A. B. Countryman, the old wheel-horse of Grand Ronde, has changed his base of operations. He went over to Tillamook, and was so struck with the progressive spirit manifested in the matter of good roads that he tied up with an 80 acre ranch and has moved over there permanently. He says that there is no part of the state that is being fitted up with such excellent roads as that county. Miles upon miles of solid, hard surface being constructed each year, and they don't have to go outside of the county to get their overseer, either. We hope that our county, Old Yamhill, may catch the good roads spirit and keep the fine road growing right on down the line until there will be a hard surface road from Tillamook to Portland.—Willamina Times.

They will build and engage in business on their return. The Pacific Grange Bulletin says: A few days ago a company of bright boys from Tillamook, with their superintendent, came tramping over the mountains, enroute to the State Sunday School Convention. These boys were having a "good time" in their cutting and were getting much good practical knowledge and experience under the capable management of a mature and experienced man. These boys are sowing that they may reap in later years—not the "wild oats" that some would have you believe boys must sow, for "That which ye sow that shall ye also reap." Let us encourage our boy scouts, for they are mainly fellows learning manly virtues and deeds, and our Campfire Girls are little women learning homely virtues and graces. We need more such organizations for our young people, where they are under the guidance and protection of mature, intelligent virtuous men and women.
