

## Advantages of a Checking Account I. Safeguarding Funds.

Over ninety per cent of transfers of funds in business are made through the medium of bank checks, thus avoiding the dangers incident to carrying large sums about, and the risk of making the wrong change.

This method enables the business man or individual to keep his money safely in the bank, instead of on the premises or about the person, where it would be subject to hazard.

A checking account at this bank is a great convenience and costs the depositor absolutely nothing. To obviate handing the account at a loss the bank requires that reasonable average balances be maintained.

CAPITAL AND SURPLUS, \$80,500.

Fire destroyed the home on Judge Mason's place north of town on Thursday at noon. It originated from the flue catching the roof on fire. At one time it was thought that it had been extinguished but having caught fire under the roof the fire obtained too much headway and the building was soon in one mass of flames. Fortunately help was near and most of the furniture was saved.

The happy couple left on Sunday afternoon to spend their honeymoon in Portland at the home of the groom's mother. They will make their home near Blaine. Both are highly respected young people, and they have the best wishes of a large number of friends.

There is some doubt whether the hatchery that is proposed to be erected on Gold Creek will be erected as the owner of the site asked \$2000 for eight acres of land—that is not worth more than \$400. The land belongs to L. H. Wang, of Portland, and it was proposed to erect a building that would cost \$500 and \$3000 each year for maintenance. R. E. Clanton, superintendent of hatcheries is very anxious to erect the hatchery and to avoid delay by litigation, a board of arbitrators was selected composed of M. W. Harrison, John Edwards, Mr. Carlson, Bert Stephens and W. B. Alderman, and they decided that it was worth \$850 and with expenses will make the land cost another \$100. It is doubtful whether the commission will pay that amount, and in case it fails to do so the money for the hatchery will be diverted to other hatcheries and to be diverted to other hatcheries and to be taken up to help pay this exorbitant price for the land so that the hatchery can be built this year. As L. H. Wang is holding eight acres at \$2000, the assessor should not be lack in his duties, but should assess all the land at that figure.

### Wheeler Mill to Suspend Operations.

(Nehalem Reporter) Unstable lumber market and unsettled industrial conditions in the west are accountable for the closing of the mills and camps.

Definite announcement to the effect that the Wheeler mill will close down for a brief period was given out last Thursday by Messrs. John E. DuBois and C. H. Wheeler.

The decision came rather unexpectedly although it has become a well known fact that the margin of the profit in the manufacture of lumber is too small to warrant the operation of the mills under present unfavorable conditions.

The logging camps located at Rector and also at Melson's place on the north fork were closed down on Friday and it is expected that the mill will shut down after July 4th, unless the lumber market improves sufficiently to cause a change in present plans.

Just what turn things will take in the meantime cannot be foreseen, but there is a possibility that a complete shutdown of the mill and logging camps for a lengthy period will not be found necessary.

The stopping of a big payroll is not to be desired since it keeps a large

amount of money out of circulation that would otherwise be distributed in the various channels of trade and thus tend to make a prosperous and thriving community.

The general impression seems to be that it will affect the City of Wheeler most, but such is not the case in that the greater majority of wage earners in this valley are employees of the Wheeler Lumber Company and consequently every person will feel the loss indirectly, if not directly.

Many of our citizens foresee gloomy forebodings as a result of the shut down although we have every assurance that no serious consequences will result to Wheeler and immediate vicinity.

On Sunday last 56 members of Tillamook County's Booster Band met at Cloverdale and had one of their semi-monthly rehearsals and street concerts.

A fine banquet was given the boys by the Cloverdale people, after which a county organization was perfected.

Dr. Monk, of Tillamook was elected president; John Plasker, of Tillamook, Secretary; Chester McGhee of Tillamook, Treas. The following board of directors were elected: Geo. Worthington of Cloverdale; Al Hall of Wheeler; L. F. Brode, of Bay City; Silas Shordes, of Nehalem; Dr. Perkins of Tillamook. The next rehearsal will be held at Tillamook City.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.
