The giving of each of the two houses of the Philippine Legislature a Filipino majority is not the most salient feature of the change in plan of government. The veto power formerly vested in the resident commission, with a majority of American members, has been taken away and placed in the hands of the president. While there has been a wide diversity of opinion

as to the desirability of the possession of Philippines, students have almost unanimously agreed that the administration of the islands has been the most benevolent and practically beneficent in the history of colonies. Instead of exploiting the Philippines, Uncle Sam has pursued a policy of helpfulness to the inhabitants. The achievement in sanitation alone

has been the marvel of the world. The progress in education has been but a little less wonderful.

One of the ships that went to rescue of the Volturno was lost with oil and poured it on troubled waters with good result. All were not saved in the storm, but the record of rescue is remarkable under the circumstances.

Avoid Sedative Cough Medicines.

If you want to contribute directly to the occurrence of capillary bronchitis and pneumonia use cough medicines that contain codeine, morphine, heroin and other sedatives when you have a cough or cold. An expectorant like Chamberlain's Cough Remedy is what is needed. That cleans out the culture bed, and breeding places for the germs of pneumonia and other, germ diseases. That is why pneumonia never results from a cold when Chamberlain's Cough Remedy is used. It has a world wide reputation for its cures. It contains no morphine or other sedative. For sale by Lamar's Drug Store.

A Marvelous Escape.

"My little boy had a marvelous escape," writes P. F. Bastians of Prince Albert, Cape of Good Hope. It occurred in the middle of the night. He got a very severe attack of croup. As luck would have it, I had a large bottle of Chamberlain's Cough Remedy in the house. After following the directions for an hour and twenty minutes he was through all danger."
