### Lebanon Commences Laying Bitulithic.

Active work has commenced at Lebanon and 18 blocks of bitulithic paving are being laid in the thriving valley town.  
Lebanon carefully considered the matter of paved streets and before awarding contracts made a thorough investigation of paving materials in use in other cities and towns.  
Bitulithic was awarded the contract on account of several important reasons—prominent among them being that bitulithic is noiseless, lasting and durable—free from ruts and chuckholes and a paving material which in other cities has proven itself specially free from constant repair expenses.

### Take Plenty of Time to Eat.

There is a saying that "rapid eating is suicide." If you have formed the habit of eating too rapidly you are most likely suffering from indigestion or constipation, which will result eventually in serious illness unless corrected. Digestion begins in the mouth. Food should be thoroughly masticated and insalivated. Then when you have a fullness of the stomach or feel dull and stupid after eating, take one of Chamberlain's Tablets. Many severe cases of stomach trouble and constipation have been cured by the use of these tablets. They are easy to take and most agreeable in effect. Sold by all dealers.

Turkey has definitely ceded to Great Britain the island of Cyprus, which is nearly as large as Connecticut. I was seized by Richard I. of England in 1192, but recovered by the Turks. In 1879 they agreed that England should own it, but have just completed the bargain. It is a dull week when Turkey parts with none of its real estate in Europe.

### Lobbyists, Big and Little.

The dictionary defines the verb to lobby as an "endeavor to secure the passage of a bill in a legislative body by outside influence." Lobbyists are described as "persons engaged in lobbying with a particular deliberative body;" and, in general, the noun lobby means "an ante room, as of a legislative hall." It seems that the sinister impressions aroused by the word depend on circumstances, for no body would call President Wilson a lobbyist, though he is actively using his influence to shape, from the outside, a tariff revision in Congress, which is constitutionally charged with originating it. The president has also an ante room to a legislative hall, and is personally using it to a greater extent than was done by any predecessor. When the revision is finished the president will have the power to veto it, an authority certainly suggesting that Congress itself should not be vetoed in its making, nor dominated from the outside in any way. Etymologically, lobby is derived from an old Germanic word meaning an arbor. But it does not necessarily imply that somebody is hidden in the shrubbery.

Consumers in San Francisco and Los Angeles are rejoicing in the opportunity to purchase refrigerated beef from Australia at several cents a pound less than prices that have been prevailing for home supply. This is the beginning of what promises to be a very large fresh-beef trade between Australia and United States ports. At present shipments are being made to Pacific Coast ports only, but in a few months the Panama Canal will be completed, and then the Australian refrigerator steamers will be able to go to any port on the Gulf or the Atlantic almost as cheaply as to San Francisco.
