The regular meeting of the Tillamook Commercial Club was held at the club rooms on Monday evening, May 26, 1913, President Baker presiding.

Minutes of the previous meeting were read and approved.

The secretary's report showing receipts for the month of \$167.20 and expenditures of \$183.41, was read and ordered accepted.

The following committee reports were received.

Reception Committee: President Baker reported that the committee had assisted in the entertainment of Prof. Hetzel of the Oregon Agricultural College and Mr. M. S. Shrock of the dairy and food commissioner's office during their recent visit in the city. He also reported that Food and Dairy Commissioner J. D. Mickle and F. H. Scribner of the U. S. bureau of animal husbandry would arrive in Tillamook on Tuesday, May 27, and requested members to assist in entertaining them.

B. C. Lamb reported for the reading room committee that a desk and stationery had been installed for use in letter writing.

Mr. Spalding reporting for the committee on county fair, appointed by the president since the last meeting, announced that a permanent county fair association is in process of formation, and that a live stock exhibit and fair would without doubt be held here during the month of September. It was moved and seconded that a committee be appointed to look into the advisability of issuing \$25.00 notes to refund the indebtedness of the club, notes to bear 6 per cent interest and to come due monthly. President Baker requested the members present to help the members of the G. A. R. to get automobiles for use in carrying the old soldiers to the cemetery on decoration day.

The committee on municipal affairs was requested to take up the matter of the enforcement of speed regulations for automobiles within the corporation limits.

The Nehalem Valley Dahlia Association Meets.

A number of local floral enthusiasts met at the home of F. A. Rowe Tuesday for the purpose of electing officers for the ensuing year who are to serve as active workers for the cause of preserving for the Nehalem Valley the dahlia as its official floral emblem.

They decided also to hold a floral exhibit in connection with the Industrial Fair to be held here August 30th, and to offer prizes for the best display of flowers. These prizes will be announced later. It is their desire that every citizen of the valley make an effort to put on an exhibit at this time in order to make this feature of the event equally as interesting and important as the industrial phase of the proposed fair, as was also the case last year and thus accomplish a double purpose in holding this annual event. We will thus be able to cover the field more thoroughly than if it were devoted solely to agricultural, horticultural, or industrial exhibits.

Mrs. L. M. Zaddach was elected president; Mrs. Louise Todd, secretary; and Mrs. Mary Scovell, treasurer of the Nehalem Valley Dahlia Association. These officials desire the co-operation and support of every one interested in floral exhibits and urge all to pay special attention to their flower gardens in order that they may raise prize winning specimens to put on exhibition August 30th, 1913, at the second Nehalem Valley Industrial and Floral Fair.—Nehalem Enterprise.

"Uncle" Lee Laughlin, a pioneer of 1847 and a veteran of the Indian war of 1855-60, passed away at his home in North Yamhill Sunday morning at the age of 80 years, celebrating his last birthday on January 17 of this year. He was, at the time of his death, the head of the Bank of Yamhill, and was the pioneer merchant of that town, running a general merchant store there for a number of years when the town was first settled. He was married twice, his first wife dying about 12 years ago. About 10 years ago he was married to Mrs. Anna Brown, who, with one 7-year-old, survive him. He also has a brother, William, of Yamhill, and a sister, Mrs. Nancy Capps, of Portland, living.

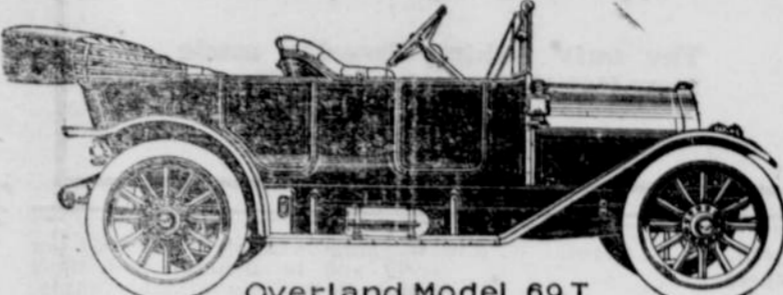

The deceased was well known in this county, where he often spent his summer vacations.

Health a Factor in Success.

The largest factor contributing to a man's success is undoubtedly health. It has been observed that a man is seldom sick when his bowels are regular—he is never well when they are constipated. For constipation you will find nothing quite so good as Chamberlain's Tablets. They not only move the bowels but improve the appetite and strengthen the digestion. They are sold by all dealers.

The 30 h.p. car, four or five passenger, \$1,150; with electric equipment and starter, for \$1,325; 45 h.p., fully equipped with electric starter and lights, \$1,800. A few exceptionally good bargains at reasonable prices.

Uses 1/3 Less Coal
The best Baker ever built
Built like a locomotive boiler
Riveted, not bolted together. No stove putty
Easy to keep clean. Saves work and money

ARCADIAN
AMERICA'S BEST RANGE
The Arcadian is a perfect baking range, and gives a perfect baker for a lifetime because it is built like a locomotive boiler. Built of malleable iron and charcoal iron riveted together instead of being bolted together. Made airtight without the use of stove putty to crumble and fall out, as happens in cast iron and so-called false ranges, allowing false drafts to fan the fire or deaden it.
The Arcadian Range will never have false drafts—it will always do perfect baking, using a third less fuel than common ranges.
Never need to use blackening—a rub with an old cloth makes it appear like new. It pays for itself over and over in the fuel it saves, to say nothing of the way it makes a woman's work easier and allows her to do perfect baking.
THE ARCADIAN IS SOLD BY US.
We invite you to call as we wish to demonstrate the value of this range to you.

In his third law lecture at Yale, former President Taft assailed the initiative and referendum plan of legislation as being "very much like legislation during the French revolution—the work of political cranks and directly contrary to the spirit of the constitution." Speaking of the income tax, he advocated a graduated tax on all incomes of \$100, or more on the ground that everybody ought to contribute something in order that he may feel more responsibility in the government. He criticized congressmen for paying too much attention to what their constituents want.
