

A Trying Time for Men

TRY something new—a life-sized picture of yourself in our mirror in a brand new Fall Stetson.

The reason we say Stetson is because the hat with the fellows who really know style when they see it is the Stetson.

Try on a Self-conforming Derby, that gives you the stiff hat style with the soft hat comfort.

Come on in. The trying on is good.

Advance Showing Of New Fall Suits and Fall Coats for Ladies, Misses, Juniors and Children.

We cordially invite the women of this district to pay a visit to this store to look over the exquisite styles, and becoming models in "Classic Coats"

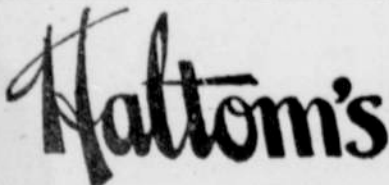

For Fall now being shown in our Display Windows and Ready-to-Wear Show-room on the Balcony.

To "shop" before buying is the privilege of every woman who enters this store. Come in and try the garments on, stand in front of the mirror and see for yourself how they look when actually in wear.

Special Bargains For Fair Week.

After a most successful Cash Converter Sale we have several odd lengths of Yard Goods, and Broken Ranges in size goods and these will be cleared at remarkably low prices.

Watch our windows and make a point of stepping into the store just to see what wonderful savings you can make on lines we are closing out during Fair Week.

Special Announcement.

Miss Mame Jones, of Portland, will open our Millinery Workrooms on Monday for the Fall Season. You will remember, no doubt, that Miss Jones superintended the work in our Millinery Section during the spring of this year and will be glad to know that she is again going to assume control this season.

RED MEN IN TILLAMOOK

Great Council Hold Annual Convention in This City.

Delegates to the 24th Great Council of the Improved Order of Red Men of Oregon, arrived in this city on Monday evening numbering about 65. The train was met at Bar View by Mayor S. A. Brodhead, Fred C. Baker and J. R. Callahan, where a number stayed over for the night and came to the city the next morning. Frederick O. Downs, of Boston, Mass the Great Inchoonee, was present and took an active part in the business of the session, which commenced on Tuesday morning in the I.O.O. F. Hall.

Tuesday evening a banquet was given at the Tillamook Hotel, which proved a very successful and enjoyable affair. Dr. E. E. Daniels was the toast master and the address of welcome was given by Attorney S. S. Johnson, and Judge Jones made response to this. The other features of the evening were:

Introduction of Great Inchoonee, Frederick O. Downs and welcome by Great Sachem Cue.

Great Inchoonee, address.

Katata Tribe Welcome, F. E. Shaw.

Response, L. M. Lepper.

Short addresses were made by Rep. P. G. S. Jas Devlin, Rep. P. G. S. Micelli, P. G. S. Fitzgerald, P. G. S. Orton, P. G. S. Fessler, G. T. Ch. of R., L. H. Hamig Gt. K. of W., A. L. Noble, P. G. S. Little.

Blocking the Oil Station.

There appears to be some opposition to giving the Standard Oil Co. a franchise to establish an oil station in this city, unless the company will grade certain streets, to benefit other people's property. The Headlight is in favor of granting the company a franchise without any strings attached to it, for an oil station will be a great benefit to the people and far less dangerous than the empty oil kegs laying around the city in different places, for if a match was applied to some of them they would explode. During the past two weeks we have seen a large number of these oil stations in different parts of the state and they are an improvement over the old style of distribution of oils, and at far less expense, and now that the city can obtain one there should be no quibbling or hold up to procure it.

The following letters will explain the situation: Standard Oil Co., Portland Or.

Gentlemen:—I beg to advise with reference to your ordinance asking the City Council to grant the privilege to you for constructing oil tanks and warehouses on Tide Lots 1 to 4 in Stillwell's Addition, same was taken up last Monday and passed up to the third reading. Since then the council have been looking over the ground more in detail and it now develops that if your plant goes in as contemplated, it will shut off the foundry from any street.

This the council naturally has in doing and I am writing to ask if you will consider this solution of this matter.

Would you be willing to grade 4th Ave. West from Front to First street and to fill same on the west of lot 4 and far enough north so that the Foundry could get an outlet West. If you are willing to do this I wish you would advise at once as it will simplify matters.

Very respectfully yours,
John Aschim,
City Recorder.

Mr. John Aschim, City Recorder, Tillamook, Oregon.

Dear Sir:—Replying to your favor of August 13th with reference to our application for an ordinance granting permission to locate on Lots No. 1, 2, 3, and 4, Stillwell's Addition.

When we took an option on this property and considered building on it, we assumed that Third Ave. West was open to the water and under control of the city, and cannot quite understand why we should be asked to grade and fill Fourth Avenue West to give an outlet to the foundry. We supposed the foundry would use the same outlet they are now using on Third Ave. West. Any improvements that would be put onto Lots 1, 2, 3, and 4 would probably block the foundry just as much as the improvements we would put on.

In developing this property it will cost us close to \$1,000.00 to put it in condition so that we can use it, that is, the cost of filling and clearing of stumps on the property and we would not consider any additional expense in grading or filling Fourth Ave. West. Should the present owner of this property improve it in any way, no doubt it would inconvenience the foundry just as much as it would if we should buy the property and the Council grant us permission to build therefore I cannot quite understand why we should be expected to provide a roadway for property adjoining.

We have selected Tillamook as the point at which we would prefer to establish our station on the Bay and expect to give the consumers of petroleum products in Tillamook County the benefit of modern service and lower prices would naturally go with it. Our plant will be perfectly safe and we are going to considerable expense as it is in establishing the station, therefore we feel the Council should be willing to grant us the ordinance and if it is necessary to make some arrangements for an outlet for the foundry people, the City should do it.

I hope the Council will take favorable action on the ordinance as we are particularly anxious to get the matter settled as soon as possible so that we can go ahead with the construction work.

Yours very truly,
Standard Oil Company
By District Sales Manager.

Washington was a great man, but he couldn't hail a street car by whistling through his fingers. Smoke Apex, the extra mild 5c. cigar.

BUILDING LOGGING ROAD.

A. F. Coats Lumber Co.'s Saw Mill to Cut 100,000 Feet Daily.

The building of a railroad for logging purposes was started this morning, which is to furnish the A. F. Coats Lumber Co.'s saw mill in this city with 100,000 feet of logs daily, and the mill is to be remodeled so as to cut that amount of timber daily. For several days the company have been slashing out the right of way, and contracts have been let to Olsen & Thompson, George Moskos and Wells, Leach & Co. for the grading, which is to be completed in 60 days. This improvement will involve the expenditure of \$40,000. The road starts on John Weber's place and runs up Bewley Creek about three miles. It will be a standard gauge railroad with 60 pound rails. The rolling stock will be a 50 ton straight connected locomotive with logging trucks of 100,000 pounds capacity, which will be all steel.

This is an improvement over the uncertainties of logging by stream, and will insure a plentiful supply of logs daily for the saw mill, which will mean a much larger pay roll for the city than formerly. All that is needed now is a deeper channel to this city so that vessels can load here, and considering what a great benefit it would be to have lumber vessels load here, no time should be lost in making this improvement, for when the lumber market picks up again this is going to be an immense industry in Tillamook and will give employment to large numbers of men. Our citizens should see to it that no time is lost in making this long desired improvement, which is of so much importance to Tillamook and the central part of the county.

REMOVE THOSE STUMPS.

Stump Boring and Burning Machine To be Featured at County Fair

The Forbes Mig. Co., of Portland, is pleased to announce that their Stump Boring and Burning machine will be on exhibition at the County Fair in charge of Messrs. Veatch & Devine, local agents, assisted by representatives of the company. The machine is now working very satisfactorily on Mr. Henry Rogers' farm, south of town.

Cheese on the Decline.

The cheese situation in Tillamook is not the best at this time, but from present indications the market has reached the bottom. When asked about the cheese situation and prospects, Carl Haberlach made the following statement:

"Owing to the low price being paid at the creameries for cream made into butter and the low prices paid for the whole milk by the condensers, many places have gone into the making of cheese this year. Ordinarily, twenty times as much milk is made into butter as into cheese, so that it takes a transfer of only 5 per cent of the milk that usually goes into butter to double the cheese output if put into cheese. I believe this has easily been the case on the coast. A map showing the economic condition existing in this country, as published in the Journal, shows Western Oregon and Washington and a small corner of New York state as being the only places in the United States experiencing hard times. This is due to Oregon and Washington to the poor lumber, fruit and fishing business mostly. Were it not for Los Angeles, we would have had much harder times in the cheese business, as Southern California, Los Angeles and San Diego, have taken about 18,000 cases of cheese thus far this year.

"We have had something like 10,000 boxes cheese on the shelves and for that reason we have had to reduce prices low enough to have buyers take hold in the warm weather we have been experiencing the last few weeks. Then, too, we have been getting more milk than ever before, both the Maple Leaf and Fairview factories getting over 20,000 lbs. milk daily on August 15. For that reason prices have been reduced to 13 cents Portland, at which price about 2,000 cases have been sold. It was either to take that or hold the cheese, and our factory room was hardly sufficient to hold same for any length of time, and the curing rooms are warm. However it looks as though July would be our lowest month as far as prices are concerned and as soon as make decreases we will be able to advance prices. With several thousand boxes on hand it is hard to advance prices, especially in the face of no demand."

Dahlia Show in Portland.

The National Dahlia Show, to be held in Portland Sept. 23, 24 and 25, should be a matter of interest to growers in Tillamook and vicinity. Those who are competent to make comparisons say that the dahlias grown in this locality are far superior to those elsewhere, and there should be a big display from Tillamook county. Aside from the interest to the individual exhibitor there is the advertising which the county gets from each effort put forth in the display of any thing that is the product of this locality. It is urged that the matter be given attention, to the end that this community may be recognized in the contest. Entries may be made by amateur, juvenile or professional growers. Premium list will be published in a short time. Membership may be secured by mailing soc. to R. W. Gill, Portland, Route 1, the money going to meet the expenses of the show.

Notice of Citizens' Meeting in Pavement Case

Tillamook, Ore., Aug. 16, 1915.

The citizens in the pavement case met at the court house on Aug. 16th pursuant to a call of the Citizens' Committee and adjourned until Monday, August 23, 1915, at 2:30 P. M. to meet at the court house, at which time a proposition of the Warren Construction Company for settlement will be considered. It is imperative that all litigants be present on said date.

A. G. BEALS, Chairman Citizens Committee

Moral Decay Throughout the World.

To the Editor:—The present war is the outgrowth of a condition similar to conditions which existed in the days of Noah. The restraining influence of the Spirit of God had been resisted by the antediluvians until men were left to follow out their evil impulses. Crime, violence, immorality, bloodshed, and war were the result. Here we have a true picture of what will be; for "as it was in the days of Noah, so shall it be also in the days of the son of man." Luke 17:26.

John the Revelator, in speaking of the last days, says: "I saw three unclean spirits . . . They are the spirits of devils, working miracles which go forth unto the kings of the earth and of the whole world, to gather them to the battles, of that great day of God Almighty. Behold, I come as a thief. Blessed is he that watcheth, and keepeth his garments, lest he walk naked, and they see his shame." Rev. 10: 13-15. In referring to the final outcome he says: "The nations were angry, and thy wrath has come, and the time of the dead, that they should be judged, and that thou shouldst give reward unto thy servants the prophets, and to the saints, and them that fear thy name, small and great; and shouldst destroy them which destroy the earth." Rev. 11:18.

and to "destroy them which destroy the earth." He came in mercy to cut short this cruel work of destruction.

In reply to the inquiry, "What shall be the sign of thy coming, and of the end of the world?" Jesus said to his disciples: "As the days of Noah were, so shall also the coming of the Son of man be. For as in the days that were before the flood they were eating and drinking, marrying and giving in marriage, until the day that Noe entered into the ark, and knew not until the flood came and took them all away; so shall also the coming of the Son of man be." Matt. 24: 3, 37-39.

While a power from beneath is taking possession of those who have cast aside the restraining influence of the Spirit of God, a power from above will take possession of God's loyal subjects. While "evil men and seducers" are waxing "worse and worse, deceiving and being deceived," the good will be developing characters that will give a right to eternal life. The line of demarcation between the two classes necessarily will become more distinct as time advances. Wars, earthquakes, famine, and pestilence are unmistakable forerunners of Christ's coming. Matt 24: 7-14.

Very sincerely yours,
F. M. Riley,
Elder, Seventh-day Adventist Church

Card of Thanks.

We wish to thank the many kind friends for their kindness and sympathy with us, owing to the death of our beloved son and brother Harry Nelson.

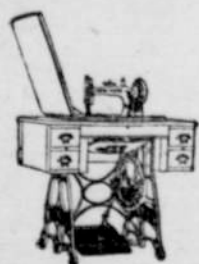

Mr. and Mrs. Axel Nelson and Family.

Methodist Church Service.

Sunday School 10 o'clock.
Sermon to children 10:40 a.m.
Morning worship, 11 a.m.
Class meeting, 12 m. W. M. Heaston leader.
Union prayer meeting at the M. E. church Wednesday evening, Aug. 24, at 8 p.m.

Dr. Wiley has written a book telling city people not to drop their jobs and take to farming until they have spent a month or two on a farm at farm labor. Let them try weeding onions first, say we.

Printing Point Does Not Bob Up and Down

In an L. C. Smith & Bros. Typewriter the point on the paper which is to receive the type impression is stationary at the instant the type hits. The carriage does not bob up and down when the shift is made to write capitals.

Why?

Because the type is shifted—not the carriage.

The only movement of the carriage is back and forth on its closely adjusted ball bearing runways—and this does not take place while the print is being made. There is no lifting of the carriage.

This is one reason why L. C. Smith & Bros. typewriting is free from blurs and every letter in the right place.

Presbyterian Church Services.

A very cordial welcome awaits everyone who will attend the services of the church next Sunday. The Bible Study hour at 10 a.m. The public worship at 11 a.m. The pastor, Rev. J. E. Youel, will preach on the subject, "The Trials We Follow." In the evening at 8 the congregation will unite in the union temperance service, the place to be announced in the morning service.

Fish Prices Drop.

Owing to the foreign market being cut off and the Portland and other markets being glutted with fish from Canada, as a result of free trade, it was decided today to reduce the price of fish to fishermen from 3c. to 1 1/2c. which is now being paid in other places.

The faster a horse becomes the more he is worth. It's just the opposite with a man. Smoke Apex, the extra mild 5c. cigar.
