

**Circuit Court in Session.**

The May term of the Circuit Court was convened on Monday, with Judge G. K. Bagley on the bench, and it is probably that there is enough business to keep the court in session two weeks. A new grand jury was drawn composed of Alex Watt, foreman, J. L. Lawrence, H. A. Miles, Chas. Pike, John J. Perry, Chas. Grout, J. M. Lissberg and S. C. Woods.

The only indictment returned by the grand jury was that of S. J. Cotton, charged with obtaining money under false pretenses.

Mrs. S. W. Kapischka, vs Tillamook Hotel Company, Action for money. Set for trial May 23rd.

J. Tone vs. Tillamook Hotel Co. Action for money. Set for trial May 23.

Alex McNair and Company, vs. Maud Sharp. Action for money. Dismissed.

School District No. 40, a municipal corporation, vs W. P. Short. Ejectment. Jury brought in a verdict in favor of the plaintiff in the case wherein the Bayocan school district brought suit to recover the possession of the school district property which had been claimed by Mrs. W. P. Short, of Portland. The school district claimed ownership of the land through a deed which was claimed to have been given in 1893, but the deed was never recorded, and in 1911 the defendant bought the property and later put the school out of possession. The jury decides inasmuch as the school district had uninterrupted possession of this land for more than ten years, the title vested in the school district and that they were entitled to the possession of the premises. Attorneys Goynes and Callahan represented the school district, and the defendant was represented by Portland attorneys, and Attorney E. J. Claussen.

Johanna York vs Southern Pacific Company. Damages. Set for trial May 3.

I. W. Hiner, vs. Beaver Creamery Association, a corporation. Damages. Verdict for plaintiff for \$325.00. This was a case where Hiner had been employed as cheese maker for the Beaver Creamery Association, having entered into a contract to that effect, but he was "fired" from the position, and he brought suit for breach of contract and damages, the jury awarded him the above amount.

State of Oregon vs. P. J. Worrall. Transcript on appeal. Continued by stipulation.

Lydia S. Morgan, vs H. E. Carr and Alice Carr. Action for money. Default and judgment.

Oak Nolan, vs C. W. Talmage administrator of the estate of C. B. Hadley, deceased. Action for money. Continued by agreement for term.

State Industrial Commission, vs. George Moskos, Action for money. Judgment as per stipulation.

R. L. Sabin, vs. Emil G. Kardell. Action for money. Dismissed.

Tillamook City, a municipal corporation vs. A. Giebisch, F. Joplin and the Aetna Accident and Liability Co. Action for money. Dismissed.

Tillamook County in relation R. H. Cady, vs. Walter D. Wood and New Amsterdam Casualty Co. Action for money. Settled and dismissed.

Tillamook County Bank, a corporation vs. Marion Celic. Foreclosure of mortgage. Confirmation of sale.

Albert Marolf and Katie Marolf, vs Ernest W. Knight et al. Foreclosure of mortgage. Continued for service.

Frank A. Rowe vs J. Victor A. Farnell. Foreclosure of mortgage. Sale confirmed.

J. H. Ellison and Ellen Ellison, vs. George Vanderveer and May Vanderveer. Foreclosure of mortgage. Sale confirmed.

The Nehalem Co. vs. Bailey Mill Co. Foreclosure of mortgage. Stricken from the docket.

**Grand Jury's Report.**

We the grand jury of the above named county and court at the regular May 1916 term, hereby respectfully report that we have finished our labors as such grand jury; that we have inquired into the condition and management of the offices pertaining to the courts of justice in the county, and submit the following:

1st. That we find the county jail in a very unsanitary condition and unfit for occupancy and dangerous to the health of any person who may so unfortunately as to be confined therein, and would respectfully demand that the authorities upon whom rests the responsibility of keeping the same in proper condition take immediate steps to place the same in a sanitary condition. In particular we find that the toilets and bath tubs are in bad condition, and further that we find the courthouse in an unclean condition generally and recommend that the persons upon whom devolves the duty of cleaning the same make such courthouse clean and keep it clean.

2nd. Complaint has been made that the county roads of the county are being obstructed by various and divers persons throughout the county and especially by the Coats Lumber Co. at Tillamook City, and would request that all persons responsible thereof be notified to clear away all such obstructions immediately, and upon their failure to comply with such notice, that prosecutions be brought against the persons so offending.

3rd. We report that we have found the records of the county officers in good condition and the manner of conducting such offices excellent.

**Fire Insurance Inspector Here.**

E. W. Stone, representative field man of the Fire Underwriters' Rating Bureau, of Portland, Oregon was in the city for several days and with Fire Chief Hill made numerous inspections of property throughout the business district. The conditions found were alarming to say the least.

Many places there are exceptional fire hazards existing which with a spark would put the business as well as a large portion of Tillamook residence section off the map. There is no reasonable excuse for this untidy condition and hazardous state of affairs, especially in nearly every basement in the business section. Much rubbish of all descriptions was found as well as ashes being dumped into wooden boxes. The Fire Chief has been instructed to notify all property owners wherein these fire hazards exist to clean up at once and the Board of Underwriters will make another inspection within a short time and if the present conditions are not rectified there will be a large increase in the insurance rate, penalizing all for this dangerous state of your property. The Fire Board as well as the Insurance Companies in general are making a strenuous campaign to educate the general public to eliminate the fire hazard, this will reduce the loss rate and consequently give all a lower insurance cost. As it is now the insurance companies will have to make a large increase in rates or quit business in the state of Oregon as their combined losses for all companies operating in the state during 1915 just past was 117 per cent, or \$1.17 paid out for every dollar collected, this state of affairs has got to be improved, and it is up to the property owners to take care of their property as well as safeguard life.

**For Sale, Dairy Ranch.**

40 acre dairy ranch, bottom land, cleared, one mile from Tillamook Creamery. To be sold at a bargain. Will keep 18 cows. Enquire at the Headlight office.

The furniture manufacturers have agreed on an advance of 10 per cent in the price of furniture. The Underwood tariff law cut the duty on furniture 57 per cent. The Democrats will ascribe the increase in price to the European war and the large demand for wooden legs.

The free trade party began with a favorable trade balance of \$140,000,000 in October, 1913, which balance rapidly diminished under free trade experiments until April, 1914, when it was only \$10,000,000 where it lingered until the European war broke out. But our free trade apologists continue to remind us that their dream-theories would have worked bounteously "had it not been for the war."

An esteemed contemporary refuses to accept imports and exports as an indication of industrial conditions. The fact that in a period of ten months before the war broke out, the Democratic tariff law brought a loss of \$260,000,000 in our trade balance does not appeal to him, and he says, "Gross railroad earnings are the best indication of industrial conditions." Very well then, in that same ten months period, before the war broke out and when nothing new had developed except the economic legislation of the Democratic party, gross operating income of railroads dropped from \$2,532,000,000 to \$2,435,000,000 a loss of almost \$100,000,000, or \$10,000,000 a month.

Internal dissensions in the Fruit Importers' Union, an organization of importers of citrus fruits from Sicily, have brought forth the revelation that a fund—said by one side to be \$140,000 and by the other a little over \$100,000—was raised to obtain a reduction of the duty on Sicilian lemons in the Underwood tariff act. The entire trouble to-day are a sequel to that successful campaign, through which the duty was lowered from \$1.20 a box to about 35 cents. Now William C. Beer, a man of many activities, has brought suit for \$75,000 balance due on his promotion contract, which led up to the reduction of the Tariff, and various members of the union are demanding an accounting of the expenditures in the campaign. They are also calling for an annual meeting and election, when, they declare, a new set of officers will be elected and a thorough investigation made.

**Not a Hint.**

"I wish I had money enough to get married," he remarked.

She looked down and blushed. "And what—would—you—do?" she asked, looking very hard at the carpet.

"I would spend it traveling," he replied.
