

# Wonderful Exhibits From All Lands Show the World's Best Progress

From Beginning to End Magnificent Panama-Pacific International Exposition Will Abound With Superb Educational and Entertainment Features.

By HAMILTON WRIGHT.  
**T**HE construction of the vast Panama-Pacific International Exposition at San Francisco was 95 per cent completed three months before the opening day, on Feb. 29, 1915. The early installation of thousands of tons of rare and costly exhibits from all parts of the globe and the participation of forty of the world's great countries have assured a celebration that will be unrivaled in its splendor, magnitude, interest and comprehensiveness.

From its opening until its close, on Dec. 4, 1915, the Exposition will abound with original features collected at an expenditure of many millions of dollars. It will present a cross section of human achievement. The Pan-

francisco in a single day, and, far in advance of its opening, the Exposition had created an unprecedented interest throughout the world, and its opening was eagerly awaited.

In keen competitive exhibits there will be presented more than 80,000 single exhibits and groups of related exhibits portraying the results of the world's best efforts in recent years.

This wonderful Exposition, presented at an outlay of more than \$50,000,000, celebrates a contemporaneous achievement, the building of the Panama canal, and all exhibits that are entered for competitive award will be those that have been originated or developed since the great Louisiana Purchase Exposition at St. Louis ten years ago. The possible exception to this rule will be where earlier exhibi-

tion such charges are pending must be subject to a special restriction and cannot be accorded the distinction of their rank or be allowed to mingle with other prisoners of war."

A report received from Rear-Admiral the Honorable Horace Hood on the sinking of the U.S. submarine by the Admiralty, shows that the submarine was finally destroyed by the torpedo-boat destroyers Garuda and Maori. The other destroyer which took part in the hunt were the Viking, Nubian, Mohawk, Falcon, Kangaroo, Cossack, Leven Fawn and Ure. The operations were directed by the officer commanding the flotilla, Captain C. D. Johnson, and were marked by skill and promptitude, according to the report.

### Firemen Hold Meeting.

Pursuant to a call of Fire Chief Coates, the members of the Tillamook Hose Co. met in special session on Wednesday, March 3rd, 1915, at the City Hall, but the City Council being also in special session the meeting was adjourned until Friday, March 5th.

On March 5th, the Company met in adjourned session and Thos. Coates was elected chairman, and John Aschim Secretary, pro tem.

The chairman then addressed the meeting stating that the meeting had been called to devise some means of getting additional members. He gave a brief history of the Company from the first organization in 1889 up to the present time and ended by explaining that at this time there were not enough members in the company to handle the apparatus on hand.

The meeting being open for discussion suggestions were made by Mr. Dwight, O'Donnell and others to the effect that the matter of keeping a good live fire company was incumbent upon the property holders of the city and also upon the Insurance Companies represented here.

A motion was made, seconded, and carried, that a committee be appointed to interview the Fire Insurance agents of the city and through them their companies, as to whether they would help in the support of the Fire Company.

Motion made, seconded, and carried, that a committee of five property owners be appointed by the chairman to secure members for the Fire Company.

The Chairman appointed the following committee: Chas. I. Clough, C. W. Miller, M. F. Leach, Alex. McNair and E. T. Haltom, and he also referred the matter of interviewing the Insurance Companies to the same committee.

The Secretary was instructed to prepare blanks for the signatures of the applicants for membership.

Under the discussion of propositions for promoting interest in attendance by the members, Mr. Dwight made the suggestion that each fireman on duty at any fire may be paid the sum of \$2.00, this to be paid from the treasury and a record kept of all these expenditures. Then at the end of the year a statement of money so paid be submitted to the City Council with a request that they reimburse the company and levy a tax to provide for same. The matter was continued until the regular meeting to be held March 11th.

Nothing further appearing at this time the meeting adjourned.

John Aschim,  
Secretary Pro tem.

### Poultry Men Organize.

February 27 a few of the poultry men of Tillamook County met in the Commercial Club rooms. Professor A. G. Lunn, Instructor of Poultry Husbandry at the O. A. C. was present and gave a very interesting lecture, illustrated with stereoscopic slides; his subject being "Poultry Work at O. A. C."

After the lecture a poultry organization was formed and temporary officers were elected. H. Booth, Pres.; W. S. Coates, Sec. A second meeting will be held Saturday, March 13 at 1:30 o'clock at the Commercial Club to adopt a constitution and elect permanent officers. "Feeds and their costs" will be discussed at this meeting. All men and women in Tillamook County interested in poultry are invited to attend.

W. S. Coates,  
Temp. Sec.

### Fairview Literary Society.

The next regular meeting of the Fairview Literary Society will be held Saturday evening March 20, 1915.

The following program will be given:

- Song, ..... By Society.
- Recitation, ..... Ethelyn Crawford.
- Dialogue, ..... Lloyd and Victor Johnson, Leona Rupp.
- Talk, "Should a school district provide play apparatus for pupils." Wm. Maxwell.
- Motion Song
- Play, ..... "Rubber Boots."
- Recitation, ..... Willie Lucas.
- Fantomine.
- Recitation, ..... Mrs. Crawford.
- Newspaper, ..... Mr. Herring.
- Song, Arranged by Rita and Florence

## STRENGTHEN YOUR KIDNEYS

This Treatment is Guaranteed by the  
**CHARLES I. CLOUGH CO.**

If the kidneys are sluggish in their action, general ill health usually results. Skin affections arise, due to the extra work thrown upon the skin in removing poisons which should be excreted by the kidneys; heart affections, caused by the pressure of fluids dammed back by the sluggish kidneys; eye diseases, nervousness, chronic headaches and other ailments.

These are of course in great measure to the poisonous action of matter left in the body.

We want you to try Rexall Kidney Treatment if your kidneys are out of order. We feel the utmost confidence in this treatment, which is especially designed to strengthen the kidneys, restore their normal functions and help in rebuilding the general health.

**THE MOTHER OF LINCOLN BEACHEY, FROM THE TOWER OF JEWELS, 435 FEET ABOVE THE EARTH, AT THE PANAMA-PACIFIC INTERNATIONAL EXPOSITION, WATCHES HER SON LOOP HIS ONE THOUSANDTH LOOP.**

When Lincoln Beachey, a son of San Francisco, on the occasion of his homecoming after breaking all world records as a daredevil loop, performed two entirely new and death defying stunts over the completed palaces of the Panama-Pacific International Exposition it was his aged mother who for the first time waved him on to fresh achievements. Mrs. Beachey held a place of honor, 435 feet up in the air, on the tiptop of the wonderful Tower of Jewels. From this aerial she was able to watch every erratic move of her daredevil son. She cried out only once. That was when he wrote the figures "1000" against the clouds, high above the two miles of completed exhibit palaces, significant of the looping of his one thousandth loop.

ama canal is today open and doing business on a far vaster scale than was predicted for it, and the Exposition, which celebrates the opening of the canal, is today revealed as the greatest manifestation of national achievement in American history. Here will be a neutral ground where even nations engaged in warfare will display on a scale never before equaled their progress in the arts, industries and sciences of peace.

Within three months before the opening of the Exposition as many as 2,000 tons of consignments had reached San

shown to illustrate the evolution of the processes of manufacture—as, for example, a display of a model of the first cotton gin in connection with the marvelous equipment into which it has evolved.

Many of the displays will be especially adapted to study by the delegates to great national and international congresses and conventions, of which more than 300, embracing almost every phase of human activity, have voted to meet in San Francisco in 1915. Delegates to the congresses interested in social progress and wel-

congress, at which its distinguished chairman, Colonel George W. Goethals, will preside.

The foreign participation will be notable. The nations are not attempting to show everything that they produce, but will lay especial emphasis upon those products in which they excel. In the Danish display, for example, will be shown products of the Royal Danish porcelain factory at Copenhagen. Japan in her exhaustive exhibit will display priceless works of art, loaned by direction of the Imperial household and many of which could not be duplicated. From Italy will be shown historic paintings of the old masters, hitherto never exhibited in America in the originals. From China there have reached San Francisco selections of exhibits collected under the supervision of the governors of the Chinese provinces. Rare silks and satins, carvings, inlay work in the precious metals, exhibits of the transportation methods employed in the old China and the modern methods used in the awakening republic will be shown.

New Zealand will make a marvelous exhibit of its rare woods, of its flocks, of its superb scenic charms. A large number of rare giant tree ferns from New Zealand will be found growing on the Exposition grounds.

The Argentine Republic early set aside a larger sum than any ever appropriated by a foreign nation for representation in an American exposition. The modern cities of Argentina, the schools, churches, libraries, the great live stock and agricultural interests will be extensively portrayed, and the mutual interests of South America and North America will be emphasized in almost every conceivable manner. From South Africa will be shown diamond exhibits and methods of extraction. The magnificent Canadian displays will review not only the widely known agricultural wealth, but will illustrate the scenic charms of the great Dominion, of snow clad mountain peaks, of farreaching forest, of inland lakes in chains of silver and rushing mountain streams.

**THE END OF THE TRAIL," PANAMA-PACIFIC INTERNATIONAL EXPOSITION, SAN FRANCISCO, 1915.**

nd photograph shows James Earle Fraser's superb piece of statuary, "The End of the Trail," at the Panama-Pacific International Exposition. More than 30 beautiful sculptures are shown at the Exposition, the works of sculptors of the day. In addition to the sculptures shown out of thousands of beautiful works of art are presented in the great Palace of Arts.

### SEA RAIDERS HELD FOR MURDER.

red Crews will Get no Honors. London, March 8.—The Admiralty says that it is not justified in giving honors to the captured crews of German submarine boats, to their methods, and that it is to segregate them under all restrictions, pending their conviction at the conclusion of the war.

Murder Trials Possible. A policy to be adopted toward

the crews of German submarines is in answer to the demand of Admiral Lord Charles Beresford, retired, and others, that such men be tried for murder, and the Admiralty statement indicates that the Government has this in mind.

The statement refers to the generous treatment accorded German officers and men, numbering upwards of 10,000, and then says with reference to the U.S.:

"This vessel had been operating in the Straits of Dover and in the English channel, and there is a strong

probability that she has been guilty of attacking and sinking unarmed merchantmen and firing torpedoes at ships carrying non-combatants, neutrals and women. In particular, the steamer Oriole is missing, and there is grave reason to fear that she has been sunk with her crew of 20.

Evidence May Be Lacking. "There is, of course, great difficulty in bringing home particular crimes to any individual German submarine, and it may be that the evidence necessary to establish conviction will not be obtained until after the conclusion

### Notice to Farmers.

The Tillamook Lime Products Co. is ready to furnish ground lime stone to the farmers. The lime stone is ground so as to pass a 1-6 inch wire screen. The lime stone will cost \$5.00 per ton in sacks at the plant. A charge of

1 cents per sack or 6cc. per ton extra will be made for the sacks unless sacks are furnished by the customer. Only grain or meal sacks with a close weave should be brought as the fine dust or powder will all be lost if the sacks have a coarse weave leaving only the coarse grains of limestone in the sacks.

A set of new grinding rollers are being installed to increase the capacity and produce a finer product. Address all communications to U. G. Jackson, Box 413, Tillamook.
