

Are You a Money Saver?

Most every one expects to be a money saver some time.

Some expect to save when their income is larger; others plan to save when their expenses are less.

People who wait until they can save without effort rarely begin to save; they wake up some day filled with regrets because of the opportunities they have missed.

The moral is: Begin regular saving at this bank NOW; whatever the income, make the outgo a little less and save the difference.

It's a simple matter to start a savings account here.
