
 rag and quibbling and indulg-  
 ing in a "hold up" game, for  
 that kind of tactics have not  
 resulted in deciding the ques-  
 tions involved. But get busy.  
 Sue the construction company,  
 go after damages from those  
 who defamed the characters of  
 some of our citizens, put on the  
 gloves and settle it that way,  
 or get together in a love feast  
 and dine and wine one another  
 with complimentary speeches as  
 after dinner topic. Any old  
 thing to bring about a settle-  
 ment and to quit the "beefing,"  
 for it will do the city more harm  
 than good.

There is no better index of the  
 growth of a city than the an-  
 nual increase in the receipts of  
 a post office. For several years  
 the receipts of the post office of  
 Tillamook City have increased  
 about \$1000, and when the fiscal  
 year is reached the end of this  
 year, the post office will have  
 made another gain of \$1000 in  
 receipts over the previous year,  
 with a total income of, proba-  
 bly, \$7,250.00 to \$7,500.00. That  
 alone is the most healthy sign  
 that the city is gradually grow-  
 ing in importance, and having  
 made a good start, Tillamook  
 City will continue to be the hub  
 and the business center of the  
 county on account of its geograph-  
 ical situation. With such a  
 bright outlook, it is not sur-  
 prising that those who have  
 pinned their faith and invested  
 in property in this city have in-  
 vested wisely.

It used to be considered by  
 Tillamookers that hemlock tim-  
 ber did not amount to much,  
 and they will, no doubt, be sur-  
 prised to hear that the hemlock  
 timber in this county will be-  
 come more valuable than the  
 fir. It seems that the govern-  
 ment issued a bulletin on the  
 Western hemlock, placing it in  
 a class with pine. This con-  
 firms what Prof. Condon, of  
 the Oregon University, said of  
 Western hemlock some years  
 ago, that it was Alaska pine and  
 totally different to Eastern hem-  
 lock. On account of the bulletin  
 there is a demand for  
 Western hemlock, as it is free  
 from knots and makes splendid  
 finished lumber. Years ago  
 Tillamookers would not look at  
 a timber claim with hemlock on  
 it, and those who did take them  
 up sold them for a song to the  
 timber mer. Many surprises  
 have taken place here, and when  
 hemlock claims sell for more  
 money than the high price now  
 prevailing for fir, will be one of  
 the greatest of surprises.

Every automobile sold in this  
 county adds to the list of good  
 road boosters. And as this is  
 the time of year when the auto  
 fever becomes catching, many  
 of our citizens are contemplat-  
 ing investing in this method of  
 travel and enjoyment. But to  
 make autoing that much more  
 enjoyable, good roads are abso-  
 lutely necessary. It is only a  
 question of time when most all  
 the progressive dairymen will  
 be using autos for pleasure as  
 well as for business. It is too  
 soon to advocate a hard surfaced  
 highway through the entire  
 length of the county, but we  
 expect this to be started and  
 completed before many years,  
 because it is being demonstrat-

ed that it is economy to build  
 hard surfaced roads on the main  
 highways. Tillamook County  
 is admirably situated on account  
 of its length for a road of that  
 character, and it will be a wise  
 investment when ever the time  
 is ripe to start on that kind of  
 modern road building. When  
 taking into account the long  
 wet season and the heavy trav-  
 el over them in winter, the  
 wear and tear every year is a  
 source of continual expense,  
 which is eliminated with hard  
 surfaced pavement.

When simmered down, and  
 eliminating all other personal  
 features injected into the fight,  
 there are but a few points to de-  
 cide in regard to the pavement.  
 In laying the pavement have  
 the Warren Construction Com-  
 pany complied with the specifi-  
 cations of their contract? It  
 does not matter how many sam-  
 ples of pavement may be sent  
 here from other towns, the ques-  
 tion to decide is whether the  
 company has made good. If  
 not, then it must do so. It may  
 take a law suit to decide it, and  
 perhaps that may be the quick-  
 est and most satisfactory way of  
 settling it, for wrangling over  
 it for several weeks have not  
 accomplished anything, in fact,  
 a great deal of injustice have  
 been done some of our citizens.  
 It does not look reasonable to  
 some of the business men who  
 have not been dragged into the  
 fight that the Warren Construc-  
 tion Co. would deviate from the  
 terms of their contract and ruin  
 the reputation of a company  
 that is doing millions of dollars  
 of work every year in the North-  
 west for a little bit of a job in  
 Tillamook. True it is that all  
 pavement is not composed of  
 the same amount of material,  
 for the reason that climatic con-  
 ditions have to be considered,  
 which is referred to experts who  
 know which is best for a hot,  
 dry climate and that which is  
 best for a cool, wet climate like  
 that in Tillamook. It seems  
 that the company have this lat-  
 itude in their contract. No one  
 could control the wet weather  
 last summer, which is the reason  
 that some pavement will  
 have to be fixed. The Head-  
 light has not allowed itself to  
 become excited over the street  
 pavement ruction, for there are  
 wheels within wheels, and as  
 the company is under bonds to  
 maintain the pavement for five  
 years and at the end of that time  
 it is to be in as good condition  
 as when it was put down, we do  
 not think that the property  
 owners are going to be "stung"  
 in the least. But since the fight  
 is started and liable to continue  
 we suppose the scrapper will  
 not quit until it is fought out in  
 the courts which they should  
 do and not saddle this part of  
 the expense upon the taxpayers.  
 It is up to them to do so if the  
 difficulties cannot be settled in  
 any other way to their satisfac-  
 tion.

The West Virginia senatorial  
 bribery case turns out to have been a  
 mare's nest, but without a sign of a  
 dark horse in it.

The United States once had a  
 problem in Mrs. Carrie Nation, but  
 she would have to be multiplied  
 several times to equal England's  
 Pankhurst problem.

Has anybody ever heard anything  
 of Mr. Emmeline Pankhurst, or  
 must we say of him, as Sairy Gamp  
 said of Mrs. Harris: "There ain't  
 no such person?"

Secretary MacVeagh refers to the  
 comfortable surplus in the United  
 States treasury. P. P. C. in this  
 case refers to the fact that the retir-  
 ing Republicans provide plenty of  
 cash.

The Senate has approved at gen-  
 eral treaty for handling epidemic  
 diseases. This is a subject that  
 Uncle Sam can open anywhere with  
 the confidence of an experienced  
 expert.

Wireless stations are to be estab-  
 lished between Alaska and Siberia  
 that will give almost continuous  
 land service. Mankind is no longer  
 dependent on ocean cables for a  
 girde round the earth.

Dr. Adeline G. Soule of Kansas  
 City has found the model husband.  
 And naturally, Dr. Soule being an  
 exemplary married woman, there is  
 but one man in the world whom she  
 could acclaim as the model hus-  
 band. Need we add that the model  
 is Mr. Soule? Multitudes of good  
 women know that the men to  
 whom they are mated are not model  
 husbands. But if any one of such  
 women were put under the sanctity  
 of an oath, and the pressure of a  
 court, to name the model husband  
 of the world, is there one who  
 could do otherwise than Dr. Adeline  
 G. Soule has done? Not one. And  
 that is the crowning glory of their  
 sex.

**Tillamook Cheese.**  
 (From the Oregonian).

In almost every settlement in the  
 West, in every settlement where it  
 is known, Tillamook cheese stands  
 as the best product of the kind ex-  
 tant. Let it be said to the pride of  
 Oregon, the pride of Tillamook and  
 the glorification of the manufactur-  
 ers that this position has been ar-  
 rived at and is being maintained,  
 and will in the future be still main-  
 tained and accentuated; that co-  
 operation and splendid business  
 judgment are the foundations upon  
 which the Tillamook cheesemakers  
 have builded their reputation and  
 upon which they maintain the high  
 quality of their product and keep  
 intact their organization.

In these days of trust busting  
 and trust explosions, when the  
 Government is looking with a  
 microscopic scrutiny into the busi-  
 ness methods of all associations  
 and organizations that hamper or  
 menace a fair and honest competi-  
 tion in business, it is pleasing to  
 note that while the Tillamook  
 cheesemakers have an organization  
 through which practically all of the  
 cheese made by the twenty-two fac-  
 tories in the county is handled, still  
 this organization stands on solid  
 ground, well within the law, for it  
 in no way comes within the pur-  
 view of the acts of Congress to pre-  
 vent fair, honest and open competi-  
 tion.

The Tillamook cheesemakers  
 would welcome the advent into  
 their county of many hundreds of  
 dairy cows and the establishment  
 of a large number of additional  
 cheese and butter factories. They  
 believe Tillamook is one of the best  
 if not the very best, dairy sections  
 in the United States. They have  
 made a reputation for their product  
 second to none in the country, the  
 equal of any in the world, and all  
 they ask of new concerns is to  
 make an article to assist in main-  
 taining this standard.

But this they will do in a fair and  
 honorable way and not by coercion  
 or dishonest methods, and they  
 offer to any newcomers who wish  
 to join in their enterprise a fair re-  
 turn on the investment. There will  
 be no cutting of prices to drive any  
 concern out of business, there will  
 be no combination in restraint of  
 business, no methods to make the  
 consumer pay more than an honest  
 price for their product.

The number of pounds of milk  
 used to make this cheese, amount-  
 ing to 4,016,150 pounds, was 36,534,-  
 575. A simple calculation will there-  
 fore give the amount per pound re-  
 ceived by the dairymen for their  
 milk and the price per pound re-  
 ceived by the manufacturers for  
 their milk.

Another item of great interest,  
 especially to those contemplating  
 the dairy business as an occupation,  
 would be the number of cows milked  
 by the dairymen furnishing this  
 milk to the factories, and we hope a  
 statement covering this point will  
 be forthcoming.

Representatives of "dry" counties  
 in the Texas Legislature defeated a  
 bill prohibiting the carrying of  
 whisky in saddle bags or holsters  
 anywhere in "dry" territory. This  
 will be much laughed at, but really  
 the majority of dry counties of  
 Texas are in a part of the state  
 where rattlesnakes abound and  
 where at any moment a flask may  
 be indispensable.

The population of Mexico is 13,-  
 600,000 and that of the capital city  
 is 470,000. It is surprising that so  
 little is heard from the body of the  
 people. Ambitious leaders clash  
 even to the point of street fighting  
 with artillery, combine to-day and  
 betray each other to-morrow, and  
 the millions look on as if dumb and  
 helpless, though the killed and  
 wounded in the shifting struggle  
 include many who take no active  
 part in it. Two years ago the Mexi-  
 cans elected a president, but see  
 him deposed by the sheerest vio-  
 lence, while "vivas" are raised  
 over a successor no matter if he is  
 driven out or assassinated within  
 twenty-four hours. By some as-  
 tonishing force of habit, or hypno-  
 tism of anarchical civil war for  
 a lull in the impromptu bloodshed  
 and personal treacheries that  
 rapidly follow each other as in a  
 nightmare.

**A Cold, La Grippe, then Pneumonia**  
 Is too often the fatal sequence, La  
 Grippe coughs hand on, weakens  
 the system, and lowers the vital re-  
 sistance, K. G. Collins, Postmaster,  
 Barnegat, N. J. says: "I was trou-  
 bled with a severe La Grippe cough  
 which completely exhausted me.  
 Foley's Honey and Tar Compound  
 soon stopped the cough, spells en-  
 tirely. It can't be beat." Lamar's  
 Drug Store.

**A Message to Railroad Men.**  
 E. S. Bacon, 11 East St. Bath,  
 Me., sends out this warning to rail-  
 roaders everywhere. "My work as  
 conductor caused a chronic inflama-  
 tion of the kidneys and I was miser-  
 able and all played out. From the  
 day I began taking Foley Kidney  
 Pills I began to regain my strength,  
 and I am better now than I have  
 been for twenty years." Try them,  
 Lamar's Drug Store.

SIDNEY E. HENDERSON, President.  
 JOHN LELAND HENDERSON, Secretary-Treasurer.  
 Attorney-at-Law and Notary Public.

**Tillamook Title and Abstract Company**

**Don't Buy Any Range**  
**"Unseen, Unseen"**

If anyone should ask you to buy a  
 team of horses "unsight, unseen,"  
 from a mere printed description you  
 would think he intended to "sting"  
 you. Now there is no more sense in  
 buying a range "unsight, unseen" than  
 there is in buying a team of horses—nor  
 is it necessary. The Great Majestic is in use  
 in almost every township in the United States  
 west of the New England States—and it will pay you to drive an extra  
 ten miles, if need be, to see and carefully examine the Great Majestic  
 —the range with a reputation—built on honor—of the best materials—  
 before investing your money in a range of any kind.  
 You don't buy a range every day, or indeed, every year, and when  
 you do, you want the best your money can procure—that's the

**Great Majestic**  
**Malleable and Charcoal Iron Range**

Outwears Three Ordinary Ranges  
 It is the only range made entirely of  
 malleable iron and charcoal iron. Char-  
 coal iron won't rust like steel—malleable  
 iron can't break, and while the first cost  
 of a Great Majestic may be more than  
 some other ranges, it outwears three ordi-  
 nary ranges.

Economical—Saves Half Your Fuel  
 The Majestic is put together with rivets  
 (not bolts and stove putty). The joints  
 and seams will remain air tight forever.  
 The oven is lined with guaranteed pure  
 asbestos board, covered with an iron grate  
 where other ranges are weakest—be sure  
 you can see it. No heat escapes or cold  
 air gets in. Takes but half the fuel used  
 in other ranges for perfect baking.

All Copper Reservoir—Against Fire Box  
 The reservoir is all copper and heats like  
 a tea kettle through a copper pocket,  
 stamped from one piece of copper, setting  
 against left hand lining of fire box. It  
 boils 15 gallons of water in a very few  
 moments and is instantly moved away  
 from the fire.

Ask Us To Show You The Greatest  
 Improvement Ever Put In a Range  
 Increasing the strength and wear of a  
 Great Majestic more than 50% at a point  
 where other ranges are weakest—be sure  
 you can see it. No heat escapes or cold  
 air gets in about this feature.

FOR SALE BY  
**ALEK. McNAIR CO.**

**ALL HOUSEHOLD EMERGENCIES**

**AN HOUR** saved in summoning the plum-  
 ber by telephone may save the price of  
 several years of service.  
 It certainly saves a lot of discomfort and  
 worry.  
 The Bell Telephone keeps the household  
 in contact touch with all the resources of civi-  
 lization and is instantly available in any emer-  
 gency.  
 It also keeps the household in constant touch  
 with the broader outside world by means of  
 the Long Distance Service of the Bell System.

**THE PACIFIC TELEPHONE & TELEGRAPH CO.**  
 Every Bell Telephone is the Center of the System.
