Uses 1/3 Less Coal  
The best Baker ever built  
Built like a locomotive boiler  
Riveted, not bolted together. No stove putty  
Easy to keep clean. Saves work and money

**ARCADIAN**  
AMERICA'S BEST RANGE

The Arcadian is a perfect baking range, and stays a perfect baker for a lifetime because it is built like a locomotive boiler. Built of malleable iron and charcoal iron riveted together instead of being bolted together. Made airtight without the use of stove putty to crumble and fall out, as happens in cast iron and so-called steel ranges, allowing false drafts to fan the fire or deaden it.

The Arcadian Range will never have false drafts—it will always do perfect baking, using a third less fuel than common ranges.

Never used to use blackening—a rub with an old cloth makes it appear like new. It puts a fresh coat over and over in the fuel it saves, to say nothing of the way it makes a woman's work easier and allows her to do perfect baking.

THE ARCADIAN IS SOLD BY US.  
We invite you to call on us with demonstration the value of this range to you.
