Death of Gust Nelson.

Considerable regret and surprise when it became known that Gust Nelson had passed away. He had been unwell since he was thrown out of a buggy with County Commissioner Edner, and meeting with Master H S. Hudson made a short another fall he became suddenly worse last Friday. The deceased was one of the most respected citizens in the county, and Bay City has lost a good business man.

The funeral took place on Wed mesday, a 'arge number of persons ago, and having a reserve fund, it going from this city to pay their last token of respect, carrying with party, believing that its principles fendants have wrongfully and unthem beautiful flowers.

> Gust Nelson successfully enland. Unto him and his wife were

Gust Nelson obtained his education in the common schools of his native country and after putting aside his text-books took up the work of the fields. In 1881, when a youth of fifteen he crossed the At. county. lantic to the United States, locating was engaged in railroad work until

Tillamook county but leases the certain land in Lincoln County, and

was united in marriage to Miss Luella Ford, a native of Kansas and a daughter of A. and Lucinda (Cavitt) Ford. The father, a carpenter by trade, passed away in Oregon. The mother, however, still survives and makes her home with our subject. Mr. and Mrs. Nelson have one daughter, Bernice Irene, who was born in Bay City.

In politics Mr. Nelson is a stalmunity. His religious faith is in dicated by his membership in the Mc'hodist church. He is a worthy exemplar of the Masonic fraternity belonging to lodge No. 102 at Ba City and to the Eastern Star, o which he acts as patron. The local lodge of the Independent Order of Odd Fellows, also numbers him among its valued members. Coming to the new world in early life, he has wisely utilized the oppor tunities which have presented themselves and has worked his way steadily upward to a position among the prosperous and respected citizens of Tillamook

Bear Fighting.

In the seventeenth century on feast days the life of the czar of Russia was enlivened with such amusements as a battle to the death between a bear and a spearman, in which, it is said. frequently the man lost his life. In the event of a successful issue the spearman was rewarded by being taken to the royal cellars, where he was allowed to drink as much as he

Chambers nodded to the waiter, brought in some French artichoker "You see," explained Chamb these are a great delicacy. You pr off the leaves and dip the ends

the sauce and eat the ends only." Hearst smiled a little and follow directions. As they progressed Char pers said complacently: "Pretty goo eh? I don't suppose you ever saw artichoke before.

"Well," Hearst replied, "I can't go far as that. You see, Chambers, had 400 acres of them growing th last time I was out at our Califor ranch."-Saturday Evening Post.

Fans In the Eighteenth Century. A letter in the London Spectr dated May, 1711, gives a most intere ing description of an academy whe ladies could be drilled in the prope use of their fans and initiated into the mysteries of "the angry flutter, the nodest flutter, the timorous flutter, the confused flutter, the merry flutter and the amorous flutter." In the eighter entury at dancing assemblies in London, Bath and other places of fashio able resort gentlemen chose their part ners by "lottery of the fan." The fans of all the ladies present were placed in a hat, whence each gentleman had the privilege of selecting one, the lady to whom it belonged becoming his allotted partner for the evening. Of cours such a custom entailed a great study of fans on the part of the gentlemen Boswell, Steele and Pope found some thing to say about the fan, and Guy, enlarging upon the efforts of his prederessors, wrote a long poem in praise of the fan, attributing its invention to

How Brazilians Bag Wild Fowl, From "The Log of a Rolling Stone," by Henry Arthur Broome, comes the following curious mode of bagging wild fowl in Brazil by way of eco ammunition:

"The expedient is to get hold of a very large pumpkin and, after scoop ing out the ment and seeds inside to cut two little eveholes in it and then place it on the hunter's head. He then wades through the sedge and flags into deeper water up to his neck, where the wild fowl are feeding, who gather that it is merely a numpkin innocently floating on the surface. The hunter then soon gets into the midst of his quarry and, seizing them by the legs, pulls them quietly under water, where he tucks them under a belt fastened round his waist, and as their compar ions presume that one unfortunate bird after another is only diving for food the bunter gets a waistful in no the and returns well satisfied to the

Romance of a Picture The ups and downs of the artist's calling are well illustrated by the fortunes and misfortunes of the late M. Sukhorovsky, a Russian artist. His celebrated painting, "Nana," was erhibited all over the world and made a fortune for himself and others. After personally receiving some \$300,000 for its exhibition the artist, thinking its vogue over, sold "Nana" for \$21,000, and the dealer resold it at double the price. An American bought it and showed it all through the United States, Canada and South America and is reported to have made \$1,000, 000 by the enterprise. On the other hand, the artist lost all his money by unfortunate investments and was reduced almost to beggary.
