Isn't it a fact that when business is best at the beach resorts, business is also best in this city.

It seems that we heard Attorney Duniway say something about the tail trying to wag the dog in the ho-Prohibition party. The party, singular as it may seem, has not been itel case.

We hope that the stockholders in the Hotel Tillamook are not in the same predicament the stockholders in Maine, out of a total of 142,105, were in in the old opera house building.

Our Democratic friend, Bro. Trombley, ought to take a trip "outside", and then he would realize what a slump there is on account of free trade.

We heard some one say that the Coos County dairymen were getting Democratic prices for their cheese and that Tillamook County dairymen were receiving Republican prices.

The County Agriculturist is giving some timely advice in regard to potato blight. The greatest blight the farmers have to contend with today is the Democratic free trade blight.

The curtailment in the consumption of meat by the people of the United States resulting from high prices may not in the end prove to be an unmixed evil. A diet too largely composed of beef, pork or mutton is not considered healthful. Many ailments that afflict the human family are pretty conclusively traced to carnivorous living. With the exception of the people of Austrailia and Argentina, who get cheap meat from their great herds of cattle and sheep, the Amercans are credited with the largest per capita consumption of meats. As economy and less taxation appears to be the disposition of a large number of our citizens, it is well to consider the advisability of the school district spending more money at this time, for taxes will be much harder to collect next year than this.

The Democratic administration is not going on the theory of patronizing home industry. Money is going out of the country in large amounts to buy articles manufactured in fordign countries, and this is not only draining the country of money, but throwing thousands of men out of employment.

Two pleasing features in connection with the G. A. R. Encampment were the receptions given by the ladies of the Tillamook Commercial Club and Grange. A little hospitality went a long way in helping to make the encampment a success. We want to express our thanks to the ladies and to make it more successful it would-19't be out of place for the ladies of the club to give the ladies of the Grange a reception during the County fair.

Most everybody is congratulating themselves that the G. A. R. Encampment took place last week, /wing to the heavy rain the last few days. It may be well to mention that that it was first proposed to hold the Encampment this week, but after Charley Reynolds had studiously consulted all the weather oracles it was I decided to hold it one week earlier. If you want to know what kind of weather there will be this time next year, consult Charley, for he is the greatest living weather prophet left to foreign goods of the grade they

It is this fact which has led all political observers who are not swayed by their emotions to realize that the next struggle in the country will be between the Republican and Democratic parties. Jap Cries for Help.

Japan is comparatively bankrupt both in morals and money, conclude: Dr. Walter Williams of the Missouri School of Journalism, who is home from a world tour. He says that the restlessness has become so great that in order to prevent a revolution the government was forced to recall Count Okuma from retirement and make him prime minister, although but a few months before the count's magazine had been suppressed by the Japanese Government as too radical in its advocacy of reforms. The books read most avidly in Japan just now are the most radical socialistic publicaions of Europe and America, Dr. Williams compares the present status in Japan to the pre-revolution

period in France. While complimenting the Japanese

on their politeness, hospitality, ambition, enterprise, intellectual alacrity and acumen, physical strength and dexterity and "a practical wisdom akin to that of the canny Scotch," the Missourian asserts that their commercial morality is almost a jest. Japanese manufactures are pronounced 20 to 30 per cent inferior of the cld school of weather prophets profess them to be. The catalogues

of a St. Louis jewelry establishment and a St. Louis hardware firm are sold to Japanese manufactures. These catalogues suggest designes which are imitated and the products are palmed off as "imported" goods. The prevalence of the social evil, licensed are described by Mr. Williams. Gen. Huerta has informed the Mexican delegates at the Niagra Falls conference that ex-Senator Charles A. Towne, who is now in Washington to oppose the appointment of a constitutionalist as provisional president of Mexico, is not acting for him. The question raised does not seem to be mportant. There is no doubt of what the former senator from Minnesota has been doing in Washington, and less doubt that he is representing a faction in Mexican politics which opposes a constitutionalist succession. It is not to be presumed that he is acting only for himself and wholly on his own motion in taking the active part he is taking in the politics of another country. It is now some years since Mr. Towne ceased taking an active part in the politics of his own country, but he has never ceased to take an active interest in the affairs of his clients since he abandoned populistic politics and went into law practice in New York and Washington. That he has been acting for the Huerta party, or the cientificos, as they are called in Mexican political terminology, is not to be doubted. Huerta's denial of having personally retained him can be taken for what it is worth. The fact is undeniable that he has been working at Washington for Huerta's party.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. The wedding ceremony itself is most simple. The whole function consists of a procession when the bride and bridegroom are conducted by their respective relations to a dais. There they are put face to face and probably, as already stated, see each other for the first time. They merely glance at one another, then bow, and the knot is tied indissolubly .- Wide World Magazine.

#### Fingers and Forks.

A New Yorker was speaking of a London horse show he attended. "A feature of the show," he said, was the magnificent riding of certain Arab chiefs. These chiefs gave a dinper one evening, an Arab dinner, and they ate the first course-kous kouswith their fingers.

'An Englishman asked for a fork for his kous kous. When it was brought to him a young chief said:

"'I beg your pardon, but I don't see how you can bear to eat with a fork.' "'I,' the Englishman replied, 'was about to remark that I didn't see how you could bear to eat with your fingers.

"'But my fingers,' said the Arab, 'are clean-clean. I know it. I see to it myself. But you, sir, how can you feel sure about the cleanness of your fork?"-New York Tribune.

#### Japanese Festival Cars.

Most Japanese towns have a shrine or temple dedicated to the tutelary delty of the city. At Ueno, in the Iga province, several beautiful decorated cars are kept at the shrine, and figure annually in a curious procession. When the day of the festival arrives hundreds of pious worshipers drag the cars by means of ropes through the gnyly decorated streets of the citythereby, they believe, greatly pleasing the gods of the shrine. The cars are wonderful examples of Japanese decorative art, richly ornamented with gilding and lacquer work .- Wide World
