

ROYAL BAKING POWDER

Absolutely Pure
No Alum—No Phosphate

THE TILLAMOOK HEADLIGHT

Editorial Snap Shots.

Clean up also means paint up.

There is this satisfaction for those who have been pinched for exceeding the auto speed limit—the city needs the money.

If the 12½ mile speed limit for autos in the city have been grossly violated for a long time the 25 mile speed limit for the state is violated every hour of the day north of the city.

Will someone please inform Bro. Trombley, the Democratic free trade rooster, that another splendid opportunity presents itself for him to flop again. Senator LaFollette is an aspirant for the Presidency.

Look out for the Republican land slide next November, when the G. O. P. will "come back" into power. The country is badly in need of a man at the head of the government who has some business sense and back bone, which is badly lacking now.

People get sore when they see a spasmotic attempt to enforce laws, especially those who are hailed into court. The round up of those who exceeded the auto speed limit is another illustration. It looked as though the law had become a dead letter, for it is many moons since anyone was pinched.

There are some ungodly persons living in this city, that is if the old saying that cleanliness is next to godliness holds true. If the city dads will put their smellers to work and start in on an inspection tour of the back alleys at what is known as the old fire trap building near the saw mill, they will soon find where these ungodly sinners reside and where they throw their filth and rubbish.

It is unfortunate that there should be any disagreement between the City Council and the Water Commission over the office of city recorder and collector for the Water Commission. Personalities should cut no figure when it comes to the overburdened taxpayers of this city having to foot the additional burdens. Economy in the administration of city affairs should be the object of public officials.

Spasmotic enforcement of laws make people sore, more especially those who are unfortunate to be arrested. We think that the city officials are, to some extent, to blame, for allowing people to exceed the auto speed limit so long, for we do not think it is right to enforce that ordinance for a few weeks in the year and close one's eyes to it the remainder of the year, which appears to be the way this ordinance has been handled.

Surely there is enough business energy in the business men of Tillamook city to take hold of and maintain a business men's organization or club in the city. Two rooms are now available in the city hall, which can be used for that purpose, so why not have a get together meeting and start a local organization? That's the way to boost the city. The Women's Civic Improvement League is going to do things by way of beautifying the city, and it is deserving of a great deal of credit for taking hold of this long neglected improvement, and if the ladies of the city are showing a large amount of activity there is no reason why the men folk should remain so indolent. Wake up, gentlemen, wake up, and get a move on and put your shoulders also to the wheel and help the ladies in their commendable efforts to beautify the city. This can be done by a business men's organization.

Suckers! Suckers! Suckers! We suppose if we called some of our citizens suckers to their face they would be ready to mop the floor with the snap shot man. But in this neck of the woods there are a large number of suckers. And it is not difficult to prove it, either. This is a pretty good illustration. One of our business men is agent for a milking machine, which has proved successful, and there are 14 of these milkers in use in this county. Long comes a stranger, who goes through the county, with another milking machine of inferior make, but he claims they are altogether superior to those already installed in the county. To boil this story down, some of the dairymen agree to buy or purchase on the installment after paying part cash, giving their notes for the balance. When the stranger has departed, the dairymen find they have been stung, and from all accounts, several of the dairymen have been badly stung and will have to pay their notes. We do not like to see dairymen part with their hard earned cash but when they rely implicitly on the word of a total stranger, and sell out or consult or trade with the local merchants, one can have very little sympathy with them. Yet it is remarkably strange, that a stranger can come here and sell goods to Tillamookers for more money than they can buy them for at the local stores, especially is this true with mail order

Mr. Himes visited a number of friends among the old pioneers and their families while in town. His visit was made partly to secure material on the early history of the state and partly to stimulate interest in this history by speaking before the young people as he did at the high school.

Christian Church.

The subject of "Popular Amusements" was handled "without gloves" last Sunday night, the largest crowd of the series thus far was present.

Mrs. Humbert, mother of Harold Humbert, instructor in the Tillamook High School, spoke at the morning service in the interest of missions. Her message was timely and to the point, "The Conversion of a Moral Man" will be the theme for the morning sermon next Sunday morning next Sunday, and the fifth sermon of the Seven Sunday Series will be preached in the evening beginning at 7:45. Subject: "Lord! is it I?" or "the Night of Betrayal." Mr. Humbert will sing one of his beautiful solos at each service. In the evening the solo will be "No Burdens Yonder." We appreciate the splendid hearing Tillamook is giving us in the services and invite you to attend next Sunday.

Methodist Church Notes.

Friday evening April 14 the Rev. Stanford Moore will deliver an address to the young people and all who desire to come, at the Methodist Church at 7:45 p.m. He is District President of the Epworth League and a bright, talented young man. Come and hear him.

Sunday school session on Sunday morning at 10 o'clock led by Supt. W. E. Noyes. Children's sermon to 4:5 Short sermon at 11 o'clock with Sacramental service.

Evening service 7:45, theme of sermon "The Worst Hinderers." Prayer meeting on Wednesdays, and choir practice Thursday evenings. Good singing, special music. Come and welcome, if you have no stated place of worship.

Edw. Gittins, Pastor.

Movement on to Beautify City.

Now that a movement is started to beautify the city by planting dahlias and other flowers, everyone should feel it their personal duty to help it along. There is much to be done in the way of cleaning up. Let everyone make up their minds to do something and see if we cannot all together change our town to a better looking one. There are many places fast becoming disreputable looking and we are being criticised very much by other towns by our lack of pride. There are many here who are becoming ashamed of our city and are putting forth every effort to create in others a desire for the beautiful flowers.

The Floral Society has on display at Morrison's Candy store a miniature home with lawn, flower beds, climbing vines, window boxes and rose bushes. This small house is made entirely of paste board and was designed and made by a lady.

This tiny home is made to represent how your own home could be made by a little effort in planting flowers. The Floral society is working in connection with the Civic Improvement Club and together they wish the help of every man, woman and child in helping to improve our city.

Mrs. Royal Stillwell.

School Notes.

Miss Retta Smith the third grade teacher was called home suddenly last week by the fatal illness of her father who died shortly after she reached home. Miss Harriet Gaylord is taking her place in her absence.

The boys in the upper grammar grades are working hard practicing for the spring grade school track meet which is scheduled for early in May. The cup which was put up last spring by a number of the business men will be contested for again this year. Last year the cup was won by the boys now in the eighth grade who think they have a good chance to keep it, but several other grades are expecting to make them hustle for it.

Fourth grade won spelling contest which just closed between the fourth and fifth grade, and the fifth grade has won the Palmer pennant for the greatest improvement in Penmanship in the last two weeks.

Mr. H. T. Botts recently favored one of the High School Literature classes by reading to it some dialect poems by Joel Chandler Harris.

Composition contests have been conducted in the fourth and seventh grades and soon will be in other classes, on the subject of "A Clean Tooth Never Decays." A prominent tooth-brush manufacturer has donated medals to those writing especially good essays in these contests, and special rewards are given to the one in each room who writes the best essay. Bob Switzer has won the seventh grade and Blanch Purdy in the fourth.

City Recorder Aschm Resigns.

As a result of another spasmodic effort to enforce the automobile speed limit, a little friction occurred between some of the city officials. When Mayor Brodhead and the City Council complained that City Marshal Myers was not enforcing the city ordinance, he immediately did so with the result that about 30 speeders were caught for exceeding the speed limit, which is 12½ miles an hour.

Mr. Aschm says he decided the case on his merits, and believes he was right in doing so, as there was so small a margin to go on. The speed limit is 12½ miles an hour and it was charged Reedy was going 15 miles an hour, being timed by a stop watch while going one block.

County Court Proceedings.

County Court met in regular session on April 5th, with the following members present: A. M. Hare, Judge, Geo. R. McKimins and Frank L. Owens, commissioners, J. C. Holden, clerk, H. Crenshaw, sheriff.

Court enters agreement with Matt Weber for the construction of a bridge across Beaver Creek on what is known as the Squires road.

Petition of John Wahlin and others for a county road was continued until May term.

Petition of Ross Chilcott and others for county road was continued until May term.

In the matter of the petition of H. A. Miles and others for county road, the court not being fully advised the same was continued until April 21st.

In the matter of the petition of Harley Foland for indemnity of cattle slaughtered for the sum of \$175.00 it is ordered that Thursday the 4th day of May be fixed as the time of hearing said claim.

Claim of Harley Foland for one cow slaughtered under direction of Dr. Reedy, allowed to extent of \$12.50 one half of amount of indemnity.

Court appointed D. F. Thompson on the fair board to fill vacancy caused by death of J. H. Dunstan.

Court entered into contract with A. Arstull for the construction of the W. S. Cone road.
