THE TILLAMOOK HEADLIGHT.

Editorial Snap Shots.

Blessings came to some people in disguise, even to those who aspire to public office, when they are defeated, for it seems to be a hard matter to please the public.

Mayor Beals has signed a clean-up proclamation. Everybody get the clean-up spirit. Make the city look bright and business like, for first impressions are lasting.

If you took part in the primary election it behoves Republicans to accept the nominees and help elect them. The Republicans have a strong clean ticket and no one should feel "sore" because their candidates were not successful.

The large vote received by Sheriff Crenshaw was a fitting compliment to an officer who has made good. One thing we want to commend both aspirants for sheriff for, and that is the clean, friendly spirit they conducted their campaign, and although Mr. Beals did not win, he won the respect of even those who voted against him.

The Republican party in nominating Dr. Withycombe for Governor did a wise thing which will be a great benefit to the state. For the reason Oregon is an agricultural State with an enormous amount of undeveloped resources and idle unproductive land. Of all the candidates who aspired for office, he was the best informed man on agricultural matters and knows from practical experience how to develop the agricultural industry of Oregon. Greater wealth will come to Oregon by developing its agricultural resources, and the Republican party did a wise thing when it nominated a man who knows from practical experience how to make this a great agricultural state.

Gus C. Moser, who was a candidate for governor, is a good loser. He certainly made a splendid race, and had he started his campaign a little earlier we are inclined to believe he would have landed the nomination, for he took well with the people. When in Tillamook, the snap shot man told him that he thought Withycombe would be the winner, and to Mr. Moser's credit he then said if Mr. Withycombe won he would take off his coat and help elect him. That is the spirit every defeated candidate should have toward those who won out in a fair and honorable fight for a nomination. We hope that Mr. Moser will again aspire to political office, for he has taken the right stand.

We hear a great deal about the sovereign will of the people. The fight for county commissioner for the north end of the county is a good expression of the people in that part of the county. The fight was principally concerned over the proposed road from Wheeler to Nehalem. We will take the vote in the four precincts north of Tillamook bay to show the will of the people in those parts, and it amounts to this: Nehalem, Sappington 187 votes and Thompson 64 votes. No one can question the will of the people with that amount of sentiment in favor of the construction of the road proposed now. Another thing. It was Fairview, Bay, South Prairie and Maple Leaf which appeared to be opposed to the building of this road, if figures indicate anything. No doubt this will cause some comment, for, somehow, it does not look right for one road district to butt in and oppose public improvement in another road district. Let the people in each district rule.

NEW MANAGEMENT AT HOTEL TILLAMOOK

Hotel Tillamook, one of the best of its size in Oregon, has passed into new management. Mr. R. E. Pettit, lately chief accountant for the Southern Pacific Company and formerly chief clerk of Hotel Potter, at Santa Barbara, Cal., is now in charge of the hotel. Mr. Pettit comes to this city well recommended and it is his aim and object to make the Hotel Tillamook the most popular hostelry on the coast and a credit to Tillamook City, where visitors will receive the best service and leave this city well pleased. The new management wishes it to be understood that every one will be treated cordially and reasonable prices will prevail. He asks the co-operation of the business men and stockholders in his effort to place the hotel on a paying basis and an attractive place for the numerous visitors who will come to this city this summer. Mr. Pettit appears to be the right man for the place and we wish him success.

Mrs. Pettit is acting as housekeeper and as she is well qualified to look after that department, the new management starts out with the best of prospects.

COMMERCIAL CLUB MEETING

Monday evening next at 8 p. m., a general business meeting of all club members and all citizens of city and county who are interested. The club court of municipal affairs, Colonel George Henderson, chairman will have charge and discussion and action will be taken to assist city officers in "cleaning up" Tillamook for our G. A. R. visitors and to make our city healthier as well as cleaner. Cigars and a good social time is promised all. Come and assist us. Every club member is urged to attend and bring a friend. If you miss this you will regret it. Some surprises in store.

Arrangements are being perfected for large meetings in June at three places in the county to discuss better bulls and cows, the propagation and marketing of loganberries, cranberries, etc. One or two eminent lecturers from the State Agricultural college will be present to give full information.

Christian Church Services, May 24.

10 a. m. bible school; 11 a. m. baccalaureate sermon by W. J. Weber, pastor of the M. E. church, to the graduating class of the high school; 2 p. m. communion and preaching services; 3 p. m. union Memorial service at the Tabernacle (skating rink); 7 p. m. Christian Endeavor; 8 p. m. preaching.

Brother V. E. Hoven, formerly located as pastor of the Christian church here, will occupy the pulpit at the afternoon service at 2 p. m. and in the evening. The above program means a full day, but Brother Hoven's coming having been planned for and looked forward to for some time, the church does not feel justified in not holding its regular services and same are planned to interfere as little as possible with any other.

BIG CHEESE FACTORY.

1,595,512 Pounds of Cheese and 99,807 Pounds of Butter.

From the New Zealand Dairyman we get the following interesting facts concerning what that paper claims is the largest cheese factory in the world. The world is a pretty big place but this factory, the Riverdale cheese and butter factory, is a pretty big factory. The output in 1913 was 1,595,512 pounds of cheese and 99,807 pounds of butter. All of the milk to make this immense output comes from a radius of two and one-half miles of the factory and from sixty-four farmers. The methods on the farms are unique. The cattle are grazed the year around. One farmer having 150 acres keeps 140 head of stock of all kinds and in the flush of the season delivered 4,700 pounds

of milk per day. The biggest days output for the season was 126 export cheese, weighing three and three-fourths tons. The average amount of milk delivered per patron in December was 1,569 pounds. The factory is equipped with 13 850-gallon vats for cheese-making and three 1000 lb. churns for buttermaking. The management is experimenting with pasteurized milk cheese. The whole output of this great factory is shipped to one dealer in London.

COMING! COMING!

Twelve months in a day! Twelve months in a day! The wonder who ever did see? But list what we say: It is coming this way! And soon in our midst it will be! Each month its own harvest of good things will bear— Just think what a feast it will mean! June roses will bloom 'tho' December is there! And snow balls in August be seen! The ice of old Winter and Summer's sweet cream Will be joined in a union complete! While fruits of which gods might lovingly dream In salads entrancing will meet! The wheat will be there all turned into bread; Beans already baked—brown and dandy; Pop corn that is popped and straw-berries red; With sugar-cane turned into candy; Vegetables humble and vegetables rare In a common assembly will meet; While cherry and pumpkin, rhubarb and pear Enclosed in pastry you'll greet! The cocoanut, orange, the raisin and spice In sweet frosted forms will appear; While in coffee all steaming, and lemons with ice Will be found much of comfort and cheer; One month is foretold, will bring an array— Unusual, but Oh! so alluring. Of fancy work; aprons and caps, grave and gay; Than estates much more enduring. Twelve months in a day! Twelve months in a day! Would you see this strange sight as it passes On the 2nd of June, in the evening they say It can plainly be viewed, without glasses! In the CHRISTIAN CHURCH basement this wonder you'll see, From 8 until several hours later; But first go up stairs where the program is free; And is made up of music and laughter; Then come one and come all; come early or late; To enter you'll need not a penny, But before you retire we are sure you'll desire To spend of your nickles a many.

GOOD SUGGESTION TO TILLAMOOK PEOPLE.

It is surprising the amount of old, foul matter the simple mixture of buckthorn bark, glycerine, etc., known as Adler-i-ka, drain from the system. This remedy became famous by curing appendicitis and acts on BOTH the upper and lower bowel so thoroughly that ONE DOSE relieves sour stomach, gas on the stomach and constipation almost IMMEDIATELY. We are

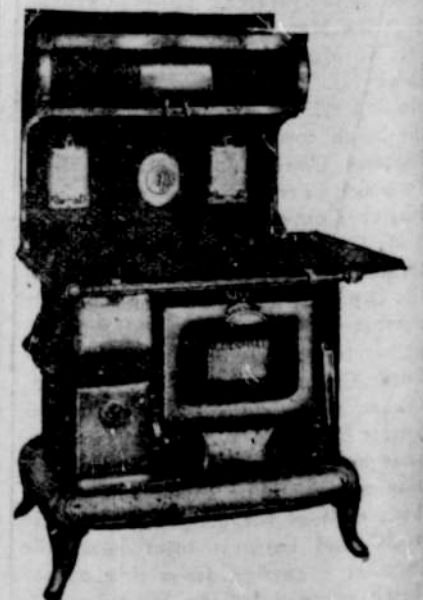

mightily glad we are Tillamook agents for Adler-i-ka, J. S. Lamar, druggist.

Notice.
