### Tillamook Drainage District.

In the matter of the petition for the organization of Tillamook Drainage District coming before the county court on Saturday, no objections hav-ing been made it was ordered that the prayer of the petitioners begranted, and the district to embrace the fol-

Beginning at a point 20 feet East of the West line of Section 31, in town-ship I South of range 9 West, W. M. and 30 rods South of the Northwest corner of said section, and running thence East to the west line of the James and Anna Quick donation land claim in section 32, said township and range; thence South to the south line of the northwest quarter of the southeast quarter of said section 32; thence West to the southwest corner of the northwest quarter of the southwest quarter of said section 32; thence South to the south line of said section 32; thence West to the southwest corner of said section 32; thence North to the southeast corner, of the northwest quarter of the southeast quarter of section 31, in said township and range; thence west to the southwest corner of the northwest quarter of the southeast quarter of said section 31; thence north 1954.2 feet to the north line of tract owned by Ben Jacob; thence West to the east line of the county road on the east side of Trask river; thence fol-lowing the east line of said county road in a northwesterly direction to a point within 20 feet of the west side of said section 31; thence north to the place of beginning.

The County Clerk was directed to call a meeting of the owners of the land situate in the district within 30 days for the purpose of electing board of three supervisors for said

#### Tillamook County Potatoes are Quarantined by State Board.

The notice of quarantine against Tillamook County potatoes printed elsewhere in this paper will perhaps bring out some inquiries as to the nature of the disease in question and the reason for the quarantine.

Powdery scab has been known in this county only a few years and as it is quite a serious disease the gov-ernment authorities are doing everything in their power to prevent its spread. It appears first in little blisters which finally break out into brownish powdery masses.

The common scab is rather corky

but this is in the form of powder.

It was first located in this county in a sack of potatoes sent this spring to the Experiment Station to grow experimentally in the style of another disease of a less serious nature. This brought the Plant Pathologist to the county and together with the County Agriculturist he examined all the potatoes to be found near Tillamook and tried to trace the history of the diseased sack. It was found in some of the locad grown potatoes then in the stores, but these could not be traced to the grounds as the store-keepers could not tell from whom they were received. Do not think the disease is at all general but it is to the interest of the county as well as the state to get it cleaned up as soon as possible. In order to do this we need the hearty co-operation of every need the hearty co-operation of every one. If you have any suspicion of the disease in your crop kindly drop me a line or call me up and I will be glad to investigate and help you get rid of it. I shall be glad to know of everyone in the county who will have potatoes to sell this fall and to help them in every way possible. The expert on plant diseases from O. A. C. pert on plant diseases from O. A. C. will be here about digging time and we may be able to help you in many

The store keepers are asked to keep track of the source of all local potatoes and regular inspection at the

stores will be followed up.

Tillamook does not raise nearly all
the potatoes she consumes so the quarantine will work no particular hardship on the county. "It's no disgrace to get bed bugs but it is a disgrace to keep them." In the same way this disease and quarantine is no disgrace to the county but it would be a disgrace to keep it here. This article is a call to everyone in the county to help get rid of it. Watch the papers for further articles.

Roy C. Jones,

County Agriculturist.

### On Going Barefoot.

Despite the eulogies of sappy bio graphers, there are not many advantages in being born poor, and most of these can be shared by the children of wealthy parents who happen to have sense as well as money. Among the foremost blessings of poverty is the sacred and inalienable right of children to "go bearford" in the But dren to "go barefoot" in summer. But why should the youngster be depriv-ed of the touch of cool, sweet grass on his naked feet because his progenitors happen to be rich?

Man is a five-toed animal, who seems ashamed of the fact. He covers his sensative feet with leather, which turns him into an imitation ungulate, or hoofed creature, and then wonders why he has corns and bunons. He takes the spring out of the earth with his pavements and the elasticity out of his stride with hard-soled shoes, and marvels why walking has become a pain instead of a pleasure.

There may be some climatic excuse for this folly in winter, and as for grown-ups at any reason, "the world has set its heavy voke upon the grave and bearded folk." But give the kids even the poor little rich kids, a chance to get their feet on the good breast of earth.

All men love a thermometer which goes to extremes in hot weather. They are contemptuous of conserva tism in matter of that kind.

expected nexer happens.

DEFIANT NEUTRALS.

Countrymen of America Said to be Ready to Block Munition Shipments

London, July 20.—A special dispatch received by the London Post from Budapest, Hungary, says that

ilization of American-Austrians and

ican Government does not meet the

demands of the central empires.
One of the members of Count Tis

"It is a great mistake on the part of America to believe that we are utter-

ly powerless, for if the worst comes

to the worst, we have more than 15,

000,000 men, mostly in Eastern states, Germans, Austrians and Hun-

garians, who are ready to menace the

Central Organization Necessary.

The Post adds that it is not quite

clear what all this means, unless it refers to more incidents of bombs

and revolvers, such as came to light in the case of Morgan's assailant, Muenter, who is feted in Vienna and

Munich as a German martyr.

There are 3000 Hungarian societies

in America that could create trouble

and foment strikes, says the Post, but for such an undertaking a central

organization is necessary and Ameri-

can authorities may have something to say on that subject. Underground agitation, on the other hand, will be

of little use. Moreover, though there are many thousands of Hungarians

employed in factories in America turning out war material for England

and the allies, and though agents of

German organizations are doing their best to empress them with their ideas

the people pay little or no heed to

Hint Given "Unfriendly Neutrals."

Count Tisza, in giving followers some idea of his policy, is reported to

"We have been at war almost a year

ow and we have tried to behave as

modestly as ever a great military power behaved. We worked hard and

shed our blood and spent our money

until we achieved a position in war

which justifies our taking into consideration the unfriendly attitude and

pretensions of certain neutrals who interpret neutrality entirely in defian-

ce of the spirit of the word, and in accordance with their own interests

and sentiments. We think the times

has arrived when we should take a stand and in the name of right and justice, rais a protest against this menacing and disloyal attitude of certain neutral states."

These phrases are said to relate partly to Roumania and partly to America, but the Premier did not give

any indication as to the precise steps

HAZEN TELLS COAST NEEDS. | HUNGARIAN WARNS

Portland Man Urges Marine Law Amended Before Trade Board.

Chicago, July 20-Members of the Federal Trade commission ended a two-day conference with lumbermen this afternoon, and planned to leave for Detriot tonight, where they will the government contemplates a mob-hold a hearing tomorrow.

Assertions that the lumber business of the country is in a demoralized condition were repeated by representatives of the industry, who appeared ufacture of war material, if the Amerbefore the commission at to-day's

E. B. Hazen, of Portland, Ore., representing the West Coast Lumber Manufacturers' association, summar-ized his recommendations for the re-lief of existing conditions as follows: "Our marine laws should be amended so that we can purchase ships any-

where and operate them under our flag, both offshore and between the Pacific and Atlantic coast.

permitted to operate through the Panama canal from coast to coast. "The lumbermen should be permitted to form co-operative selling agencies to care for the domestic

"The lumber industry in the Pacific Northwest is now in a state of de-moralization," said Hazen. "with the present average selling price of \$10.90 per thousand, there is an actual loss

of \$1.84 per thousand.
"In Washington and Oregon alone the loss to manufacturers for 1915 on a normal 10-hour output, not includ-ing interest, will be \$12,000,000. Under present conditions, the fittest is the manufacturer who can stand to lose money in the largest quantities or he who buys out the bankrupt at 50 cents on the dollar.

"The government practice of selling timber to manufacturers on the pres-ent system, where the operator has no large investment in raw material and no interest accumulating, makes the operators in government lands the hardest competitors we have and places our government in direct competition with us. One-quarter of the trees in the United States are within government reserves."-Telegram.
