**Editorial Snap Shots.**

A happy new year.

Washington County is wak-  
 ing up. The budget calls for  
 \$180,000 for roads and bridges.

During next summer's rush  
 of beach business, a night train  
 from either end would be well  
 patronized.

Take a new year's pledge that  
 you will patronize home mer-  
 chants and home industries the  
 coming year. That is one way  
 to help make the city prosper-  
 ous.

Watch Tillamook county and  
 city grow the coming year. It  
 is predicted that 1914 will be a  
 hummer, not only in city im-  
 provements, but in industrial  
 progress and enterprises, and a  
 big beach business.

We don't hear very much at  
 the present time about the sov-  
 ereign will of the people, but  
 why not submit it to a vote of  
 the people whether the abut-  
 ting property owners or the city  
 is to pay for the pavement.

The Warren Construction Co.  
 has rendered a bill for the cost  
 of the sewer system, but as the  
 contract was let under similar  
 circumstances to the paving  
 contract, which cannot be as-  
 sessed to the property owners  
 on account of a technical error,  
 who will have to pay for it?

It is to be hoped, if an experi-  
 ment is to be made with con-  
 crete roads, that only a limited  
 amount be tried. And even be-  
 fore any money is expended in  
 that direction it might be well  
 to investigate and ascertain the  
 whys and the wherefores of con-  
 crete paving turning out unsat-  
 isfactory in other places.

Nearly 100 Young America  
 cheese were mailed by parcels  
 post two days last week, which  
 were sent as Christmas presents  
 to different parts of the United  
 States. This all helps to en-  
 hance the reputation of Tilla-  
 mook's famous cheese and ad-  
 vertise the county. Notwith-  
 standing that a large number of  
 Young Americans were manu-  
 factured, they went off like hot  
 cakes.

Justice Stanley is under the  
 impression that the County At-  
 torney should investigate some  
 of the evidence in the Bay City  
 case that was tried before him  
 last week, for he believes that  
 some of the witnesses perjured  
 themselves when Attorney  
 Goynne pointed out some ques-  
 tionable dates in a bank pass  
 book, quite a number of the al-  
 leged deposits being made on  
 holidays and when the bank  
 was closed.

Now who is right? The per-  
 son who said that the County  
 Court made a mistake when it  
 laid the piece of hard surfaced  
 road north of town or the per-  
 son who said the court made a  
 mistake by not building more of  
 it. Yet this is very character-  
 istic of some persons in this  
 neck of the woods. Those who  
 bring about improvements and  
 are aggressive in the upbuild-  
 ing of the city and the county  
 must expect opposition.

We are surprised at the num-  
 ber of men who have been look-  
 ing for work in this city, some  
 of whom came here with the  
 idea that as this is a great dairy  
 producing country there would  
 be plenty of work. We have

heard of one man going to work  
 for 50c. a day and his board. It  
 is certainly poor pay, but in-  
 stead of drawing on the money  
 he had saved to keep him for  
 several months, he accepted the  
 small wage until work at good  
 wages is more plentiful.

Governor West was wanting  
 \$50,000 of the State's money to  
 put the unemployed to work.  
 We hope that this is not an in-  
 dication that the country is on  
 the eve of hard times. If any  
 State money is expended to give  
 work to the unemployed, it is  
 to be hoped that the unemploy-  
 ed in every county will be con-  
 sidered as well, and not those  
 who hang around large cities.  
 But most taxpayers think that  
 the State tax is high enough  
 without piling on more agony  
 for the taxpayers to pack.

After deliberating for two  
 weeks, State Senator Booth, of  
 Eugene, has consented to run  
 for United States Senator on the  
 Republican ticket. Mr. Booth  
 is a clean, upright gentleman,  
 one in whom the people of the  
 state can place implicit confi-  
 dence in. He is sure to meet  
 with some opposition in Port-  
 land, for that city heretofore  
 have favored a Portland man  
 for United States Senator. We  
 believe that the candidacy of  
 Mr. Booth will help unite the  
 Republican party of this state.

So that our readers may know  
 what a trivial thing a technical  
 error is in the pavement case,  
 an ordinance was passed on the  
 25th March and it was the 4th  
 April before the City Recorder  
 presented it to the Mayor for  
 his signature. And on account  
 of this short delay the Circuit  
 Court has decided that the prop-  
 erty owners cannot be made  
 to pay for the pavement, but it  
 will fall on the city to do so. It  
 is technical errors like this  
 that make business for attor-  
 neys and take the time of the  
 courts, and, as in this case, de-  
 feats justice and equity.

The Nehalem Valley Reporter  
 feels highly indignant because  
 the taxpayers meeting did not  
 give that part of the county a  
 square deal, and W. G. Dwight  
 came in for a severe scorching  
 at the hands of the Reporter.  
 Well, he certainly deserved it,  
 for anyone who had the gall to  
 want to vote 100 proxies at the  
 taxpayers' meeting ought to be  
 scorching. What does he take  
 our citizens for, anyway, to at-  
 tempt to work a trick on them  
 in that way? See if we are not  
 right. It will act as a boomerang  
 to the timbermen some day.

The Progressive bugaboo is  
 dying a natural death, only a  
 few cranks remaining with the  
 faction that thought they would  
 create a new party on ex-Presi-  
 dent Roosevelt's popularity. It  
 is now quite amusing to hear  
 the confessions of so-called Pro-  
 gressives that the G.O.P. was  
 always a progressive party. To  
 our way of thinking, there is  
 no difference between the Pro-  
 gressive party and the Mexicans,  
 for neither can give a logical  
 reason what they fought for,  
 other than to enhance a politi-  
 cal god or a fighting general.

Judging by the editorials in the  
 Tillamook Herald, Editor Baker,  
 must be down and out. Far from  
 it, he will come back stronger than  
 ever before long. He's next to the  
 possum game, and will bear watch-  
 ing at all times.—Nehalem Valley  
 Reporter.

Don't worry, Bro. Effenberger,  
 about Editor Baker, "he's next  
 to the possum game" of land  
 traders writing editorial matter  
 for the Herald, and the citizens  
 have caught on and can't be  
 fooled all the time by the news-  
 paper that allows itself to be a  
 tool in the hands of land specu-  
 lators. Freddie Beals is only  
 following Claude Thayer in his  
 effort to control the Press of this  
 city, but he has run up against  
 a snag, for he cannot control us  
 the same way as he does the  
 possum in the Herald office.

We wish to draw attention to  
 one little incident. Whenever  
 anyone wants to "knock" and  
 have a grouch against county  
 officials they hike off to Bay City  
 for sympathy and support. It  
 is to be hoped that Bay City  
 will turn over a new leaf for  
 the new year and help boost for  
 improvements in all parts of the  
 county. Whenever any faction  
 or section of the county under-  
 takes to curtail road improve-  
 ments, as they did this year, it  
 is doing the county a serious in-  
 jury at a time when it is most

needed. There may be a few  
 Bay Cityites who willingly allow  
 the "knockers" to pull their legs,  
 but there are those there who  
 are opposed to that city being  
 made the "Knockers' Head-  
 quarters," for that is the repu-  
 tation that that city is getting.

The express companies claim  
 they have lost 50 per cent of  
 business owing to the parcels  
 post. We have no sympathy  
 whatever for them, for they bled  
 the people with excessive rates  
 which forced the agitation for a  
 parcels post. Those who have  
 been sending small parcels this  
 Christmas have quit the ex-  
 press companies, and by send-  
 ing them by parcels post have  
 saved considerable money this  
 year. When the 20 pound rate  
 in parcels post goes into effect  
 the first year, this will cripple  
 the express still further, and  
 it is our opinion that in a year  
 or so the express companies will  
 be frozen out. And no one will  
 feel sorry if they are. In con-  
 nection with this, the telegraph  
 and telephone companies are  
 getting scared and conceding  
 points they have long fought  
 against granting, for they are  
 afraid of an agitation for the  
 government to add telephoning  
 and telegraphing to the postal  
 service.

We admire the rough shod  
 style of the Nehalem Valley Re-  
 porter in making war on what  
 it terms "real estate agents and  
 money sharks." We feel con-  
 fident that the Press of Tilla-  
 mook county does not want to  
 "knock" real estate agents who  
 are doing honest, legitimate  
 business, but we do say this  
 that there are real estate sharks  
 who are doing the county harm  
 by selling property under false  
 representation. We were in  
 hope that the Federal Govern-  
 ment last summer would indict  
 those who sold logged off land  
 south of this city under the mis-  
 representation that it was fruit  
 land. Quite a number of per-  
 sons came in to see the land  
 after they purchased it, only to  
 find out that they had been bun-  
 cowed by real estate sharks. And  
 complaints are made that some  
 land companies in this county  
 are disposing of lots in the East  
 and Middle West under false  
 misrepresentation and at big  
 prices. Yet it is the "real estate  
 agents and money sharks," as  
 the Reporter calls them, who  
 want to run city and county af-  
 fairs. Another nuisance in this  
 city is the real estate agents'  
 pimps tagging onto and hang-  
 ing around strangers at the  
 hotels to ascertain whether they  
 intend to buy real estate.

It is beginning to dawn on a  
 good many good roads enthusi-  
 asts and the County Courts of  
 the State that a large amount  
 of money is being expended on  
 main highways with far from  
 satisfactory results. It is more  
 so in Tillamook than most of the  
 other counties on account of so  
 much rain. No matter how fine  
 a piece of macadam road may  
 be constructed, it is but a short  
 time before it requires addi-  
 tional expenditure for mainte-  
 nance, in fact, there are roads in  
 this county which have to be  
 fixed in the spring and the fall  
 of every year. To obviate this  
 annual expenditure, good roads  
 advocates are turning their at-  
 tention to hard surfaced county  
 roads for the main highways,  
 and it is a move in the right  
 direction. Multnomah is the  
 first county to push the build-  
 ing of that kind of main high-  
 way, and it will not be long  
 before other counties will be  
 doing the same. This county  
 did a little experiment along  
 that line, and even those who  
 did not approve of the experi-  
 ment and thought it a waste of  
 money, have changed their op-  
 inions and agree that it is not  
 only economy to build that kind  
 of road, but there is as much  
 difference between chalk and  
 cheese as there is between gra-  
 veled and hard surfaced roads.  
 No account of the expense, it is  
 necessary to go slow, with the  
 expectation of finding a pave-  
 ment that is less costly. It is  
 easy enough to do that, but the  
 cheap pavements have proved  
 that they are the most expen-  
 sive and unsatisfactory. We  
 want to see a hard surfaced road  
 through the entire length of the  
 county, and we believe that it is  
 good business sense and econ-  
 omy to expend a certain amount  
 every year for that purpose. It  
 is only a question of time that  
 if this is delayed there will be a  
 sentiment to bond the county  
 to bring this about.

**Why You Need a New Range**

Some housewives who display a remarkable amount of broad, sound, common sense along other lines, persist in the delusion--and it is a delusion--that they are really practicing economy by trying to get along--to get results--out of an old, worn-out range merely to save the price of a new one.

Your old range or stove was put together with putty and stove bolts and probably you can stick a pencil in the seams and joints anywhere on it where the stove putty has crumbled away. When a range gets in that condition, it takes fuel enough to warm all outdoors in order to get your even hot enough for baking--and then you run the risk of burning whatever is in the oven. You can soon burn up the price of the best range ever made in a useless waste of fuel in an old, worn-out stove or range--and that's neither practical economy nor good management.

If you would practice real economy in your household management, it will pay you, the next time you are in town, to call at our store and inquire closely into the perfect baking and remarkable fuel saving qualities of the

**Great Majestic Malleable and Charcoal Iron Range**

**Outwears Three Ordinary Ranges**

It is the only range made entirely of malleable iron and charcoal iron. Charcoal iron soon rusts like steel--malleable iron can't rust, and while the first cost of a Great Majestic may be more than some other ranges, it outwears 3 ordinary ranges.

**Half The Fuel**

The Majestic is put together with rivets (not bolts and stove putty) making it absolutely air tight, like an engine boiler. The joints and seams will remain air tight forever as neither expansion nor contraction can affect or open them.

**Pure Asbestos Lining**

In addition, it is lined with pure asbestos board, covered with an open iron grate--you can see it. No heat escapes--no cold air gets into the oven--saves half the fuel and assures perfect baking.

**Movable Copper Reservoir**

The reservoir is all copper, heated like a tea kettle through copper pocket (stamped from one piece of copper) setting against left hand lining of fire box. It boils 15 gallons of water in a jiffy and, by turning lever, the frame and reservoir--moves away from fire. This feature is patented and can be used only on the Majestic.

Ask us to show you the greatest improvement ever put into a range--makes Majestic 300% stronger when other ranges are weakest.

**Other Exclusive Features**

It's the best range at any price, and should be in your kitchen.
