The Range With A Reputation

Some of the Reasons Why
A Perfect Baker—absolutely dependable, every day, year in, year out. Built on honor, of the best materials.

Outwears Three Ordinary Ranges
The only range made entirely of charcoal and malleable iron. Malleable iron can't break—charcoal iron won't rust like steel.

Economical in Fuel
The seams of the Majestic are riveted (not put together with bolts and stove putty)—they will always remain air tight, because neither heat nor cold affects them. The Majestic even is lined throughout with pure asbestos board, held in place by an open iron grating—you can see it—and it stays there always. Air tight joints and pure asbestos lining assure an even baking heat, saving one-half the fuel. All doors drop to form rigid shelves. No springs. Malleable iron oven racks slide out automatically, holding whatever they contain.

The Great MAJESTIC Charcoal and Malleable Iron RANGE

—has an copper removable which heats like a tea kettle, through a copper pocket stamped from one piece of copper, setting against left hand lining of fire box. It boils 15 gallons of water in a very few minutes and by turning a lever the flame and reservoir move away from fire. An exclusive patented Majestic feature. Open end pit prevents floor from catching fire—ash cup catches ash. Ask us to show you the greatest improvement ever put in a range.

Don't buy a range, you expect to last a life time. "Invisible, unseen," or you'll be sure to be disappointed. Come to our store, and see the Great Majestic—have its many exclusive features explained—find out why the Majestic is so strong, and why it is the best range at any price and it should be in your kitchen.
