THE TILLAMOOK HEADLIGHT.

Editorial Snap Shots.

Don't get any foolish ideas in your head that the United States is going to have any trouble with Japan.

"Johnny get your gun," for "Watchful Waiting" seems to have about brought the country to the point of war with Mexico.

Editor Rankin, editor of the Nehalem Times was in the city Wednesday. He is a dangerous man to be at large, for he is sticking out all over town, and it is a wonder the city marshal did not get him.

Because the snap shot man gave an item of news and particulars of an initiative measure to be voted upon by the people and offered a few comments, it is idiotic for Bro. Trombley to accuse us or any newspaper man of being lined up with the brewery interests.

Those who advocated a central heating plant for the two school buildings put up exceedingly poor arguments for an expenditure that would probably amount to \$8,000 or \$10,000. They failed to prove where there would be a saving to justify so large an expenditure of the taxpayers' money.

The feed problem will again confront the dairymen of Tillamook County next winter, for there is liable to be a shortage of hay and prices away up. This would be materially reduced if a deeper channel was made between this city and the bay. It is to the interest of everybody to make an effort to reduce the cost of feed shipped to this county.

Bro. Trombley says the snap shot man is never lined up with the people. In the matter of creating the new judicial district we notice that our sanctimonious friend was lined up with the slick Hillsboro politicians, who railroaded that bill through and favored that "graft" imposed on the taxpayers. We think this is a good subject for grangers to discuss and obtain the facts.

The snap shot man may be a little radical in his ideas as to how the Mexican trouble should be solved. If the United States had annexed that country three years ago, which it should have done, the Mexicans would be rejoicing today that this country had done so. It is a matter of civilization, for all that that country needs is a stable form of government, which it cannot obtain itself. Mexico is a good country and we do not know of any missionary work that the United States could be better employed in than help govern and civilize Mexico.

Instead of agitating a central heating plant for the two school buildings it looks to us that a central heating station for the city would be preferable. The cost every year for heating the court house, city hall, school buildings, six large business blocks and other business houses amount to a large sum annually, and with so much waste at the saw mill, it seems to us that some arrangements could be made to furnish steam heat from there. The matter should be gone into and discussed, for if heat can be furnished for less cost than what it is now, there is no doubt that the owners of these buildings would be glad to have heat furnished from the sawmill.

The Herald is endeavoring, but with very little success, to line the snap shot man up with the brewery interests. We have been accused also of being Tillamook County in the "Hay" column for seven years, and we plead guilty to that. When this was a wide open town, was the snap shot man who started the fight on gambling, violation of the saloon law and prostitution, at a time when county city officials closed their eyes to these things, and when business men and our church people took little interest in the moral uplift of the city. The snap shot man was often called a fool for doing so. We do not want to be uncharitable, but who was Bro. Trombley lined up with back in Michigan when the snap shot man "lined into that hard fight alone?"

Instead of working the over worked taxpayers for unnecessary improvements, why not give them a rest? Conditions are such in Tillamook, and especially amongst the dairymen, that taxation must be reduced. If the dairymen would get out of the notion of placing fictitious values on their farm lands, brought about by real estate agents, they would not be paying the exorbitant taxes now imposed on them, but as long as this continues there is nothing to do but to assess the land at the high prices that is placed upon it. We believe that every dairyman will see the logic of our contention, especially so now, when pastures are short and feed and hay are eating up the profits and knocking the bottom out of high priced land that have fictitious values placed upon them.

Ben Kuppenbender has made the statement that he is going to be a candidate for joint representative, in opposition to Frank A. Rowe, who obtained the nomination on the Republican ticket. Mr. Kuppenbender is registered as a Republican and took part in the Republican primary, and no doubt, he intends to ride the "Independent Hobby Horse." We think that it would be a good thing for Mr. Kuppenbender to take a hunch, for he will be badly defeated if he butts in and endeavors to defeat the candidate the Republicans nominated in a primary election that was open for him or anyone else to enter if he desired. What is the use of a primary law if aspirants for office will not abide by it? Swart, the independent candidate is our advice, and if Mr. Kuppenbender wants to be swatted, all he has to do is to come out as an independent candidate, for there is nothing to prevent him from doing so.

The snap shot man is opposed to bonding the school district for any more money and for a central heating plant, for the reason that the taxes of this district are now too high and a burden to those who have to pay them. Not only so, but it keeps people from investing or locating new industries in this city, which is to be regretted. The school district is now owing, in bonds, the sum of \$35,000 and \$6,400 outstanding school warrants with \$1,500.00 on hand. With that amount of indebtedness it should be decreased and not increased. The argument put up by those who advocate a central heating plant that the lives of the children attending school are endangered if not held water, and was far fetched. In fact, it was wrong to advance such an argument, that the boiler was liable to blow up, when only ten pounds of steam is carried in the boiler. The snap shot man does not want to say or do anything that will retard the public school, but of late years a great many new features have been added to the school that are costing the taxpayers additional taxation, and we think it is time to economize and not place additional taxation on the over-burdened taxpayers.

WAR OR PEACE IS UP TO CARRANZA. Quick Action One Way or Other Expected.

Washington, June 18.—Virtually the entire mobile strength of the national guard of all the states and the District of Columbia was ordered mustered into the federal service tonight by President Wilson. About 100,000 men are expected to respond to the call. They will be mobilized immediately for such service on the Mexican border as may later be assigned to them.

General Frederick Funston, commanding the border forces, will designate the time and place for movement of guardsmen to the international line as the occasion shall require.

War rapidly reduces the population of European cities. Teutonic authorities calculate that Berlin has 700,000 inhabitants, Breslau 200,000, Dresden, Leipzig, and Munich nearly a third of their population, Hamburg 330,000, Vienna has 700,000 fewer inhabitants than in August of 1914, while Budapest, Graz, Lemberg, Prague and Trieste are credited with having lost respectively 4 per cent of their populations, 35, 60, 50 and 80.

Washington, June 20.—The issue of war or peace with Mexico hung in the balance tonight awaiting General Carranza's decision as to the course he will pursue. Officials here believe that 48 hours might bring a clear understanding of what the immediate future has in store.

A note, signed by Secretary Lansing, conveyed President Wilson's rejection of the demand for withdrawal of American soldiers from Mexico, accompanied by a specific warning that an attack on the troops "will lead to the gravest consequences."

In interest terms the note repudiates and resents imputations of bad faith and ulterior motives brought against the Washington government in the Mexican communication to which it is a reply. General Carranza is informed, in so many words, that protection of its own borders is the only object sought by the United States and is told that that object will be pursued whatever the consequences may be.

A summary of the note was telegraphed to special agent Rogers in Mexico City that he may wisely counsel American residents there. Mr. Rodgers reported during the day that he had arranged for a refugee train to carry Americans and other foreigners from Mexico City to Vera Cruz. He expects to see it off tomorrow, but will remain at his post until a declaration of war by the de facto government should make it necessary for him to leave.

wishes the men to mobilize and the proportions of infantry, cavalry and artillery he desires to have at each place were included.

Presbyterian Church Notes.

The morning service will be held at the usual hour, Sunday school at 10, and worship at 11, the subject of the sermon to be "The Christian Life a Worthy Calling." All who are at liberty to attend are cordially invited. The congregation will unite in attendance upon the sessions of the County Sunday School Convention on Sunday afternoon and evening at the Christian Church.

An urgent and cordial invitation is extended to the public to attend the session of the convention in this Church Saturday evening at 8 o'clock.

Dickey-Wagy.

evening at five o'clock, Miss Norma Entis, Mr. and Mrs. E. U. Wagy, on Fifth Street, Tillamook, on Thursday evening at five o'clock, Mrs. Norma V. Wagy was united in marriage with Mr. Archie Dickey. The ceremony was performed by Rev. Edward Gittins, pastor of the M. E. Church, and the beautiful and impressive ceremony was used. The best man and bride's maid were Mr. Guy Dickey and Miss Delphia Klienfelder. A sumptuous wedding dinner was served to the guests. Many beautiful and useful presents expressed the esteem in which these young people are held by their many friends and acquaintances, who wish them many years of happy wedded life. A reception was given in the evening at the home. The young people will begin housekeeping at once. Mr. Dickey is in the employ of the S. P. Company.

Sunday School Convention.

The annual convention of the Tillamook County Sunday School Association will be held June 24th and 25th, 1916.

Program.

Mrs. Koch The Sunday School a World Power. Rev. Phipps.

Harmony.

Otto Krebs and Gilbert Graves made a trip to Netarts on Saturday, Mr. Krebs brought back a load of sand and is going to try a new process of making brick, in using the sand he thinks the brick will not crack so easy. They also brought back about 30 dozen clams and 6 crabs and treated all the neighbors. Go again please.

D. P. Hopkins, wife and daughter Inez were Tillamook visitors Saturday.

A few of the neighbors gathered at the Krebs Bros. Brick and Tile plant to watch them burn tile. All spent a very pleasant evening. Lloyd Hopkins spent Sunday afternoon with Roy Graves. Mrs. Alice Graves and daughter visited at the home of Mr. and Mrs. J. Schlappi, of Fossil Creek on Thursday.

Wm. Owens and Grandpa Owens and Mrs. Kerry were Tillamook visitors on Tuesday.

The annual school meeting was held on Monday at the Harmony school house and the following officers were elected: Otto Krebs time of office expiring he was re-elected to serve three years more as director and Alice M. Graves was also voted in the school. We Tillamookers one and all, welcome the rain as our hay needs a good rain just now.

Mr. J. Schlappi lost a valuable heifer one day last week. Willie, Lillie and Inez Hopkins spent Sunday with Mrs. Alice Phillips of Fossil Creek.

Herman Hopkins and wife spent Sunday with Mrs. Hopkins' parents. Mr. Nels Nelson is having a great deal of cord wood put up and lots of slabsing done, that is what Tillamook county needs. A few more hustlers like Mr. Nelson and there would be less idle land.

Word was received here of the death of Bill Bowers. Mr. Bowers was known here in Tillamook as the fruit peddler, coming in with fruit and taking out either cheese or fish.

At this writing Mrs. Lillie Hopkins is on the sick list. We hope to be able to report different news at next writing.

Advertisement for WISE and MASSEY, DENTISTS, and owners of Bar View Tent City. Includes portraits of Dr. H. M. Massey and Dr. W. A. Wise, and text: 'We have Dental Offices in Tillamook, Bay City, Bar View and Cloverdale, and are equipped to do all kinds of Dental Work as good as it can be done anywhere. What we Cannot Guarantee, We Do Not Do. FREE PAINLESS EXTRACTING When Plates or Bridge Work is Ordered.'

Call Him Father; Sounds Better Than "Old Man."

Boys, when you speak of your father don't call him the "old man." Of course you are older now than when you were taught to call him father. You are much smarter than you were then, you are much more manly looking, your clothes fit much better, your hat has a modern shape and your hair is combed differently. In short, "flier" than you were then. Your father has a last year's coat, a two year old hat and a vest of still older pattern. He can't write such an elegant note as you can and all that, but don't call him the "old man." Call him father. For years he has been held to the thorny path of up-hill industry and the biggest half of life is gone from him forever. But he loves you, though he goes along with out saying much about it, therefore be no so ungrateful.—Spokesman-Review.

Dead Weight Exerts Itself in One Direction—Downward.

There are just two kinds of boys in the world—Pushers and Draggers. The Pushers are making somebody's load easier by their help; the Draggers are making it heavier by their weight. You can see the Pushers all around every day; they are the fellows who are mowing lawns, selling popcorn, carrying paper routes, taking subscriptions for magazines. You can also see plenty of Draggers. They are the fellows who ask dad for the money to buy a new bicycle, instead of earning it, who sit around complaining there is nothing to keep them interested. After a while the Pusher will be the fellow who goes out and gets himself a job; the Dragger will ask his Uncle with a pull to get him one. A few years after that the Pusher will be owning the business, while the Dragger drives one of his delivery carts. The idea is that dead weight exerts itself only in one direction—downward. Try it with a chunk of lead and see.—American Boy.

Deafness Cannot Be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitution remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

Ornamental Fire Places

Built of Brick or Stone. All Fire Places absolutely guaranteed not to smoke or money refunded. Brick Work of all kinds done on short notice. We make specialty of repairing smoking Fire Places.
