

# The Fact Remains

No amount of misrepresentation by the peddlers of alum baking powders, no juggling with chemicals, or pretended analysis, or cooked-up certificates, or falsehoods of any kind, can change the fact that

**Royal Baking Powder** has been found by the official examinations to be of the highest leavening efficiency, free from alum, and of absolute purity and wholesomeness.

Royal Baking Powder is indispensable for making finest and most economical food.

### All Bids Rejected.

The County Court opened bids on Friday for the construction of a bridge of concrete or steel, over West Beaver Creek, near the Kinna man place which were as follows: North Coast Contract Co., concrete, \$4,600.00; J. H. Tillman Co., steel, 3,620.00; Globe Contracting Co., concrete, 3,996.00; Coast Bridge Co., steel, 2,952.00; Globe Contracting Co., steel, 3,125.00; P. W. Lingley, steel, 3,200.00. The court rejected all the bids and instructed the County Clerk to re-advertise for concrete only.

In the matter of bids on the Narcarney Mountain road, the bid of J. H. Hicks, for \$5,000 was rejected.

### Death of Joseph O. Petty.

We are sorry to announce the death of Mr. Joseph Owen Petty, which took place at his home in Tillamook somewhat unexpectedly on Friday, the 27th March, after a few hours illness. Although Mr. Petty had not been in good health for some time, his death came as a shock to the family and his neighbors.

The deceased was born in Pittsfield, Illinois, Nov. 8th, 1866, and at 19 years of age moved to Clinton, Missouri, where he married Miss Margaret Jane Courter, November 27th, 1891. To this union seven children were born, five sons and two daughters. All are living with the exception of the oldest son, who died in Clinton, Missouri. The oldest daughter, Mrs. E. W. Abraham, resides at Gaston, Oregon, and the other children are at home with their mother in this city.

The funeral services were held on Sunday afternoon at the Adventist church, conducted by Rev. J. E. Jope, of the Christian church. Mr. Petty came to this city with his family from Portland four years ago, and during their residence here made many friends. He was a man well respected by all who knew him, as well as a loving husband and affectionate father. The bereaved widow and family have the kind sympathy of their neighbors in their hour of sorrow.

### Commission to Settle Tillamook Complaints.

SALEM, Oregon, March 30.—The question of exempting portions of the Pacific Railway & Navigation Company's right of way from the operation of the state fencing law will come before the railroad commission at a hearing announced to be held in Hillsboro on the afternoon of April 8, at which time anyone interested in the fencing of lands along the company's line is invited to appear. The company has submitted maps covering its unfenced line, and says fencing is not needed because of the nature of the country through which the railroad runs. The unfenced portion is mostly in the mountain country.

On April 7 the commission will be in Bay City. At that place it will hear the complaint of Geo. W. Phelps concerning lack of proper depot facilities at Garibaldi, also the application of the Tillamook Public Service Company of Bay City, which desires authority to increase its lighting rates in that town.

### For Constipation.

Mr. L. H. Farnham, a prominent druggist of Spirit Lake, Iowa, says: "Chamberlain's Tablets are certainly the best thing on the market for constipation." Give these tablets a trial. You are certain to find them agreeable and pleasant in effect. Price, 25 cents. For sale by Lamar's Drug Store.

### A Healing Salve for Burns, Chapped Hands and Sore Nipples

As a healing salve for burns, sores, sore nipples chapped hands, Chamberlain's Salve is most excellent. It relieves the pain of a burn almost instantly, and unless the injury is very severe, heals the parts without leaving a scar. Price, 25 cents. For sale by Lamar's Drug Store.

### Look to Your Plumbing.

You know what happens in a house in which the plumbing is in poor condition—everybody in the house is liable to contract typhoid or some other fever. The digestive organs perform the same functions in the human body as the plumbing does for the house, and they should be kept in first-class condition all the time. If you have any trouble with your digestion take Chamberlain's Tablets and you are certain to get quick relief. For sale by Lamar's Drug Store.

### Democrats Kill Free Toll for American Vessels.

WASHINGTON, March 31.—The House of Representatives, after one of the most spectacular legislative struggles in the history of the Nation, voted tonight to repeal the provision of the Panama Canal act exempting American vessels from the payment of tolls. The vote on the repeal was 247 to 161, a majority of 86 votes in support of the personal plea of President Wilson.

This verdict on the issue, which has absorbed Congress for weeks, came at the close of a stirring day made memorable in the annals of the House by a party division which found Speaker Clark, Majority leader Underwood and other Democratic chieftains lined up in opposition to the President on an issue which the latter had declared vital to his conduct of the Nation's foreign policy. The bill goes tomorrow to the Senate, where the fight will be renewed with all of the vigor and determination that attended it in the lower house.

On the final vote 220 Democrats in the House stood by the President giving him in "ungrudging measure" what he had asked "for the honor of the nation" in its foreign relations. Twenty-five Republicans and two Progressives also voted to sustain the President.

Fifty-two Democrats followed Speaker Clark and Leader Underwood to defeat in their steadfast determination that the President was wrong in his decision that toll exemption for American ships is a violation of the Hay-Pauncefote treaty with Great Britain.

### Notice to Bidders.

Sealed proposals will be received at the office of the County Clerk of Tillamook County Oregon for the construction of a fifty-foot (50) reinforced concrete bridge, over West Beaver Creek, near the Kinna man place, up to 10 o'clock A. M. on the 17th day of April, 1914, in accordance with plans and specifications on file in the office of the County Clerk, at the Court House, at Tillamook, Oregon, also on file in the office of the Oregon building Record, No. 66½ First St., Portland, Oregon.

Each bidder shall deposit with his proposal a certified check in the sum of five per cent (5 percent) of the amount of his bid. The right is reserved to reject any and all bids or award the contract, as may be to the best interests of Tillamook county.

By order of the County Court. J. C. HOLDEN, County Clerk.

### Cough Medicine for Children.

Too much care cannot be used in selecting a cough medicine for children. It should be pleasant to take, contain no harmful substance and be most effective. Chamberlain's Cough Remedy meets these requirements and is a favorite with the mothers of young children everywhere. For sale by Lamar's Drug Store.

### Straight at It.

There is no use of our "beating around the bush." We might as well get it over with it first as last. We want you to try Chamberlain's Cough Remedy the next time you have a cough or cold. There is no reason so far as we can see why you should not do so. This preparation by its remarkable cures has gained a world wide reputation, and people everywhere speak of it in the highest terms of praise. It is for sale by Lamar's Drug Store.

### Found a Cure for Rheumatism.

"I suffered with rheumatism for two years and could not get my right hand to my mouth for that length of time" writes Lee L. Chapman, Mapleton, Iowa. "I suffered terrible pain so I could not sleep or lie still at night. Five years ago I began using Chamberlain's Liniment and in two months I was well and have not suffered with rheumatism since. ## Made My Life Worth Living

"I feel it my duty to tell others what Chamberlain's Tablets have done for me," writes Mrs. L. Dunlap, of Oak Grove, Mich. "I have suffered with pains in my back and under my shoulder blade for a number of years, also with a poor appetite and constipation. I tried all of the remedies that I heard of, and a number of doctors, but got no relief. Finally a friend told me to try Chamberlain's Stomach and Liver Tablets. I got a bottle of them and they soon helped my stomach; by their gentle action my bowels became more regular. Today I feel like praising them to all who suffer as I did, for they have cured me and made my life worth living."

They have cured me and made my life worth living.

### SLIDES FOR LIFE.

#### Tibet's Perilous Bridges and the Way They Are Crossed.

In Tibet they have not yet progressed far beyond the primitive. Especially when it comes to engineering the Tibetans are at about the stage reached by Europeans six centuries ago. At that time in Switzerland they used a long cable and swinging carrier for the transport of heavy weights, even of cannon from one mountain to another a little lower down.

Now, in Tibet they do not try to build bridges across the Mekong river, but where there are high cliffs a cable is stretched to the other side of the river, and for a trifling fee the person who wishes to cross clings to a thick bark carrier and slides down, holding up his feet at the point where the water nears the perilous bridge.

If he wants to cross back he must go farther up or down the river to a point where another cable is stretched from a high cliff to the other side, and again he performs the "slide for life."

This may not be a very comfortable way of crossing a river, but it is easier than swimming across, especially if there are rapids in the stream, and it is the favorite and cheap way of building bridges among the Tibetans—New York World.

### MAKING OF MAPS.

The First Attempt Was by Anaximander About 560 B. C.

Anaximander, a pupil of Thales, about 560 B. C., sketched the first map. It was in the form of a disk. Democritus of Abdera, about 100 years after, with a wider range of knowledge, drew a new map, giving the world an oblong form, showing extension east and west rather than north and south.

The first application of astronomy to geography was made by Pytheas of Marseilles about 326 B. C., he having made the first observation of latitude. Hipparchus of Nicaea, 162 B. C., first determined latitude and longitude. Marinus of Tyre, about 150 B. C., was the first to make use of Hipparchus' teachings in representing the countries of the world.

Claudius Ptolemy of Pelusium, Egypt, about 162 A. D., was in reality the first scientific mapmaker. Notwithstanding errors in boundaries and locations, the method was correct. The Romans contributed nothing to mapmaking. No improvement was made in it from the time of Ptolemy until the thirteenth century, when a map appeared in Italy which was constructed with the aid of a compass.—Exchange.

### Old Time Football.

In the twelfth century London enjoyed football. Fitz-Stephen, clerk to Thomas a Becket, tells how after dinner the youths of the city would "address themselves" to football. These sportsmen were fastidious in their way. The scholars of each school had a ball peculiar to themselves, as had, indeed, most of the particular trades. The fathers of the players, too, were "as youthful as the youngest," for, "their natural heat seeming to be revived at the sight of so much agility," they sprang from their stands into the arena. In later days, too, the excitement of the game has been known to infect the spectators. Somebody wrote of a game in 1598: "These two men were killed by Ould Gunter. Gunter's sonnes and ye Gregories fell together by ye years at football. Ould Gunter drew his dagger and broke boote the their heads, and they did boote the within a fortnight after."

### Lightning Shuns Women.

Statistics appear to show that men are more likely to be struck by lightning than women, more than two men being killed by it for every woman. But a London journal points out that the man's occupation is more likely to take him into the open when lightning is about. It has been observed, however, that in a group equally composed of both sexes lightning seems to prefer the men, and we may theorize at pleasure as to whether it is the comparative height that does it or some protection afforded by the woman's dress or a difference in conductivity between the sexes. The fact that children are seldom killed by lightning supports to a certain extent the first of these theories.

### Let Down the Blind.

A youngster had been to the theater, and upon his return his uncle asked him how he liked the play. "Oh," he replied, "the play was all right, but I didn't see nearly all of it!" "Why, how did that happen?" asked his uncle. "Because," answered the youngster, "the roller must have been broke, for the window blind fell down two or three times."—London Express.

### His Idea of It.

"George Washington," read the small boy from his history, "was born Feb. 22, 1732, A. D."

"What does 'A. D.' stand for?" inquired the teacher.

The small boy pondered. "I don't exactly know," he hesitated. "After dark, I guess."—Exchange.

## Why You Need a New Range

Some housewives who display a remarkable amount of broad, sound, common sense along other lines, persist in the delusion—and it is a delusion—that they are really practicing economy by trying to get along—to get results—out of an old, worn-out range merely to save the price of a new one. Your old range or stove was put together with putty and stove bolts and probably you can stick a pen-knife in the seams and joints anywhere on it where the stove putty has crumbled away. When a range gets in that condition, it takes fuel enough to warm all outdoors in order to get your oven hot enough for baking—and then you run the risk of burning whatever is in the oven. You can soon burn up the price of the best range ever made in a useless waste of fuel in an old, worn-out stove or range—and that's neither practical economy nor good management. If you would practice real economy in your household management, it will pay you, the next time you are in town, to call at our store and inquire closely into the perfect baking and remarkable fuel saving qualities of the

## Great Majestic Malleable and Charcoal Iron Range

Outwears Three Ordinary Ranges

It is the only range made entirely of malleable iron and charcoal iron. Charcoal iron won't rust like steel—malleable iron can't break, and while the first cost of a Great Majestic may be more than some other ranges, it outwears 3 ordinary ranges.

### Half The Fuel

The Majestic is put together with rivets (not bolts and stove putty) making it absolutely air tight, like an engine boiler. The joints and seams will remain air tight forever as neither expansion nor contraction can affect or open them.

### Pure Asbestos Lining

In addition, it is lined with pure asbestos board, covered with an

open iron grate—you can see it. No heat escapes—no cold air gets into the oven—saves half the fuel and assures perfect baking.

Movable Copper Reservoir The reservoir is all copper, heated like a tea kettle through copper pocket (stamped from one piece of copper) setting against left hand lining of fire box. It boils 15 gallons of water in a jiffy and, by turning lever, the frame and reservoir—moves away from fire. This feature is patented and can be used only on the Majestic.

Ask us to show you the greatest improvement ever put into a range—makes Majestic 50% stronger when other ranges are weakest.

Other Exclusive Features It's the best range at any price and should be in your kitchen.
