

Editorial Snap Shots.

It wouldn't be a bad idea to dress A. H. Lea as a "colored fellow" and exhibit him at the next county fair.

"Is it wise to keep our cheese off the home market?" asks A. H. Lea. Of course it is, when you can get more for it in California, Washington, Alaska and other markets.

The fact that Cuba owes the United States a debt of \$2,500,000 may account for the unfriendly attitude of the Cubans toward the Americans. A heavy debtor is invariably a good hater.

Bro. Trombley, the Democratic free trade booster has never explained to the satisfaction of the American producer why it is a good thing to allow 'Pig Tail Eggs' to come in free. Say, Bro., isn't that placing American products on a par with eggs raised by Chinamen?

The high price of land in Tillamook county was touched upon at the club meeting the other evening. It is no trouble to get home seekers to come to this county on account of the general advertising Tillamook is receiving, but when they are informed of the high price of land and high taxation they are amazed.

The snap shot man has often noticed that when a subscription list is circulated there are some business and professional men who never go down in their jeans and assist in this way, while others are liberal and always ready to give their mite to some laudable function. This is hardly fair, but there are some men who are too stingy to live in this city.

We agree with the Fish Commission that it should not be "held up" when it comes to purchasing land for a salmon hatchery, for it is public money that it is handling, and as there is considerable complaint about high taxation, no one wants to see money paid by the taxpayers wasted. But it is generally conceded that the hatchery should be erected and it appears to be up to the Tillamook Commercial Club in some way or other to raise the money that the Commission is short of. It is, in our judgment, an enterprise that means much to the fishing industry of Tillamook bay, and the club did a wise thing in taking the bull by the horns in its endeavor to overcome a serious difficulty, which we hope, will prove successful and bring about the results desired. Give it your support.

A. H. Lea manager of the produce and dairy departments of the Union Meat Company, is "sore" because he cannot "fix" the price of Tillamook Cheese. Most of us remember that some years ago it was cheese brokers who came to Tillamook and demoralized the cheese market and caused one cheese factory to undersell the other factories and the small price that was paid for cheese in those days. That was before the dairymen realized that it was necessary for one factory to co-operate with the other factories in the selling of their cheese, for it used to be that too much of Tillamook was dumped on the Portland market, which, of course, Mr. Lea would like to see again so as to force the price of cheese down. Anyone can see that this is what he is striving to do in making his attack upon Carl Haberlach. And in doing so he does not scruple at perverting the truth. He says "I believe there is a colored fellow in the fence somewhere." So does the snap shot man. It is no other than A. H. Lea, who is suffering with a sore jag because he has to pay more for Tillamook cheese than he wants to. He may "Knock" all he wants to, it don't amount to anything when it comes from "a colored fellow in the fence somewhere" in Portland.

The proof of the pudding is in the eating, and our free trade Democratic friends are being freely criticised for the depression caused by the reduction of the tariff. We will publish some recent statistics to show what a psychological muss President Wilson has brought about. In the second week of June bank clearings of the United States were 9.7 per cent less than in the corresponding week of 1913 and in Philadelphia, the principal manufacturing city, were 10.3 per cent less. The steel trust's unfilled orders were about half as great on May 31 as at the beginning of the Wilson Administration. Idle cars on the railroad numbered 242,572 on May 31, as compared with 60,391 on the same date last year. Ore shipments from Lake Superior in May were 3,852,063 against 7,284,212 in May, 1913. Gross earnings of railroads in May showed a decrease of 11.42 per cent. Building permits in 77 cities during the first five months of 1914 show a falling off of \$22,271,940 compared with the same period of last year. Liabilities of concerns failed in bankruptcies during May

were \$23,447,496, as against \$16,863,804 in May last year.

In the first five months under the Underwood tariff, ending April 30, the excess of exports over imports was reduced \$137,405,196. What produced this change can be judged from the effect of the Underwood tariff on the woolen industry alone. Imports of woolen goods grew from \$2,254,210 in the first three months of 1913, to \$7,664,370 in the same period of this year, the sales by Bradford, England's great woolen manufacturing center, to the United States having increased 280 per cent in that period. In May Bradford's exports of worsted yarns were 283,500 pounds against 5200 pounds in May 1913. Western woolgrowers are selling off their sheep to be turned into mutton, for they are not deceived by the temporarily good prices due to a world's shortage. Factories and mills have been running forty to sixty per cent of capacity, railroads employ the smallest number of men possible on repair and construction work and new enterprises launched in May call for about one-third the amount of capital represented by those of May, 1913.

"PIG TAIL" EGGS.

A Large Increase Expected to Come to Oregon.

Predictions that the importation of Chinese eggs during the 1914-15 period will be far in excess of that for the fiscal year ending Tuesday are borne out through the movement of a heavy shipment of egg containers to Shanghai from Portland, which was valued at \$7225, and it is naturally supposed that more containers have come from Puget Sound and British Columbia territory.

When the new tariff schedule became effective October 3 the duty of cents a dozen on Chinese eggs was eliminated. Up to that time there had been from 205 to 1200 dozen eggs received in Portland each month, consisted for the most part to Chinese merchants. Immediately after the ratification of the tariff, arrangements were made to ship eggs here for general commercial purposes, so in December 1127 dozen arrived, valued at \$121 and in January 1125 dozen, worth \$110 came in. February imports growing to 6000 dozen at \$816, and those in March being the heaviest when 18,092 dozen came in valued at \$96,388, they being brought direct on the Royal Mail steamer Cardianshire. In April 6622 cases arrived appraised at \$2068, and in May 1227 cases were entered at \$133, there having been no June entries.

Express their Thanks.

Albany, Ore., June 22nd, 1914. Mr. A. C. Everson: Kind friend—I arrived home all O. K. and found my wife in bed, but soon the door opened and I walked in. It was then eleven o'clock P. M. Well, friend Everson, we had such a lovely time while at your beautiful city, that we want to show our appreciation of the same by having some resolutions passed by the committee and commander and printed in our city papers, and I thought it would be very nice and appropriate to send one copy to you and have it published in your city and county papers, and as I am writing to you I wish you would extend my thanks to Mr. Mills, who has a grocery store, for his kindness to me in taking our lunch to Bay View, which I had forgotten. Yours truly, L. J. Fish.

Albany, Oregon, June 20th, 1914. The representatives of McPherson Post No. 5 G. A. R. who were so fortunate as to be permitted to attend the Department at Tillamook, desire to express their appreciation of the splendid reception tendered them by the citizens of that beautiful city. The generous entertainment at the rooms of the Commercial Club, by the ladies of the grange, the old fashioned music and country dance, the delightful ride in autos through the surrounding country and the view of its prosperous industries will long be remembered with much pleasure. Please accept our sincere thanks for the interest taken in making it so pleasant for the remnant of the Grand Army which was so numerous fifty years ago. Lucien J. Fish, Post Commander.

Death of Mrs. Livingstone.

From Bay City Examiner: Mrs. Esther Adelaide Livingstone wife of W. H. Livingstone of this city passed away Sunday morning. Mrs. Livingstone has been in ill health for many months and has been confined to her bed during the past six weeks growing weaker each day till the end came. Esther Adelaide McKnitt was born in Ohio in 1847. While she was still a child her parents moved to Michigan, and it was in that state she grew to womanhood and was married to W. H. Livingstone at Cadillac, Mich., on Dec. 10, 1879. Twelve years ago she came to Oregon with her husband, moving to Bay City three years ago. She has been a member of the Rebecca Lodge during the past eight years and has been an untiring worker in the order. The funeral services were held Tuesday morning at the United Church under the direction of the Rebecca Lodge and were attended by a large concourse of friends of the deceased. The deceased leaves to mourn her loss her husband and one daughter, Mrs. J. B. Mather of this city.

TILLAMOOK COMMERCIAL CLUB.

Takes Action to Raise the Deficit for the Hatchery.

One of the best meetings of the Tillamook Commercial Club held in a year, was last Monday evening, about forty of our best citizens were present. Pres. Gaylord resigned because the Hotel Receivership kept him from giving his time to the Club, but said he would do all he could to boost the Club as a worker in the ranks. W. G. Dwight was unanimously elected as President and was loudly cheered when he came in because all recognize that he is an up-to-date hustler and business man, and just the one to lead the Club, and with him and Secretary Worrall, the Club will be given a business administration that will do much good for the city and county. Fred C. Baker was elected Treasurer. C. S. Barnes, of Hotel Ramsey, was elected Director in place of Dr. Ferron who left the city, and C. W. Miller was elected Director in place of W. G. Dwight, elected President. Both new directors are progressive citizens and will assist other directors in making the Club a success. Every citizen of Tillamook and progressive farmers who have the advancement of their own interests and the city and county at heart should join the Club and assist to keep it up. City people can join on payment of only \$10 initiation fee and \$1 to a month dues, those living outside of the city pay \$2 to join and \$2 a year dues. The Club is doing much good to improve the city and build up and advance every part of the county, come on and help us, we need you, and can benefit you in many ways.

Not an officer or member gets one cent of pay for their services. The members of a Commercial Club are recognized everywhere as the leading progressive, live citizens of the town and county. Secretary Worrall's report showed that the Club was prosperous, paying its debts, about 70 members being in good standing, with some behind in dues. He showed that he was writing and mailing advertisements of the county to too many people with more money here, to advertise our cheese, our vast varied resources, that he had arranged with the Great Northern, Southern Pacific and Steamship Cos., to handle the advertisements without price. That he had arranged with automobile publications for free write ups with pictures of our beach resorts, roads and other attractions. That the S. P. R. R. was advertising the county all over the U. S. and Europe. Now lets each do his part to aid by giving our membership and little dues to keep up expenses and encourage the Club officers.

of Gold Creek, where some \$10,000 worth of milk is produced each day. This milk is sold to the Tillamook Creamery and is used for the manufacture of cream, butter and cheese. The creamery is one of the best equipped in the state, and the cheese is of the highest quality. The creamery and cheese factory are both owned and operated by the Tillamook Commercial Club. The creamery is situated on the banks of the Tillamook River, and the cheese factory is situated on the banks of the Clifton River. The creamery and cheese factory are both of the latest design, and are equipped with the most modern machinery. The creamery and cheese factory are both of the highest quality, and produce the finest cream, butter and cheese in the state. The creamery and cheese factory are both of the highest quality, and produce the finest cream, butter and cheese in the state.

Speeches were made by Chas. Kunze, one of the wide awake farmers, as to better herds, cheaper money and general encouragement for our home farmers, also by Messrs. Shrode, Clements, Shultz and others for the benefit of the city and county in various ways. Cigars were passed and a profitable time for all was had. Come help us, don't be a drone.

Tillamook County Bank has New Posting Machine.

The Tillamook County Bank has just taken another step toward modern banking efficiency in the purchase of a Burroughs bank posting machine. The new device is one of the most perfect machines of its kind on the market and is the only one in this section of the state. In addition to posting to the ledger by machine the bank is now enabled to post daily to the customers statements. These statements are written entirely on the machine which means absolute accuracy and printed figures. The big new feature, of course, is that the customer will no longer have to be troubled with a pass book except as a receipt for deposits. This system puts the bank on par with the best up-to-date city banks, enabling it to give as modern banking service to its patrons as they could get in the big cities. Instead of bringing in the pass book to be balanced once a month each customer will get a neatly printed statement of his account when he wants it without any delay, regularly at times agreed upon between himself and the bank. The statements being made on the machine, will, of course be absolutely accurate. The ledger or statement sheet is placed in the machine, the amount of the old balance added to the deposit, the checks subtracted, all automatically and with the date automatically printed, a lever pulled, and the sheet is ejected from the machine with the new balance correctly printed. As no mental effort is required this saves much time and assures accuracy and neatness in posting. In addition the machine can be used

ROYAL BAKING POWDER Absolutely Pure The only Baking Powder made from Royal Grape Cream of Tartar NO ALUM, NO LIME PHOSPHATE

just like an ordinary adding machine on all kinds of bank figure work. This will of course enable the bank to handle its figure work in less time and will mean that the bank officials will have more time to study ways of giving even better service to its customers.

DESTROY HOUSE FLIES. They Carry Disease and Menace Human Life.

America is not the only place where warfare is made against flies. In the Medical Record of May 2, in a letter from their regular London correspondent, we are told that London is waging a war against flies. "The campaign was opened by an appeal in the press for the co-operation of the public in an attempt to get rid of the breeding place of flies and thereby reduce the diseases they spread. Foremost of these, infantile enteritis is terribly fatal to child life, and the appeal instances the example of Cairo, where there was a plague of flies in 1909 and 3000 children under 5 years of age died in three months. Many deaths, it is shown, could be prevented by reducing the number of house flies, and this can best be accomplished by each householder taking the responsibility of looking after his own premises. In the country farmers are told to dig in the manure at once, or if a heap is made to cover it with a layer of earth. In London the serious problem is the dust bin, which too many ignorant or careless people do not insist on being what its name implies. Only coal ashes and dry dust ought to be put in—never refuse of organic matter, whether vegetable or animal. All such should be burned. The futility of attempting to meet the plague by killing the full-fledged insect is shown by an epitome of its life history, as follows: The female in spring emerges from her hibernating nook and sets out to lay her eggs, choosing a heap of refuse of filth, and lays about 120 eggs at each sitting, of which there are several. In a few hours, if the surroundings are warm, the maggot is born, it eats and grows on the filth around it; in five days it is a chrysalis, and in five more is a fly in search of food. Mouth, legs and body gets smeared with its food, so not only does it spread disease by swallowing germs, but furnishes them with a suitable breeding place on its own outside, and, of course, on its wanderings where it can have human food, especially milk, it leaves poison there to spread disease. The appeal suggests that this should be taught in the schools and the children told that the fly thus carries about diarrhoea, enteritis, fevers, cholera and other diseases. Th boy scouts would

be extremely useful by tracking the breeding places and notifying them to the health authorities. The cinematograph might show the life history and the damage done by interesting films."

We appeal to the householders of our city to arouse themselves and to do their utmost to abolish this danger which surrounds their families.

Notice of Completed Contract.

Notice is hereby given that U. G. Jackson, County Surveyor for Tillamook County, Oregon, has filed in this office his certificate of the completion of the contract of Wells, Leach and Company, on the A. O. Folland County Road, near Beaver, Oregon, and any person, firm or corporation, having objections to file to the completion of said work, may do so within two weeks from the date of the first publication.

Dated this 24th day of June, 1914.

J. C. HOLDEN, County Clerk.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address H. S. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

The fact that the president not only agreed to the changes in the trade commission bill made by the Senate Committee on Interstate Commerce, enlarging the powers of the commission so that they are no longer inquisitorial but to a large extent administrative and quasi-judicial, but even urged such modifications, illustrates how free he is from pride of opinion in many matters. It is useless to lay the charge of inconsistency against him, for he has shown clearly that no declaration he made as professor or historian or as governor or candidate binds him now. The Baltimore platform and speeches in indorsement thereof have not stood in the way of his advocacy of any policy contrary to them if present conviction or view of expediency favors it.

Netarts Hotel ready for business. First-class cooking. Meals at all hours. Rooms and good beds. G. W. DORR, Proprietor.

THE GLORIOUS FOURTH Will be celebrated in various towns in Oregon and the P. R. & N. Sale Dates and Limits. TICKETS will be sold July 3rd and 4th between all stations in Oregon (where the one way fare does not exceed \$3.00) and will be good for return on or before July 6th. Four Days at Tillamook County Beaches. Account 4th of July low fares will be in effect from all Stations to various beach points on the P. R. & N. Good going on Friday, Saturday or Sunday and for return the Monday following. P. R. & N. Call on nearest P. R. & N. Agent for full information as to fares, train service, etc. JOHN M. SCOTT, General Passenger Agent, Portland, Ore

GOOD SUGGESTION TO TILLAMOOK PEOPLE.

It is surprising the amount of old, foul matter the simple mixture of buckthorn bark, glycerine, etc., known as Adler-i-ka, drawn from the system. This remedy became famous by curing appendicitis and acts on BOTH the upper and lower bowels so thoroughly that ONE DOSE relieves sour stomach, gas on the stomach and constipation almost IMMEDIATELY. We are mighty glad we are Tillamook agent for Adler-i-ka, J. S. Lamar's drug list.

The wonder is not that a hearing should at least be accorded the English women who have been trying to petition the government for suffrage, but that this scant justice should have been rendered in the grudging and unworthy way it was. After months in which the right of petition has been denied, and during which the women demanding the right of petition have been hooted and mobbed by London hooligans and clubbed by London police, it was necessary for Miss Pankhurst to begin a hunger strike on the steps of the House of Commons. After the frail girl had sat on the steps several hours, and it was clearly understood that she would die of hunger there, Prime Minister Asquith announced that the women would be given a hearing and their memorial would be considered by the government.

Ocean Crest Apartments, ELMORE PARK, ROCKAWAY. Furnished for light house-keeping. Light, airy and sanitary. Good water in every kitchen. Rates reasonable.

EAT VIERECK'S BREAD, TILLAMOOK BAKERY, At All Grocers.

Kodaks AND Supplies. Kodaks make Photography so simple that anybody can take good pictures. Let us show you how easy it is.
