

Tillamook School News

Miss Lucia Macklin will visit in Portland during the Christmas vacation.

Professor P. C. Crockatt and his brother will visit relatives in Spokane, Washington, during the holidays.

Miss Hazel McKown leaves on Saturday for a visit with her sister in Eugene.

Superintendent of schools Karl Ontbank and wife will leave the city on Saturday. Mrs. Ontbank will visit relatives in Portland while the Supt. will represent the local county teachers' institute at a convention in Medford.

The Christmas vacation for the school begins on Friday afternoon the 17th of December and extends through the year, school beginning again on the 3rd day of January. Students and teachers are thus offered an opportunity to visit away from Tillamook and still enjoy their vacation by not having to spend all their time in traveling. Many are planning to leave on Saturday.

The basket ball game played last Friday evening in the opera house, between the High School and the Academy ended with a close score of 8-6 in favor of the Catholic boys. The game was close, neither team being able to toss the ball in the basket with any great success and both showed a woeful lack of teamwork. However the teams cannot be judged as to their real merits as the time keeper cut the halves 8 minutes short and thus making the game shorter by 16 minutes than should have been played. The lineup of the Academy was Stasek and Werner, forwards, O'Donnell and Driscoll guards and Plasker center. The high school played the following men, Jones, Fletcher Lucas, Mason, J. Erickson, Edwards and R. Ericson.

The town team has been practicing lately and it is predicted that they will have a strong aggregation. The school team will commence heavy practice in the near future so that they will be in condition to meet some of the outside teams that they will schedule.

The fifth grade won the penant for improvement in Palmer Penmanship this last week, with an average improvement of 4.3 per cent. The fourth grade came second with 4.2 per cent and the sixth grade with 4 per cent. This gives the fifth grade both Palmer penant and Parent Teachers' Association prize picture, this last week. The fourth and fifth grade are running a close race for leadership in the spelling contest with the fourth grade, with the latter in the lead.

Fire drills have been held several times in the last few weeks. Both buildings have been cleared in 55 seconds after the time the alarm was sounded. These drills are given entirely without warning.

In the contest between the group of Freshmen girls registered with Miss McKown and Miss Ueland, the past six weeks, the latter won by 3.5 per cent. The average of the group was somewhat reduced by students who entered school so late that back work was not made up.

The school library is receiving copies of the Congressional Record for the present Congress, as it appears from day to day. Representative W. C. Hawley is the donor. Representative Hawley has sent the library numerous government publications of much value in the school work.

There will be a program in every grade room on Friday afternoon. Nearly all of the grades will have a Christmas tree with tree and room appropriately decorated. Parents are cordially invited to attend this exercise.

The attendance during the last report month was somewhat decreased, owing to bad weather and sickness. Tardiness, however, was much reduced, there being less than one-third as many pupils tardy. The average daily attendance was 354.3, and the percent of attendance was 95 per cent. The best record was made by the group of Sophomore boys registered to Mr. Crockatt, registering 99 per cent. The eighth grade went through the first two weeks of the month with perfect attendance, but was unable to keep it up for the month. Second and third grades have had a per cent of attendance of 97.8 and the twelfth and a group of Freshman girls registered with Miss Ueland registered 97 per cent. The sixth grade had a record of 96 per cent and all others except two grades, fell below this point. 16 visits were made by members of the school board and 24 parents visited at the school during the month.

At a meeting of the city school board on Wednesday, it was decided not to open a mid-year primary class as there were only 4 or 5 new pupils and only one really qualified to enter.

by age. However this does not mean that there will be no mid-year high school class as there are many students who will enter the high school this coming term.

The matter of fire protection was discussed by the members of the board and they decided, although the grade school building could be cleared in 40 or 50 seconds, of all its pupils, that, as there is only one stairway, they would have an outside stairway constructed. This extra precaution will not disfigure the appearance of the building, as it will be placed at the back and will not cover any windows. A door will be placed at the head of the stairs giving easy access to the exit.

The agricultural department of the high school is contemplating, using the south west corner of the school grounds for a school garden, in which flowers and vegetables may be raised by those students who have no place at home to have a garden. The department is also considering a place where the student and instructor may perform experiments for the benefit of Tillamook farmers. The department may cooperate with U. Jackson, who is going to give a demonstration of what liming will do for the soil, in the fair grounds and it is thought this would also be a good place to run experiments and tests.

Good Recommendations by Teachers and Principals.

Following are the resolutions passed at the Teachers' Institute and endorsed by the County Principals' Club:

Whereas the teachers of this institute feel that they have profited very much from the thoughts, ideas and suggestions of the various speakers who have addressed this Institute, therefore be it resolved:

That we express our appreciation in a resolution of thanks individually to Dr. DeBusk, of the University of Oregon for his advanced ideas on child study, to Mr. Pittman of the State Normal School for the inspiring addresses in school work, to Prof. Ressler, of the Agricultural College for his advice on Vocational Guidance, to Mr. Wells who represent of the State Department of Public Institutions, for the many valuable suggestions he offered, to Mrs. Fulkerson, of Salem, who brought to the primary teachers help in their line, to Mr. Dunstan, president of the county Fair Board, to Mr. Buel our County Superintendent for the fine program we have enjoyed, to Mr. Jones, County Agriculturist, and to Mrs. Heller for the progressive ideas they brought, and to Mr. Jones who led the singing at the institute;

That we thank those giving us the special numbers that were so highly appreciated, also the teachers of Tillamook schools who gave us such a delightful evening's entertainment, as well as the School Board for extending to us the use of the High School building, that we extend to the State University, the Normal School and the Agricultural College our thanks for the help they so thankfully give to the institute work of the state;

That the principals and instructors in the various high schools of Tillamook County carry out as far as possible the recommendations made by Assistant Supt. Wells, of the State Department in limiting to four the maximum number of subjects carried at one time by any student in high school;

That it be the sense of the body of teachers not only to thank Prof. Pittman, of the Oregon State Normal School for his message on co-operation and the best means of securing such, but that we make a practical application of his wise suggestions and we suggest that a meeting be called by the County Superintendent with this as object;

That inasmuch as the possession of a County Library by Tillamook County will be a valuable asset to the teachers, to the students and to the parents of each school district in the county and since the burden of securing and maintaining such a library will not fall on a particular section but be equally distributed, the books being owned by the County as a whole but each community maintaining its own branch library room and librarian, we recommend that the County Court be urged to take steps looking for the establishment of said county library;

That the State Department be complimented on its excellent work in standardizing the High Schools of the state and on its being the means of causing to be placed in the hands of the teachers the necessary apparatus for carrying on the work of the high school;

That the several school boards of Tillamook County also be complimented on their hearty co-operation with the State Department in supplying the above mentioned apparatus;

The several teachers in charge of the schools use all care in making

the best possible use of the apparatus and seeing that it is not broken or destroyed, thereby showing our appreciation of this great help rendered us;

That the teachers be urged to exercise the utmost care in keeping the records of the child's progress through the grades as that record is of the greatest value to high school teachers in selecting the high school course for which the child is best fitted and guiding the child to the vocation which he is to follow;

That inasmuch as the county unit plan of school administration and taxation promises to equalize the cost and to strengthen the work done in all schools, most especially those in the smaller districts, that we recommend that this plan be investigated and discussed as opportunity occurs.

That realizing that all education is of little value unless accomplished and followed by the health of those educated, that we compliment those districts which have provided open air play buildings and gymnasiums for the use of the school children and all other districts which have taken measures to conserve the health of their children and that the children be taught to practice the rules of health, and that greater attention be given to all the important factor in the growth and development of the child into a normal and efficient citizen;

That we recommend that more local applications be used in the study of Agriculture and so far as possible in all subjects teachers use local problems and illustrations with a view both toward vitalizing all subjects so taught and toward making the agriculture itself more practical.

That we recommend that these resolutions be spread upon the minutes of this Institute and that a copy of these be furnished to each newspaper in Tillamook County, to the institutions which sent instructors to us and to each of these instructors.

Sunday at the Presbyterian Church.

"The Spiritual Endowment Policy," will be the subject of the sermon at 11 next Sunday, and in the evening the subject of a special address to men will be "A Note of Action for Men of Today." The evening service will be "Men's Night," when men, young men and boys, will answer the challenge of the ladies by being present in large force. The ladies will all be present and observe how well the men are capable of guarding their honor and name. Special musical numbers will be furnished by Mr. and Mrs. E. E. Koch, and a male quartet and chorus. Sunday school at 10 and young people's meeting at 6:30. All will find each service of the day interesting and helpful while in the way of bearing the test of life's every day.

Summons.

In the Circuit Court of the State of Oregon, for Tillamook County. J. H. Ellison and Ellen Ellison Plaintiffs, vs. George Vandorse and May Vandorse, Defendants.

To George Vandorse, one of the above named defendants. In the name of the State of Oregon. You are hereby required to appear and answer the complaint filed against you in the above entitled suit on or before the expiration of six weeks from the first publication of this summons and if you fail so to appear and answer, for want thereof the plaintiffs will apply to the court for the relief demanded in the complaint, that is that plaintiffs have judgment against you for the sum of \$1000.00, with interest thereon from December 7th, 1914, at the rate of 8 per cent per annum, less \$100.00; for \$100.00 as attorney's fees and for the costs and disbursements of this suit, and for the foreclosure of a mortgage given by J. K. Childers to plaintiffs, which is recorded at page 22 in Book "U" of the Record of Mortgages of Tillamook County, Oregon, covering Lots 13 and 14 of Section 2 in Township 2 South, Range 9 West, W. M. in Oregon, the payment of which mortgage was assumed by you in a deed executed by said Childers to you conveying said described real property, and that the plaintiffs have such other and further relief as to the Court may seem equitable.

This summons is published in the Tillamook Headlight by the order of the Honorable A. M. Hare, County Judge of Tillamook County, Oregon, said order being dated December 15th 1915, requiring publication to be made thereof once a week for six successive weeks, and the date of the first publication thereof is the 16th day of December, 1915.

H. T. Botts, Attorney for Plaintiffs. Last publication Jan. 20, 1916.

TILLAMOOK PEOPLE GET INSTANT ACTION

Those who have used it in Tillamook are astonished at the instant action of simple buckthorn bark, glycerine, etc., as mixed in Adler-ka. Because it acts on both upper and lower bowel, one spoonful Adler-ka relieves almost any case constipation, sour stomach or gas. It removes such surprising foul matter that a few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. J. S. Lamar, Druggist.

WE HAVE MUCH TO LEARN FROM JAPAN.

What a Protective Tariff Policy is Doing for That Energetic Nation.

(From San Francisco Chronicle.) The reports from Japan indicate a high state of prosperity. The factories are busy and all are employed.

Doubtless Japan, like ourselves, is profiting by the sale of munitions to her allies, but the country is prospering as we are not by production for the purpose of peace.

Japan prospers because her manufacturers know that they can depend on all the aid that their government can give them.

American industries not associated with the war zone are not prospering, because business not only does not count on Government assistance, but is in deadly fear of government hostility.

Japan operates under an adequate Protective Tariff. Any industry which can show that it is prepared to do important business will at once have the home market assured to it by a duty adequate to hold it. And if, with the home market as a basis, they can hold foreign markets by selling at lower rates than at home they are giving godspeed because they make work for the Japanese people.

Our manufacturers are operating under a Tariff which, until the war broke out, was driving important American industries out of business, and under the menace of the public, official declaration of the then party leader of the House of Representatives, that the Democratic party would never rest until it had erased every vestige of Protection from our statute book.

Japan flourishes because the government does all in its power to promote the strong combinations which alone are competent to carry on modern business.

Our country does not prosper except temporarily by the misery of others, because whenever a strong organization is built up the whole force of the Government is directed to smashing it.

The policy of Japan is fixed. The nation is not cursed either by a Free-Trade party or a trust-smashing party. If there is trade to be got in the world Japanese, backed by their government, go after it, and get it by whatever measures are necessary.

Our Government drives non-subsidized American ships off the Pacific. Japan promptly fills the gap with well-subsidized ships.

A great and good man occupying a very high position once told us that "we have much to learn from Japan."

Notice.

NOTICE IS HEREBY GIVEN, that on Thursday, the 30 day of December, 1915, at 10:00 A. M., at the courthouse in Tillamook, Tillamook County, Oregon, a public hearing will be had by which the taxpayers within the territory included within the port of Tillamook, Tillamook County, Oregon, will be heard in favor of or against any proposed tax levies as shown by the following estimate of the board of the said port of Tillamook:

The estimate of the amount of money proposed to be raised by taxation for the ensuing year by the said port of Tillamook shows that it will require the total sum of \$2272.76 to defray the expenses of said port for the year 1916, and for the purpose of making local improvements within the said port and for maintaining improvements already made and for incidentals as follows, to wit:

For the repair of dredge used in port improvements - \$1200 00
Improvements at the mouth of Old Trask River and dry stocking head - 500.00
General improvement in deepening Hoquarton Slough and incidentals - 572.76

Making a total of \$2272.76 Dated this 9th day of December, 1915. C. W. MILLER, Secretary Port of Tillamook, Tillamook County, Oregon.

Care should be required to cease praying at least one day a week. Make it Sunday.

Machine Milking Compared With Hand Milking.

After using same three years. In the above report you will see a difference of 147.95 lbs. of butter fat over hand milking for the six months, and 7085 lbs. of milk in favor of hand milking. I think I would have gotten more milk with the six months of the machine milking but my cows came fresh somewhat early in that year. In year 1912 did not milk any in January, February,

Year 1912	Lbs. Milk	Hand Milking Test	Lbs. Butter Fat	No. of Cows
April	30,053	3.6	1,081.90	43
May	41,736	3.5	1,483.78	50
June	44,616	3.6	1,606.17	52
July	44,838	3.6	1,614.16	55
Aug.	40,120	3.7	1,484.43	59
Sept.	33,110	3.9	1,390.61	59
	237,473		8,661.05	

Year 1915	Lbs. Milk	Machine Milking Test	Lbs. Butter Fat	No. of Cows
April	34,412	3.5	1,169.43	47
May	42,967	3.6	1,591.37	53
June	42,927	3.9	1,674.14	54
