THE TILLAMOOK HEADLIGHT.
Editorial Snap Shots.

There is nothing the matter with business. It is simply the usual Democratic blight that have taken hold of it. Such free trade boosters like Bro. Trombley need a good spraying. Co., Bro., isn't it enough to give you another flopping fit?

The Sentinel and The Leader two newspapers published at Cottage Grove, have consolidated, or, to put it more pointed, have come to their senses. No doubt, some one thought it was a "long felt want" when they started the second newspaper in that town, only to find out later that one newspaper is all that a small town needs.

The County Court of Coos County is to be recalled, the reason being given that the Court reduced the wages of those working on the roads and that the assessment of timber was reduced. No doubt the court was justified in doing what it did, but it stepped on the corns of those whose wages were lowered for road work. It must be remembered that labor is plentiful and men are willing to work for less money, and in view of this fact the court acted accordingly.

Some persons advocate that the Dagos working on roads be given notice to leave the county. The snap shot man does not favor such a radical procedure, for it would be unjust to the contractor and the men to do so. What we suggested last week is the right and proper course. It is exceedingly easy to complain, find fault and start agitation these days. Some of the timber men last year found it easy, but as a result of the agitation they have to dig up about \$75,000 more in taxation this year and a large number of settlers have been deprived of work on the roads on account of Dago labor. Place the blame where it belongs and not on the Dagos.

Tillamook and Yamhill will expend this year \$20,000 on the Sour Grass road, and \$10,000 additional to improve the roads on either end of it. The question will soon have to be decided about surfacing the new road. Plank have been suggested. We believe it will be economy to hard surface the 5 1/2 miles of new road, and a waste of money to use plank or macadam. It will cost \$2,500 to \$3,000 a mile to plank the road and probably more to macadam it, which in a few years will be worn out and have to be replaced. Here is an opportunity for the two courts to cut out maintenance charges on roads which are costing a whole lot of money, from its inception. The hard surfacing need only be eight feet wide. We will leave this to the judgment of those interested whether this is not the proper thing to do.

Somehow, when men lose their lives by their own carelessness, one is not prone to express sorrow. The two men who lost their lives in Tillamook Bay on Friday night crossed the bay in a small skiff that was known to be unsafe even for one person in the boat. In what way they were drowned will never be known, but it can safely be said that the small, unsafe skiff was the primary cause, and had they used good common sense and judgment, they would not have met premature death.

News reports seems to indicate that the Germans have just as much "hate" towards the Americans as they have against the English, on account of the United States supplying the allies with munitions. It's a good deal as to whose ox is gored. If Germany could procure ammunition from the United States and the English could not do so, we suppose it would be Johnny Bull who would be doing the "beefing" and not Germany. It plainly proves that when it is uncomfortable for Americans to remain in Germany that there is a bitter feeling in that country against the United States, and should Germany win in the present conflict there is no telling what might happen when a country like Germany is flushed with victory and a large army bent on conquest. The news items contain this information: "American travelers arriving from Berlin report that there were serious anti-American disturbances in the German capital on Tuesday and Wednesday. A large crowd of students gathered in front of the American Embassy and hooted and yelled until they were dispersed by a force of police summoned to protect the building. The police, according to the travelers, requested Americans in Berlin to refrain from wearing the stars and stripes as badges, or scarfpins, the sight of which, they say, irritates the Germans and often exposes the wearers to insults and molestations."

Baby Contest at Nehalem.
 (From Nehalem Times.)
 The examination for the baby contest was held here Tuesday and the anxious mamas and papas as well as irate kids are mighty glad of it. Doctors Rinchart, of Wheeler, and Hoy, of Tillamook, conducted the physical examination and Dentist Kenyon of this city, examined the teeth of the contestants. Twenty-four children submitted, more or less unwillingly to the ordeal. The result of the examination will be announced soon. The three kids having the highest averages in the three districts will be entered in the contest at the county fair.

The children examined were: Dorothy Kebbe, Gordon Smith, Jas. P. Lommen, Orville Lommen, Milo Scillon, Dean Sellon, Verna Tubbesing, Devene Tubbesing, Jean Reed, Ruth Reed, Margaret Briggs, Ward Madden, Ivan Allen, Margaret Ann Miller, Hillis Lupro, Mary Lupro, Lloyd Bell, Crystal Gresham, Kathleen Cady, Francis Patchell, Leonard Emery, Arthur Kuppenbender, Edwin Kuppenbender, Rosa M. Anderson. Mrs. Todd desires to thank her assistants for the interest they manifested and labor performed to make the contest a success.

Floral Fair at Wheeler.
 (Wheeler Reporter.)
 Arrangements are being completed for several special features for the Floral and Industrial Fair to be held in Wheeler on August 21st. The Zimmerman building will be used for the displaying of all exhibits and as general headquarters for the day. A special band is being arranged for, to supply music throughout the day and also for the big dances in the evening.

What is most needed however is exhibits and everyone is urged to arrange for an exhibit either of flowers or small fruits and berries. In the floral exhibits it has been decided that no prizes will be awarded, but anyone exhibiting a certain number of varieties and of a certain number of varieties will be paid for the exhibit. The management of the Floral Fair wishes as earnestly as possible to call this matter of exhibits to the attention of everyone and to urge that special efforts be made to have the exhibits especially fine this year. Posters and cards will be sent to all points in the county during the next two weeks inviting everyone to come to Wheeler on August 21, and a large crowd is expected. Fine exhibits will be a great advertisement for the Nehalem Valley.

Do your share and get an exhibit ready for the Fair.

Motor Club at Nehalem.
 (Nehalem Times.)
 The Nehalem River Motor Boat Club was reorganized and is now on a permanent basis. The meeting called for Tuesday evening in the city hall, while not so largely attended as anticipated, was an enthusiastic affair and the club received new stimulus through the addition of enthusiastic members. The roll for membership is still open and all are invited to join. The initiation fee is only 25 cents and the monthly dues at 15 cents. Join and boost an organization that does more to attract people to this section than anything else. The roll is at the Times office—come in and sign it. All the people along the river are urged to do so.

The officers are as follows: Commodore, Harry H. Bell. Vice-Commodore, W. J. Mead. Rear Commodore, A. J. Anderson. Fleet Captain, Albert Crawford. Secretary, J. S. Rankin. Treasurer, W. E. Walker. Trustees, R. M. Gould, Leo Batzner for 2 year term, H. W. Tokl, 1 yr. It is intended to hold a meeting at Wheeler and Brighton in the near future and invite member ship. They were invited to attend the last meeting, much to the disappointment of the Nehalem enthusiasts, they did not come.

Ralph Emerick and John Rathjan Are Drowned.
 Some time on Friday night Ralph Emerick and John Rathjan of Portland, who were camping at Bayocean were carried out to sea in a small boat and drowned. Emerick and wife, John and Will Rathjan and Roy Hickey had been camping for a month at Bayocean, where Mr. Emerick owned property. On Friday afternoon Mr. Emerick and John Rathjan went to Bay City for a small boat which they secured and with which they left Bay City for Bayocean that evening at about 9:30 or 10:00 o'clock. It is thought that while they were on their way, the outgoing tide caught them and carried them to sea, which resulted in their boat being upset and their being drowned. On Saturday morning the boat came ashore on the ocean side of Bayocean, with the anchor line severed.

The shore has been searched for the bodies, but as yet they have not been found. Mrs. Emerick and Will Rathjan returned to Portland Monday, while Roy Hickey remains here to keep up the search.

Mr. Emerick was a ball player, having formerly played with the Seattle Club of the Northwestern League, and played with Tillamook the Sunday before he was drowned, having caught both games of the double header played with Bay City.

Fire Wardens for Tillamook.
 Following is a list of fire wardens for Tillamook County given us by Supervising Warden Geo. Williams. The boys have all been given their positions and are duty
 1 Geo. H. Williams, Supervising Warden, P. O. Bay City.

Tillamook Wins From Beaver.
 Manager Mills took his champions to Beaver Sunday and defeated the team of that place by a score of 9 to 6. It was a good fast game but the Tillamookers had the Beavers well under control during the greater part of the game. Only once in the fourth inning was the game in danger when Schoolsen walked, stole second and went to third on Fordner's grounder which was fumbled by Tillamook's first baseman. Mills tightened up and fanned the next two batsmen retiring the side. Alderman's one handed stop of a fast liner in the eighth was one of the features of the game. Crimmins was tried out behind the bat and played a good game. Mills struck out 13 and allowed one to pass; Johnson struck out 5 and walked three. Batteries: Mills and Crimmins, Johnson and Fordner.

The Redmen took another defeat from the Bay City team on the local grounds. There was no evidence of any tie in Sunday's game, the tailenders being outplayed and outclassed in every department of the game. Wilson struck out 5 and allowed 13 hits, Provost struck out 5 and was found for 8 hits. Score 11 to 1. Batteries: Wilson and Rowin, Provost and Patterson.

Commercial Club to Reorganize.
 At a meeting of the Board of Directors of the Commercial Club held Friday night, it was decided to reorganize the Commercial Club and start on a more business like basis, by making a campaign for members among the live business men of the city. The policy of the Club in the future will be to devote all of its efforts toward the fostering, encouraging and developing the resources and home interests of the city of Tillamook, and the County in general.

The Club is now located in very comfortable quarters on First Street opposite the Ramsey Hotel, where all members and out of town visitors are welcome at all times. The Club has recently shipped some of our Tillamook cheese to the San Francisco fair for exhibition, and are now endeavoring to have the different factories in the county donate some cheese to be served on the exposition grounds. The monthly dues for members have been reduced to one dollar and the board feels that they are entitled to the support of every business man who interested in the future development of our county and city.

Borgquist-Olson Wedding.
 On Sunday last at the home of Jonas Olson in this city Miss Esther E. Borgquist of Mount Vernon, Wash., was united in marriage to George W. Olson, Rev. Gittins pastor of the M. E. Church officiating.

The services took place at the noon hour after which the wedding party which consisted only of relatives, sat down to a sumptuous repast. The bride's father and the groom's father were old friends in Michigan forty years ago. They came to the coast together thirty years ago, Mr. Borgquist settling in Washington and Mr. Olson in Oregon.

The groom was raised in Tillamook and but recently completed a four year term of service in the navy. He is industrious and has the respect of many friends. The bride is a fine talented young woman whom we are sure will make many friends here. The young couple will make their home here, it being their intention to go on the Jonas Olson dairy ranch. The Headlight joins in wishing them long and happy wedded life.

Those fur coats appear to have all gone out of fashion. But the weather suitable to them hasn't, thank you.

Weekly Industrial News.
 Salem—100 men are now at work grading railroad from Grants Pass to Hays Hill.
 The \$1,250,000 S. P. bridge across Coos Bay is to be done by Oct. 1st. Work has begun on the Valley and Siletz railroad from Arlic to Independence.
 Plans are on foot to establish a paper mill at Albany.
 Spinach raising has become a big industry near Gervais this year.
 Construction on the first part of \$100,000 improvements at Winino Hot Mineral Springs, 35 miles from Eugene has been started.
 Under Portland's commission form of government 175 new jobs costing \$15,000 a month have been created in two years and one month. The new fangled commissions cost money and each commissioner has to try his experiments and the taxpayer has to foot the bills. The people created the new form of government, however, so they must like this "increased cost of living."
 Hubbard voted bonds for \$15,000 high school.
 It is announced that capital has been secured to finish cement plant at Gold Hill.
 Many hoppers are in demand in Willamette Valley for next month. The Columbia River salmon run this year is the best on record.
 An auto road will soon be completed around Cape Perpetua.
 Oregon City has voted \$20,000 bond issue for addition to high school.
 England is purchasing all the low grade canned salmon to be found on Pacific Coast with which to feed its army.
 The first steel for Columbia river interstate bridge has arrived at Vancouver, Wash.
 Powers, Coos County will have an \$18,000 school.
 The Oregon Power Co., at Albany has in prospect 150 horsepower of new business.
 \$350,000 worth of construction added to Eugene past few months.
 Public bath house about ready at Grants Pass.
 Eugene Brick Co. expects to ship fire clay products to all points in the northwest.
 Twohy Bros. Co. have been awarded contract for 30 miles extension of Oregon and Eastern railroad from Riverton to Crane Gap, Harney Co. The new line is being financed by O. W. R. & N. Co.
 The howl against high taxes comes from every home and every line of industry that is building for a better conditions in this life.
 Albany is agitating for natatorium. Steps are being taken for a fine new city hall at Echo.
 The Oregon Power Co. has ordered a car load of iron grates and feed holes from Eugene Iron Works.
 The Oregon Voter says the cheap type of pavement being laid by Marion, Linn, and Clackamas counties under the guise of a "hard-surface road," is disregard of experience elsewhere, is going to be a costly experiment.
 During the last calendar year, the Portland Railway Light & Power Co. has paid \$995,656.14 in taxes and license fees.
 700 men are rushing work on the Willamette Pacific Railroad to Coos Bay.
 James J. Hill is being asked by the Portland Chamber of Commerce to build a line to Klamath Falls.
 J. W. Moffatt has been awarded contract for \$15,000 water works at West Linn.
 The Oregon Electric will enlarge its freight sheds at Eugene and build a large warehouse at Harrisburg.
 If you can't make good anywhere else ask for a job on a state or government commission—no experience is necessary and the taxpayers foot the bills.

Excellent Record School Attendance.
 Jessie S. Jensen, daughter of H. L. Jensen, who resides in School District No. 32, Tillamook County, entered school when she was five years of age. While this is a rural district known as Boulder Creek, named from a small stream entering the Big Nestucca river, about four miles above the town of Beaver, Miss Jensen has a record of attendance that she may well be proud of. Beginning with the year 1907 and ending in 1915 her report cards show that she was absent but five days during the entire time. This absence we have learned was caused from the water being too high between her home and the school house for it to be possible to make the trip with safety. She took the eighth grade examination at the close of this school year and no doubt will make a record worthy of note during her high school work.
 It affords us pleasure to be able to make note of such splendid records.
 W. S. Buel, Supt.

Oregon's School for Oregon's Teachers,
OREGON NORMAL SCHOOL,
MONMOUTH, OREGON.
