

Tillamook Jottings.

P. J. Worrall, of the Tillamook Hotel, left for Portland on Monday.

After being out of commission for two weeks, train service between this and Portland was resumed on Monday, a train from both ends getting through.

The case of P. J. Worrall, who is charged with violating the prohibition law, was tried to-day before Justice Stanley and he will decide the case at 10 o'clock Friday morning.

A civil suit was tried before Justice Stanley and a jury on Friday, in which R. F. Zachmann sued P. W. Todd for \$94.51, the account growing out of a disagreement of the amount owing for a plumbing job. Mr. Todd offered to settle for \$33.00, but Mr. Zachmann would not accept that. The jury brought in a verdict of \$30.00 for Zachmann. He has appealed the case.

A fire alarm was turned in Tuesday morning, another fire having started in what is known as the Watchtower building. The fire started near the chimney in the upper part of the building and spread rapidly, for when the hose company arrived the fire had made good headway. It took only a few minutes to extinguish the flames. The building belongs to Mr. Morgan and was insured, as also the furniture.

Albany society circles were given a sudden surprise when Miss Ruth Josephine Eddy and Clarence W. Tebault were married Tuesday of last week at Roseberg, their engagement not being announced until the evening preceding the event. The bride is the daughter of Attorney and Mrs. B. L. Eddy, of Roseberg and formerly of Tillamook. She was attending Albany College, being a prominent member of the freshman class. The bridegroom is a prominent Albany newspaper man and a favorite in social circles. The newlyweds are making their home in Albany.

At a special meeting of the City Council on Friday the matter of letting the contract for electric fixtures for the new city hall was taken up, and the bids from The Electric Store of \$240.00 and the Coast Power Co. of \$285.00 were opened, and The Electric Store having the lower bid was awarded the contract. The auditorium will be lighted by semi-indirect fixtures hanging close to the ceiling. The same lighting effect will be used in the council chamber and library. The balance of the building will have appropriate fixtures in keeping with the construction of the building.

Cheese Maker Sues Association.

I. W. Hiner vs. Beaver Creamery Association is a suit filed in the circuit court to recover \$645.00 having been wrongfully discharged as cheese maker of that co-operative cheese association. The plaintiff alleges that on the second of November, 1915, plaintiff and defendant entered into a contract wherein defendant promised and agreed to maintain, during the year 1916, a cheese factory at Beaver, and employed plaintiff as cheese maker, under the following stipulations: While the quantity of milk delivered to the factory by its patrons was sufficient to operate the factory daily, he should receive \$75.00 per month as wages; and should the quantity of milk be not sufficient to operate the factory daily, then the salary was to be \$3.00 per day for each working day; that the quantity of milk to be delivered to the factory for 1916 will be sufficient for seven months and about 40 days if broken time. Plaintiff alleges that he performed his part of the contract up to February 9th, and is ready to continue the contract, but plaintiff was wrongfully and maliciously discharged notwithstanding he offered to continue his part of the contract.

Art Exhibit at High School.

The art exhibit which was reported to be indefinitely postponed is now in the city, having been opened to visitors on Wednesday afternoon. The pictures are photogravures of the famous paintings and sculpture work. The exhibit is being held at the high school and many people are availing themselves of the opportunity to see the famous art of the world.

The purpose of the exhibit is twofold: First—To give people an opportunity to see a collection of the world's famous masterpieces.

Second—To make it possible for the schools to own a few of these pictures.

The exhibit will comprise over 200 pictures, all of them copies of great masterpieces.

The price of the tickets has been made low enough for anyone, children and adults alike, to be able to attend.

The pictures which will be exhibited will not be for sale but it will be possible, through the art section, to purchase exact duplicates and the money raised through private sales of this character will also go towards the fund for purchasing pictures for the public schools.

The larger the attendance at the exhibition, the greater the number of pictures that can be secured for the school. This is not a money making scheme, as the admission fees are spent in pictures for the schools.

The exhibition is opened to the public each evening, except Friday evening. Special talks will be given on the pictures. Everybody come.

Recognizing the fact that our school rooms are in need of educational pictures we have arranged with the city support of all teachers to hold an Art Exhibit in the high school building from Feb. 16 to Feb. 20.

The influence of good pictures upon children cannot be overestimated. The end of many a life has been influenced by a single picture.

Your attendance at the exhibit will greatly encourage us. The Elson company has offered to affix, without

charge, on each picture presented to the school by an individual or society, a brass plate suitably inscribed with the name of the donor. Such a gift, or any special contribution to the picture fund, will be most welcome.

We hope you will be interested in what seems to us to be of vital importance.

Cordially Yours,
Parent Teacher Association.

Silent, Them.

A novelist recently found himself in a train with two active women. Having recognized him from his published portraits, they opened fire upon him in regard to his novels, praising them in a manner which was unendurable to the sensitive author.

Presently the train entered a tunnel, and in the darkness the novelist raised the back of his head to his lips and kissed it soundly. When the light returned he found the two women regarding each other in a peculiar manner.

Addressing them with a suave smile he said:

"Ah, ladies, the regret of my life will be that I shall never know which one of you I was that kissed."

At latest account the ladies had not yet spoken to each other.

Woods and Pacific City Items.

(This reached us too late for last week's issue.)

A great excitement occurred one day last week. B. S. Cornett and a lot more of local sports were out on the hills east of town chasing a panther. They tracked it to the home of Gilbert Belleque where they found it to be Gilbert's dog.

W. R. Robedee, started a story here Sunday that the Japs had attacked us, and all the tin soldiers for miles around were getting their guns shined up for business, but when investigated it was found to be a job, like many more of the pranks. Some were sorry that it was not the truth.

They do say that Ernest still takes little trips out to South Woods to see the weather.

With the R. R. out of commission it makes it very bad, as we have only had mail three times in a month. Thirty years ago we received mail daily. It took long enough before, as the mail lays over in Cloverdale one day. Why not get together neighbors and have it changed so as to have the mail leave here and connect with the stage at Cloverdale.

Richard Miles, is completing Ernest wood cutting job.

Arthur Beals, of Tillamook, drove 55 head of cattle to his ranch at Pacific City, this week.

Morace Bays is putting up a temporary shed for his cows, and will soon have carpenters replacing the barn which blew down during the last storm.

What is the matter with some more Moss from Woods? Please get busy Miss Writer.

WHAT FASHIONABLE WOMEN WILL WEAR THIS SEASON.

Styles Described by Miss Jule de Par, of The Store That Sells Wooltex.

A graceful, youthful figure. That will be the aim of every woman who wants to be in style this Spring.

This does not mean that women will try to look like sixteen-year-old girls.

Rather, they will choose clothes that give graceful, youthful lines, lines that indicate the natural pose, activity and attractiveness of young womanhood.

Skillful tailoring has much to do with giving clothes the graceful curves of youth. And just as the good cook requires the best ingredients for her cakes, so the expert tailors require the best materials for garments that they recommend to stylish dressers.

Fashion's Prominent Features.

In suits and coats, the most fashionable features are the incurve at the waist, without being close fitting, and the sharply flared ruffling plaits below the waistline.

Many jackets and coats have almost a wing-like flare. This flare is carried out in a smaller way in the flared cuffs which finish the new bell sleeves.

Plain materials and checks are preferred for suits. The plain materials are frequently ornamented with silk embroidery and inlays of taffeta.

For sport coats there are new novelty weaves of white wool and fancy coating in navy, copenhagen, Holland blue, old rose, maze, green and red.

Silks are very fashionable and promise to grow more popular as the season advances.

Smartest Skirts are Shown.

As skirts are all fluted, either in circular models or pleated, they give the smartest appearance when worn quite short.

Six to eight inches from the ground is the most fashionable length. Even conservative women will wear their skirts five inches from the ground.

The new short skirts are most convenient. With trim footwear and hose to match, they are genteel and very pleasing in appearance.

Latitude in Choice of Hats.

Wide latitude in choice of hats marks the early showing of spring millinery.

The tailored hat of satin or combination of straw with satin or silk will be most in favor for early spring wear.

Chic little sailors, with closely rolled brims, are equally stylish, however but all the early hats fit close to the head, and many of the silk models have high crowns.

The illustration above shows the new silhouette. It shows the graceful, youthful curves and the wing like flare. It also shows one of the smart, new hats from one of America's leading makers.

The suit is a Wooltex suit. It is one of many handsome new models of suits and coats shown by Haltom's. The Store that Sells Wooltex in this city.
