Boost for a stock show!

Boost, also, for a demonstra-  
 tion farm.

When Canadian cheese is sell-  
 ing for 10c. a pound, Eastern  
 cheese for 12c. a pound, and  
 the famous Tillamook cheese at  
 15c. a pound, this is a good ad-  
 vertising stunt for Tillamook  
 county.

Our contemporary contends  
 that free trade won't reduced  
 the price of cheese. We hope  
 not, but isn't it a fact that in  
 revising the tariff the object is  
 to reduced the price of every-  
 thing that is raised on the  
 farm?

It was a bad beginning to open  
 the baseball season with a fight.  
 We hope this will not be re-  
 peated, for rowdiness is dis-  
 gusting and reduces the atten-  
 dance. Swearing and fighting  
 should not be heard or seen on  
 a baseball field.

It is no use pretesting, for the  
 Democratic bosses are deter-  
 mined upon free milk and free  
 cream, and free wool and free  
 lumber. This is a hard blow  
 for the farmers to stand, but  
 why single out that class to  
 bear the brunt of free trade and  
 give protection to manufactur-  
 ers?

Commissioner Farmer is desir-  
 ous that the editors take a  
 trip in the near future to the  
 South part of county to see  
 what improvements have been  
 made on roads since they paid  
 that part a visit. We can assure  
 the commissioner that it will be  
 a pleasure to the editors to do  
 so, for they are good roads  
 boosters and it would not hurt  
 their feelings should kindly dis-  
 pose persons showed again their  
 hospitality and good will.

By pulling together the Fair-  
 view Grange and the Tillamook  
 Commercial Club expects that  
 the State Grange will hold its  
 annual convention in this city  
 next year. The Grangers who  
 attend the State Grange next  
 week will carry with them let-  
 ters of invitation, and we can  
 assure the State Grange if the  
 invitation is accepted the best  
 dairying section of the North-  
 west will offer the glad hand  
 and show its hospitality.

Free trade, to a limited ex-  
 tent, works satisfactorily in  
 England, because that country  
 has to depend upon other coun-  
 tries for food and raw material  
 for manufacturing purposes. It  
 is different in the United States  
 where there is a surplus of food  
 stuffs and a large amount of raw  
 material, which, with a free  
 trade policy, places the products  
 of this country on a par with  
 that of other countries. This  
 can be better illustrated by re-  
 ferring to free milk and free  
 cream. As soon as the Demo-  
 cratic tariff bill goes into effect  
 an enormous amount of milk and  
 cream will be shipped into the  
 Eastern States from Canada,  
 which will immediately demor-  
 alize the price of butter and  
 cheese, and the Canadians will  
 gloat over such a splendid mar-  
 ket being thrown open to them.

The great calamity in Omaha was  
 quickly overshadowed by the ter-  
 ribly disastrous floods in Ohio.  
 Great suffering and sickness from  
 colds and exposure. L. Poole, 2217  
 California St., Omaha writes: "My  
 daughter had a very severe cough  
 and cold but Foley's Honey and  
 Tar Compound knocked it out in no  
 time. Refuse substitutes." For  
 sale by all druggists.

Foley Kidney Pills repay your con-  
 fidence in their healing and cura-  
 tive qualities. Any kidney or blad-  
 der disease not beyond the reach of  
 medicine will yield to their use. Mrs.  
 Cordelia Cleveland, Ardena, Mo.,  
 says, "I had kidney and bladder  
 trouble for over a year and 5  
 bottles of Foley Kidney Pills cured  
 me." It is the same story from  
 every one who uses them. All say,  
 "they cured me." For sale at all  
 druggists.

An opportunity will be given  
 on Monday to hear President  
 W. J. Kerr, of the Oregon Agri-  
 cultural College, talk on the  
 advisability of establishing an  
 agricultural demonstration or  
 Tillamook County. As

this is a matter which is of con-  
 siderable importance to dairy-  
 men, it is natural to suppose  
 that they will take a lively in-  
 terest in the discussion, for if  
 by more scientific methods the  
 land can be made to raise more  
 feed the monthly checks will be  
 that much larger. The object  
 of establishing demonstration  
 farms is to bring scientific  
 methods nearer the farms, and  
 as this is the center for the pro-  
 duction of an immense quantity  
 of milk, that alone should jus-  
 tify having a demonstration  
 farm established here under  
 the supervision of the Agricul-  
 tural College.

Some of our citizens are ad-  
 vocating a new city hall in keep-  
 ing with the progress of the  
 city, also a park. It is true that  
 the city hall is antiquated and  
 does not meet present require-  
 ments, and for that reason it is  
 thought that something mod-  
 ern and up-to-date is necessary,  
 especially for the fire depart-  
 ment. In the matter of a park,  
 this city have thrown away op-  
 portunities in the past to pro-  
 cure suitable land at a nomi-  
 nal figure, but for lack of inter-  
 est this important part of the  
 city's development have been  
 neglected. Some day, when the  
 desirable locations are built on  
 and the land becomes more  
 valuable, then, and probably  
 not till then, will it be admitted  
 that the citizens had a splendid  
 opportunity to secure a public  
 park but failed to do so. The  
 only way now to secure a new  
 city hall and public park is to  
 bond the city.

Bro. Trombley handed out a  
 great deal of criticism in the  
 presidential election in regard  
 to Republican standpatters and  
 Cannonism. From Bro. Trom-  
 bley's Democratic point of view  
 it was considered "rotton" poli-  
 tics. It will be observed that  
 no sooner does the Democratic  
 party assume power, when  
 President Wilson calls upon  
 the National legislators to  
 standpat on the free trade  
 tariff bill. And with the  
 same rules which Cannon con-  
 ducted the house, the Demo-  
 cratic members are being co-  
 erced to standpat for free trade.  
 In fact, standpatism under the  
 Democratic party is now being  
 worked to the limit, with the  
 Democratic bosses whipping  
 every weak-kneed member into  
 line. It is also decided by the  
 Senate Finance Committee that  
 no public hearing shall be given  
 on the tariff bill, so that every-  
 thing can be carried on in secret  
 behind closed doors.

There is a desire on the part  
 of some of the dairymen for a  
 stock show this summer, and  
 we have been asked to boost it,  
 for, as some of the dairymen  
 contend who have graded their  
 herds up with blooded stock,  
 they would like to place them  
 on exhibit and see what others  
 are doing along that line. We  
 see nothing to prevent a stock  
 show. All that is necessary to  
 bring this about is for the Fair-  
 view Grange and the Tillamook  
 Commercial Club to get to-  
 gether and each appoint a live  
 committee. Then a stock show  
 is assured. But the initiative  
 should be taken by the Grange,  
 for no matter how enthusiastic  
 the Commercial Club may take  
 hold of a stock show in connec-  
 tion with the Grange, it cannot  
 be made a success unless the  
 dairymen as a body co-operate.  
 We are assured that they will  
 do so, on the understanding  
 that the show will not be turned  
 into a fakir's fair. The new  
 slogan of the Commercial Club  
 is "Get busy! Do something  
 for the upbuilding of Tillamook  
 city and county." If the Fair-  
 view Grange will get busy and  
 help make it a success, we can  
 vouch that the club will do like-  
 wise. The county will receive  
 about \$700 from the State for  
 fair purposes, which will help  
 to defray the expenses.

The great calamity in Omaha was  
 quickly overshadowed by the ter-  
 ribly disastrous floods in Ohio.  
 Great suffering and sickness from  
 colds and exposure. L. Poole, 2217

**A CHILDREN'S BUREAU.**

**Our Government to Look  
 After the Rising Genera-  
 tion More Closely.**

The bill which recently passed  
 both houses of Congress now only  
 awaits the signature of the pres-  
 ident to become a law creating a  
 children's bureau in the Depart-  
 ment of Commerce and Labor.  
 This is a measure which is calcu-  
 lated to result in good to the peo-  
 ple through the influence it will  
 exert in promoting the welfare of  
 children.

The bill provides for the collec-  
 tion and dissemination of statistics  
 and other information relating to  
 all classes of child life, particularly  
 having reference to the investiga-  
 tion of infant mortality, the birth  
 rate, orphanage, juvenile courts,  
 desertions, dangerous occupations,  
 accidents to and diseases of chil-  
 dren, and the employment of chil-  
 dren and legislation in the various  
 states affecting their employment.  
 The text of the bill indicates that  
 there will be no attempt to en-  
 roach upon state legislation, but that  
 the bureau will confine its work to  
 the collection of the character of data  
 indicated and to publishing this in-  
 formation so that state legislatures  
 and state authorities may have the  
 benefit of this information for their  
 guidance in enacting and enforcing  
 laws. This being true, there can  
 be no logical objection to a national  
 law which has for its object the up-  
 lift of the human race; on the con-  
 trary, it should have the approval  
 of the people without exception,  
 and the bureau should have the as-  
 sistance of the public in its endeav-  
 or to secure the needed information.

By gathering statistics regarding  
 the diseases peculiar to children,  
 the death rate of children, the char-  
 acter of employment calculated to  
 affect their health and other mat-  
 ters of similar import, there should  
 result a more healthy race of chil-  
 dren, and consequently a more  
 healthy race of men and women.  
 The lives of children should be  
 brightened, their home life and  
 social surroundings should, in  
 many instance, be improved, and  
 child life generally should be plac-  
 ed on a higher plane. This, in ef-  
 fect, will result if the provisions of  
 the new law are faithfully carried  
 out, and this should make a bright-  
 er, better and happier world.—From  
 the San Antonio Express.

Turkey expected that the allies  
 arrayed against it would have been  
 fighting each other long before this,  
 but is always hopeful of the same  
 old jealousies.

A democratic contemporary says  
 there is no such thing as scientific  
 tariff. It evidently has in mind  
 the last Democratic tariff, which was a  
 monstrosity.

In the manner of the exorbitant  
 charges for foodstuffs no better ex-  
 planation can be given than that  
 the consumer is paying for some-  
 body's high priced automobile.

An Illinois farmer was killed by  
 his new automobile on an improved  
 road while going fifty miles an  
 hour. Agriculture should not al-  
 low itself to become too intensive.

A new House will be elected next  
 year, and if the tariff revisors fail  
 to reduce the cost of living by that  
 time, without impairing the means  
 of living, their excuses will not be  
 worth much.

A final decision has been made  
 by the Senate Finance Committee  
 that no public hearing shall be given  
 on the new tariff bill. The Demo-  
 crats believe more in free trade  
 than in free speech.

If the Republican secretary of  
 state had gone to California to co-  
 operate with the Legislature in  
 framing a bill there would have  
 been a shrill outcry from states  
 rights Democrats throughout the  
 country.

No doubt prompted by the wish  
 that is father to the thought, stories  
 of severe fighting between the Bul-  
 garians and the Greeks and the Bul-  
 garians and the Servians are being  
 sent out from Bucharest. The Rou-  
 manians have been hostile to the  
 Balkan alliance from the begin-  
 ning, and have so maneuvered,  
 with threats of attack upon the  
 rear, as to compel Bulgaria to give  
 Roumania a slice of the territory  
 conquered from Turkey, if not a  
 small part of Bulgaria also. Buchar-  
 est is no point from which correct  
 news of what is going on among  
 the allies may be expected. It is as  
 colored by prejudice as that which  
 formerly came from Vienna. Never-  
 theless, there appears to be some  
 friction among the allies as to the  
 exact division of the conquered ter-  
 ritory, which is proving to be some-  
 what less than was anticipated.  
 Apparently both Greece and Bul-  
 garia want Saloniki, and both have  
 armies of occupation there, thought  
 the town appears to be ruled by the  
 Greeks. The town was formerly a  
 part of Greece, and was captured by  
 the Greeks, and would seem naturally  
 to belong to the Greeks. But Bul-  
 garia wants a seaport.

# FARMERS!

## TAKE NOTICE.

**PROF. W. J. KERR,**  
 President of the Oregon Agricultural  
 College, and  
**E. SHROCK,** Deputy Dairy and Food  
 Commissioner, will talk on

# Demonstration Farms!
