Improvements at Brighton.

(Reporter Wheeler) John Lockhart president of the Brighton Development Company was a business visitor in Wheeler last Tuesday evening, having come in from Portland the day previous for the purpose of looking over his interests at Brighton and making arrangements for the carrying on of extensive improvements at that place this year. Mr. Lockland states that the Development Company will put several teams at work in the near future in grading the streets of Brighton, and that there is a possibility of a large timber and mill concern locating there within the coming year. He would not divulge the names of the people who are at the head of the enterprise, but intimated that if the deal was closed it would mean the installing of a saw mill, shingle mill and wooden ware factory. Mr. Lockland is an enthusiastic booster for Tillamook County, and while his direct intefests are at Brigh on he does not hesistate to say a good word for any and every community and its future possibilities. The Brighton Development company has sold a large tract holding in that town to outside parties and the management prides itself of the fact that the sales were made not on misrepresentation what Brighton had to offer the purchaser today, but upon the future development of this entire section.

Drowned While Clam Digging

(Nehalem Times.)

Saturday afternoon Heine and Ferdinand Hehchenhein, two brothers who are farming the Lang place, went to the clam beds Saturday afternoor to dig clams and have not been seen

The first intimation that something had happened was about 6 o'clock Saturday evening when Captain Bell on the Meta M picked up the ours and a board from a boat near Dean's Point. Nothing was seen of the men or boat.

A searching party immediately went out but no trace of the men or boat was found until the next morning when the boat filled with water was discovered a short distance below where the oars were picked up. No shovel or clams were seen.

It is only a matter of conjecture as to what happened. The most acceptable theory is that the men tried to relieve one another at the oars and, in attempting to pass, the boat capsized. It is not known if either could County Court of Tillamook County, swim, if so, the long rubber boots Oregon, and indorsed "Proposals to they wore proved to be too much of a Complete Pacific City County Road handicap.

Fighting a New Paramount. - 0----

Secretary Bryan's recent activity in behalf of prohibition does not indicate such a lively interest in the promotion of that cause as might appear at first blush. If he really desired to promote prohibition he would not weight it down with the indorsement of the Democratic Party. There is a constantly growing majority of American electors who have decided that one might as well try to "gather grapes of thorns or figs or thistles" as to try to get any good out of the Democratic party. Its chief function nowadays is to serve as a horrible example. Mr. Bryan's real purpose is to help the Democratic party out of its present sorry predicament. He has picked upon prohibition as his new paramount. His partiality for paramounts is known of all men. But he is notionate about them. He never uses one more than once. His first was free silver. His next was antiimperialism, coupled with anti-militarism. The next campaign he sulked being miffed by the Parker telegram supplementing the St. Louis platform He mounted the government ownership paramount, but was forced to dismount by his Southern friends long before the Denver convention. That convention gave birth of a litter of paramounts bank guarantee and a fixed percentage rule for grading trusts being the most conspicous. Next campaign he posed as the savfor whom the Nebraska Democrats in the near future. The fish will be tention of said survey,
