

FAIR IS CONTINUED UNTIL SATURDAY.

Rain and Wind Storm Cause Delay.

A southwest rain and wind storm struck Tillamook on Tuesday and continued in full force until Wednesday. It was a genuine Tillamook mist that fell in torrents and demoralized the arrangements of the Board of Directors of the Tillamook County Fair Association had made for holding a fair and stock show.

In turning fine on Thursday morning things began to look better with prospects of good weather. This caused renewed energy and activity in preparing for the fair. Owing to the storm, the Board decided to continue the fair until Saturday.

What is known as the Snuffer building was nicely fitted up and decorated for the occasion, where the cheese, vegetables, flowers, etc., are on exhibition and present a fine appearance.

Speaking Program.

- The following addresses were arranged for Wednesday and Thursday: Miss B. Milam, Assistant Prof. of Domestic Science, talk on "Domestic Science in the Home" Prof. R. R. Graves, Prof. of Dairy Husbandry "A More Profitable Dairy Herd"

SETTLED AMICABLY.

Difficulty Settled Without Resorting to Courts and All of the Stock Ordered Sold.

Four of the sixteen pianos were sold yesterday and all of them must find buyers at once. There has never before been so many fine pianos on display in Tillamook and never before could you purchase a fine Kimball, Chickering, Smith and Barnes, Hallet and Davis, or an Autopiano and purchase so near to cost as right now.

Remember the Tillamook Music Company had paid us nearly one half the cost of the pianos and we are willing to give you the advantage of every dollar paid by them. We sold a piano yesterday at \$195.00 that would be cheap at \$300.00 under ordinary conditions.

Do not be skeptical. A visit to the store will convince you and you surely save a vast amount of money.

Remember you have all the advantages that accrue from dealing with Eilers Music House, their famous easy, monthly payment plan and unconditional guarantee of satisfaction. It is surely your fault if you don't buy now and 'tis hardly possible that a like opportunity will ever occur again.

EILERS MUSIC HOUSE,

In the Old Patzlaf Building.

Open Evenings.

Big Change in Contest.

IMPORTANT.

Owing to unavoidable circumstances, and with the permission of all contestants that have returned results into the subscription department, no tours to the World's Fair will be awarded until the night of the final close of the contest.

Two trips will be awarded, one to each of the two contestants having to their credit the highest number of votes 9 o'clock Wednesday night, September 24th, 1913. No tours will be given before that date.

ANOTHER IMPORTANT CHANGE.

Instead of allowing 5,000 votes, for the sale of a tour's contract to a prospect reported by a contestant, only 300 votes will be allowed. It will take subscriptions to get the big votes.

10,000 BONUS VOTES.

To the contestant turning in the greatest amount of subscription money between the dates of September 1, and 12 o'clock Wednesday, September 10, 10,000 extra bonus votes, in addition to the regular vote schedule will be allowed. This is a chance for everybody to get in and win even if you haven't as yet started. This is the biggest vote offer that will be made during the contest. Get busy!

EVERYBODY HAS A CHANCE.

Everybody has an equal chance in this contest. The highest number of votes now in is less than 5,000. Just one five years subscription will put you on top with the 1,000 nomination votes. Nominate yourself.

WHEN TO TURN IN RESULTS.

The contest manager will be in the office every evening between 7 and 8 o'clock, and on Saturday from 1 until 9 o'clock. If you cannot come at these hours you may leave your results in the office any time during the day.

YOUR BEST CHANCE.

This is the best chance you ever had to win a trip to the fair. 14 days—all expenses paid—European plan. If the winner of the first trip would prefer the money in the place of the trip they can have it. This trip is the \$111.50 trip.

The Presbyterian Church.

The Presbytery of Portland has planned to make the month of September the "Sunday School Month" in all the churches of the Presbytery. Next Sunday, Sept. 7th, Rev. A. M. Williams, the district educational superintendent for the Synod of Oregon, together with Rev. C. W. Hays, D.D., Sunday School missionary of the Portland Presbytery, will be in Tillamook, and will conduct three conferences in the Presbyterian church. The hours are 11 to 12 a. m., 4 to 5 p. m., and 8 to 9 p. m. At the afternoon conference all Sunday School workers, including officers, teachers, and scholars over 13 years,

Industrial Fair at Nehalem.

The Industrial Fair at Nehalem on Saturday was well attended, with quite a number of citizens from this city and the central part of the county, who went there by auto and train. The weather was delightful and all the arrangements were nicely carried out by the different committees. Mrs. Todd again won the first prize for the best display of dahlias, with Mrs. Zaddach second. Mrs. Todd's display was artistically arranged, with a design of "1913" in dahlias of a light color in the center of dahlias of a darker color. The display of vegetables, fruit, cake, bread, etc., by the school children showed the lively interest they take in these industrial fairs. Everything passed off pleasantly, the fair being a success in every particular, reflecting great credit on the ladies of Nehalem and others who had charge of it. Those who were awarded prizes are as follows:

- DAHLIA PRIZE LIST. Routledge, Portland, Oregon, prizes given in seeds or bulbs: Largest specimen dahlias—Gelsha, Mrs. Todd; Bertha Von Sultner, Mrs. Zaddach; Borneman's Lieblich, Ralph McKimens; Goldregan, Mrs. Zaddach; Sov. de Gustave Doazan, Ralph McKimens; Clark Bros., Portland, Oregon. Best 25 cactus, Mrs. Todd; best peony, Mrs. Zaddach. J. J. Broomall, Eagle Rock, Los Angeles, Cal. Best 25 cactus, Mrs. Zaddach; best decorative, Mrs. Zaddach. Lilly's, Portland, Ore. Best general display, 1st, Mrs. Todd; 2nd, Mrs. Zaddach. Gill Bros., Portland, Ore. Best general display, 1st, Mrs. Todd; 2nd, Mrs. Zaddach; 3rd, Mrs. Effenberger; 4th, Rockaway.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and, unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars. Free.

A Retort.

The Warren Construction Co. is reported to be getting ready to move its plant from this city. Some of our people are wondering if the Headlight will follow suit. The consensus of opinion is of the effect that it might as well.—Herald.

We want to pay our respects to Bro. Trombley, a leading light of one of the Protestant churches of this city, and one of those holy, Simon pure kind of fellows who profess Christianity but fail to follow its precepts very closely, for no person with a true Christian spirit should hope and pray that his competitor quit business and leave the city. Dear, Bro. Trombley, get down on your narrow bones and pray that you may be forgiven for your uncharitable and unchristian spirit towards one who has no ill feeling towards you, but who wish you well and success in business and that you won't be compelled to leave the city on account of being a lucky to a few selfish, rule or ruin, individuals. It is as plain as the nose on a man's face that Bro. Trombley is only tooting his horn to express the sentiment of those who cannot dictate and control the editor of the Headlight. So let it go at that, for we have for the last 15 years seen that kind of tommy-rot in the Herald, and we can look back with calm complacency at the numerous editors of our contemporary who have had to leave the city for being the cat's paws and snivelling little puppies of a few plutocratic individuals whose policy was to rule or ruin as well as fleece people. Say, Bro., what about that low down, dirty, sneaking detective business?—Ed.

MUTUAL TELEPHONE COMPANY ANNUAL MEETING.

The attention of the stock holders of the Tillamook County Mutual Telephone Company is hereby called to the annual meeting and election of officers for the coming year for the first Saturday in September, being next Saturday the 6th. Said meeting will be held in the County Court room, Tillamook City, at the hour of one o'clock, P. M. It is hoped that every stockholder who can will attend this meeting. W. S. Buel, Sec.

Can't Afford to Have Kidney Trouble.

No man with a family to support can afford to have kidney trouble, nor need he fear it with such a remedy at hand as Foley's Kidney Pills. An honest medicine, safe and reliable, costing little but doing much good. Foley's Kidney Pills eliminate backache, and rheumatism, tone up the system and restore normal action of kidneys and bladder. For sale by all druggists.

Diarrhoea Quickly Cured.

"I was taken with diarrhoea and Mr. Yorks, the merchant here, persuaded me to try a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After taking one dose of it I was cured. It also cures others that I gave it to." writes M. E. Gebhart, Oreole, Pa. That is not at all unusual. An ordinary attack of diarrhoea can almost invariably be cured by one or two doses of this remedy. For sale by all dealers.

The healing demulcent qualities of Foley's Honey and Tar Compound are not duplicated in any other medicine for coughs and colds. Any substitute offered you is an inferior article. Refuse to accept it for it cannot produce the healing and soothing effect of Foley's Honey and Tar Compound. Insist upon the genuine, which contains no opiates. For sale by all druggists.

Nautical Terms. Terms used aboard ship are interesting and might, in collision, be useful. Toward the ship's head is forward (pronounced for'ard). The opposite direction is aft. Looking for'ard and to the right is starboard; to the left is port. The quarter from which the wind blows is windward; its opposite is to leeward (pronounced loo'ard). A scuttle is a window on board ship; a stairway is a companion ladder; a bed is a bunk; a kitchen range is a galley. This term is also applied to the captain's own boat. The forecastle (pronounced fo'c's'le) is any covered place in the bows. A knot is a speed of one sea mile per hour, 6,080 feet. The ship wears a flag; that is the correct term. Passages are gangways. Bollards are stout pillars round which run the hawsers—steel wire ropes. The bridge is sacred to the captain and officers.—London Tit-Bits.

Perpetual Motion Cranks. Judging from the applications for patents, one a week, all Great Britain apparently is trying to invent a perpetual motion machine, only Great Britain calls it a "self moving engine." The wires and bones of models may be found bleaching in hundreds on the shelves of the patent office. It goes without saying that not one shows the slightest inclination to move itself.

Varied and often pathetic are the histories of the inventors. Not a few of them have spent the years of their prime in the chase of this unattainable will o' the wisp; others have dropped thousands of pounds in the quest; still others have trailed the quarry into the insane asylums. If all the wasted energy spent in seeking the solution of this problem had been converted into the beaten channels of endeavor the patent office officials believe there would be few problems of mechanics left today unsolved.—New York Sun.

A Railway Across the Open Sea. The Florida Keys railway runs from the mainland for a distance of 124 miles over what is practically open sea. Imagine a string of tiny islets stretching like the broken off pliers of some Titanic bridge right out into the great salt ocean and you have the Florida keys. Most of them are only a few rods in extent. Here and there is one that reckons its area in acres, while four or five among them are islands rather than islets, covering several square miles. Big or little, however, they serve merely as stations for the railway, which runs over and upon them with the open sea on either side of it. Moreover, the viaducts and embankments that carry the trains, although immensely strong, are so narrow and steep that the passengers look out upon ocean only. There is no land whatever in sight during the greater part of the trip.—Exchange.

What Happened. "Are you the man who writes all this joyous advice about scattering sunshine and giving everybody that seem worried a glad hand and a word of encouragement?" "Yes," said the man with scarce hair and inkly fingers. "I am one of the professional optimists who do that sort of thing."

"Well, I'm not going to sue you for damages or false pretenses or anything of that kind. I just want to let you know that I tried to heed your lesson I went to one of our great cities and tried to speak words of cheer and comfort to the overburdened souls that I saw rushing past me."

"What happened?" "Before I had cheered up four people I got arrested for being a confidence man."—Washington Star.

The Flying Frog of Java.

The Javanese frog is a creature measuring between fifteen and twenty five inches. The skin of its back is pale blue and by night looks dark green or olive brown. The frog remains motionless during the day, with eyes sheltered from the light and with belly up, clinging to its support by adhesive cushions and by its belly, which is provided with a sticky covering, and it is hardly distinguishable from the objects that surround it. At nightfall it begins its hunt for the mammoth crickets on which it feeds, making leaps covering seven feet of ground. During the leap the play of lungs filled with air swells its body. To descend from a height it spreads wide its claws and, dropping, rests upon its feet.—Exchange.

Benefits of Olive Oil.

Not every one realizes the medicinal properties of olive oil. It is quite true that the machinery of the body needs oiling occasionally, like any mechanical machine which is constantly in use, and olive oil taken internally is exceedingly beneficial. A tablespoonful will aid digestion and ease liver trouble. Olive oil should be served frequently as a dressing. Taken either with salads or alone it is beneficial for catarrh either of the stomach or throat.

Making It Easy.

Man (on dock)—What in the mischief are you rowing with that trunk in the bow of the boat for, Pat? Pat—Sure, an' if it was in the stern of the boat wouldn't I be rowin' uphill all the time? An' this way I'm rowin' downhill all the time.—Yale Record.

Getting On.

"How's that young son-in-law of yours getting on?" "Great! Last week he made within \$150 of my daughter's actual expenses."—Detroit Free Press.

The youth who does not look up will look down, and the spirit that does not soar is destined perhaps to grovel.—Disraeli.
