Field Worker Comes in April. Prof. H. T. French, of the Oregon State Agricultural College having in charge the farm management, field studies and demonstration work, sent the following letter to County Clerk J. C. Holden: "We have secured the services of Roy C. Jones for Tillamook county in the farm field and demonstration work. He is a graduate of the University of Vermont, Dairy Department, and has had some five or six years of practical experience in dairy work, and has been connected with the Agricultural College of Montana, and has made good in the Department of Dairy Production, which includes the feeding and management of dairy stock along the lines which will be useful in your section. We could not secure him were it not for the fact that his wife's health is such that he is compelled to move to the coast or to a lower altitude such as Tillamook offers. I am sure he will make a valuable man for the work in your section. "We may not be able to secure his services before April 1, for he cannot leave his present position until someone is secured to take his place. "I will take the matter up with the State Dairy and Food Commissioner and see if we cannot visit your section at the same time he is there."

Elwood Creamery Co. wishes to receive bids for hauling cheese to Tillamook Wharf and train. Leave bids at Carl Haberlach's office on or before March 15, 1914. ELWOOD CREAMERY CO.

HOUSEKEEPERS Must be Watchful

For great efforts are being made in this vicinity to sell baking powders of inferior class, made from alum acids and lime phosphates, both undesirable to those who require high-grade cream of tartar baking powder to make clean and healthful food.

The official Government tests have shown Royal Baking Powder to be a pure, healthful, grape cream of tartar baking powder, of highest strength, and care should be taken to prevent the substitution of any other brand in its place.

Royal Baking Powder costs only a fair price per pound, and is cheaper and better at its price than any other baking powder in the world.

King and Peterson Sign with Baker City Ball Team.

Jimmy Richardson is back from Tillamook, but this time it is not news of baseball leagues that he brings, but of trout, big fat ones, and to be had in any number for a few hours work on the streams of the coast, says the Oregonian. "Sammy did not catch fish himself. He is not an enthusiastic angler. He leaves the fishing to others—that is, until the piscatorial prize is ready to serve on the table. "Dutch" Armbruster, ex-big leaguer and coast baseball star, did the Tillamook fishing honors for Richardson. The ex-White Sox and Beaver pitcher is now engaged in business at Tillamook. Richardson did manage to start some baseball in the cheese country and reports that the town of Tillamook is expecting a successful season on the diamond. Armbruster will catch for the Tillamook team. Richardson signed another Tillamook player for the Baker team of the Western Tri-State. The recruit is Clint King, a deputy sheriff. King is a pitcher, infielder or outfielder. He is a right handed thrower and bats left-handed, is 21 years of age, and was recommended by Armbruster. Gunnar Peterson, another ex-Tillamook star, has also signed a Baker contract. The two Tillamook ball players will go into training at Salem on the 24th of this month.

To the Voters of Tillamook County.

I hereby announce myself as a candidate for re-nomination on the Republican ticket for the office of County Coroner, at the primary election on May 15th, 1914. Respectfully, W. C. HAWK.

Don't Buy Any Range "Unseen, Unseen"

If anyone should ask you to buy a team of horses "unseen, unseen," from a mere printed description you would think he intended to "sting" you. Now there is no more sense in buying a range "unseen, unseen" than there is in buying a team of horses—nor is it necessary. The Great Majestic is in use in almost every township in the United States west of the New England States—and it will pay you to drive an extra ten miles, if need be, to see and carefully examine the Great Majestic—the range with a reputation—built on honor—of the best material before investing your money in a range of any kind. You don't buy a range every day, or indeed, every year, and when you do, you want the best your money can procure—that's the

Great Majestic Malleable and Charcoal Iron Range

Outwears Three Ordinary Ranges. It is the only range made entirely of malleable iron and charcoal iron. Charcoal iron won't rust like steel—malleable iron can't break, and while the first cost of a Great Majestic may be more than some other ranges, it outwears three ordinary ranges. Economical—Saves Half Your Fuel. The Majestic is put together with pivots (not bolts and stove putty). The joints and seams will remain air tight forever. The oven is lined with guaranteed pure asbestos board, covered with an iron grate which you can see it. No heat escapes or cold air gets in. Takes but half the fuel of other ranges for perfect baking. All Copper Reservoir—Against Fire. The reservoir is all copper and I have a tea kettle through a copper pipe stamped from one piece of copper, set against left hand lining of fire box, holds 15 gallons of water in a very few moments and is instantly moved away from the fire. Ask Us To Show You The Greatest Improvement Ever Put in a Range. Increasing the strength and wear of Great Majestic more than 200% at a cost you can see it. To inquire about this feature.
