THE TILLAMOOK HEADLIGHT.

Editorial Snap Shots.

The Bull Moose party is a thing of the past.

Everybody should celebrate next Tuesday.

Why wouldn't a round-up at the County Fair be a drawing card? Of course it would.

Sheriff Crenshaw has bought another auto, this being the 29th machine he has owned, all of different make. It is a Buick he is now driving, and, no doubt, the 30th will be a charm.

The copious showers of rain this week were a great blessing to Tillamook County. Every dairyman had a broad smile on his face and the rain had the effect of dispelling a gloomy atmosphere.

Have you bought your ticket for the Chautauqua? Do not delay. It is going to be a first class entertainment from first to last, extending over six days. And only \$2.50 for the entire week's enjoyment.

So President Wilson's "Watchful Waiting" has plunged the United States into war with Mexico. He certainly is a weak sissy when it comes down to being at the head of the government of this country.

Auto trucks are beginning to cut a figure in transportation into this county. A Salem firm agreed to haul about five tons of machinery from that city by auto truck to Tillamook for less money than by railroad, and with a saving of cartage at both ends as well.

The South is dead tired of free trade, but the Southern people go on, election after election, voting for the delusion. Why? Because the Democratic leaders force their constituents to stay in line by continually browbeating them with traditional sectionalism. This is the reason in a nutshell.

The snap shot man coincides with those who believe that it is a good thing and perfectly proper to hold as many 4th of July celebrations in different parts of the county as possible. There are a large number of persons, especially young people and children, residing in this city, who could not attend celebrations in other places, because they have not the means and conveniences to go to other places, therefore, we believe it is a good thing to hold a celebration in this city.

Attorney S. S. Johnson and Ray B. Walls have to be commended in their efforts to form a militia company in Tillamook, and we hope they will succeed. There are a number of young men in this county who have wanted to join the militia and several starts have been made with that object of forming a company here, but it soon fell through for want of someone to take the initiative. With these two patriotic gentlemen now taking that place, we wish them success and the snap shot man is sorry he is past the age limit and cannot be one of the boys.

If the court takes the money appropriated for Bayocean road and uses it for hardfacing elsewhere, it is going to raise the question of the budget meeting appropriating \$10,000 for the Woods bridge and spending the money elsewhere. Anyone can see at a glance that if the \$15,000 appropriated for Bayocean road is used elsewhere it will mean that much more money to raise in the next budget. That, to our way of thinking, does not appear to be a good way to cut down taxation, and for that reason we believe the County Court would be acting unwisely in diverting that money elsewhere.

The snap shot man does not want it to appear that he is pessimistic, but owing to local conditions, it will be necessary to reduce taxation, especially amongst the dairymen. We are in hearty sympathy with road improvements in this county, but when taxation becomes burdensome it is wise to go slow. The reason that we think that there should be a curtailment of taxation is because the farming community have been hard hit and put to a great deal of expense the past winter over the scarcity of feed, which will be another expensive and perplexing question to be confronted next winter. Those who are advocating all kinds of road improvements should stop and consider the cost and the interests of those who pay the taxes as well as local conditions confronting the dairymen.

Some people are wondering why money is so scarce in Oregon. Did it ever occur to them the amount of money that is going East for automobiles and gasoline and sending money out of the state for booze? But the automobile craze is in full swing, and people are buying them regardless as to whether they can af-

ford to do so. These are the things that are to a large extent making money scarce, and until Oregon becomes a manufacturing state large amounts of money will leave the state and help boost other states. We hear so many people complain about so much money being sent east for automobiles, but what's the use of beefing about it, as it is the fashionable thing to own a machine and their owners are getting a great amount of enjoyment out of them, even if some of them have to stand off the store keeper for food and clothing and owe the garage man for oil.

Some of our enterprising citizens have asked the snap shot man to call attention to the large amount of travel that will come into Tillamook county this year and the need of the Three Rivers road being placed in better condition. The last budget contained money for that purpose and it should be spent there, it will be several years before the Little Nestucca road is completed, and in the meantime the Three Rivers road should be kept in good condition, and as it will require a large amount of money to do so, we want to see one good road into the county. It may be that Commissioner Owens is going to do this, but some of our progressive citizens think no time should be lost in putting that road in good shape. Early last year it was in bad condition, and the printed automobile guides had that piece of road marked dangerous. We want to see that removed, for as long as it remains in print it will keep tourists from coming to Tillamook. Travel to the county started earlier than usual, and every indication goes to show that the travel this year will be the largest in the history of the county, for Tillamook beach resorts are getting to be more popular. For that reason the Three Rivers road should be kept in good shape for travel and the County Court will have the thanks of the people in doing so.

So the prohibitionists are going to institute a measure to prohibit the shipment of liquor into Oregon. Since the state will not allow the manufacture of it in Oregon, and a big lot of money is going to California, this will be a good plan to keep the money at home. But if we do not miss our guess the prohibitionists will find that the people of Oregon will not stand for this. When the people voted to make the state "dry" it was to rid Oregon of saloons, and very few persons want to see them back, in fact, we hope they will never be allowed in the state again. We believe it is wrong to allow liquor to be shipped into the state and prohibit its manufacture in Oregon. If it is right to allow liquor to be consumed in Oregon we contend that there should be no objection to its being manufactured here. One thing is sure, it is sending a large amount of money out of the state and California is getting it and doing a land office business. If the people want prohibition they should take it "straight." This initiative will decide the point and show what the people want.

Examinations for Midshipmen.

The Navy Department has recently called under Representative Hawley to submit nominations of a principal and three alternates from which to select a midshipman for admission to the United States Naval Academy, and requests him to submit the nominations before July 13th so that arrangements for the holding of a competitive examination at Salem, to which all ambitious young men who are actual residents of the First Congressional District, between the ages of 16 and 20 years on July 27, 1916, are invited. The requirements of the Department are severe, especially as to physical condition and knowledge of algebra and geometry, and no person is eligible to take the examination for admission to the Academy if he has already failed in a similar examination this year, unless specifically recommended for examination by the Navy Department. Drs. Morse and Robertson will conduct the physical examination at their offices in the Bank of Commerce building Friday afternoon, June 30, and on July 1, commencing at nine o'clock in the morning, a mental examination will be conducted at the Willamette University by Prof. P. J. Kuntz. Each applicant will be required to pay a fee of \$2 at each examination, or \$4 in all. From the list of eligibles established as a result of the competitive examinations, Representative Hawley will make his nominations to the Navy Department and the Department will have the nominees examined at a convenient local point on July 27 for admission to the Academy.

A good preliminary for vacation is to save the biggest amount of money you can beforehand and shun borrowing funds for vacation as you would Satan himself. If you take a vacation on credit and another man's money, there'll be the devil to pay for six months. The largest gains in happiness and health from an investment in a vacation are had through serene employment in it in some restful nook, "far from the madding crowd." One should insulate himself to the utmost from his home and office environments.

The "Tariff for revenue only" law enacted by the present administration has utterly failed to pay the running expenses of the government, but the powers that are going to raise the necessary cash by bleeding our own people white. The war tax and the income tax are the two main surgical instruments with which the free traders are opening the arteries of American citizens to let the red blood flow. The day of reckoning is just ahead for these genies of the free trade persuasion.

CALF HIDES WANTED. GRANT THAYER WILL PAY 25 CENTS FOR CALF HIDES.

TILLAMOOK CHAUTAUQUA To Be Held in this City July 18-24 A Very Attractive Program is Arranged for this County.

The Tillamook Chautauqua, which made its first appearance in this county last year, and delighted many large gatherings of Tillamookers, will make its appearance again this year, the dates for which will be July 18, 19, 20, 21, 22 and 23. It will be a splendid six day exhibition of wonderful ability, and, no doubt, the people of the county will be glad of another opportunity to participate in this high class and varied entertainment. We will give the program which is as follows: Monday Chautauqua 9:00 a.m. Afternoon concert 2:00. Afternoon lecture 3:30. Evening concert 7:30. Evening lecture 8:15.

Tuesday. Afternoon—Opening exercises—Important announcements. Supt. Concert. Ionian Serenaders. Readings. Ruth Meeker. Evening, Concert. Ionian Serenaders. Impersonations. S. Platt Jones.

Wednesday. Morning—Junior Chautauqua. King Arthur's Court. Afternoon—Prelude. Gullotta Trio. Popular Lecture, "The Seen and Unseen." Dr. Elliott A. Boyd. Evening, Concert. Gullotta Trio. Lecture Oration, "Uncle Sam's Tomorrow." Hon. Victor Murdock.

Thursday. Morning—Junior Chautauqua. King Arthur's Court. Afternoon—Prelude. Lyric Opera Company. Inspirational Lecture, "The Matchless Book." Arthur A. Franke. Evening—Opera "Martha." Lyric Operatic Co. Lecture, "Home Town Preparedness." Ernest J. Sias.

Friday. Morning—Junior Chautauqua. King Arthur's Court. Afternoon—concert. Witepskie's Royal Hungarian Orchestra. Popular Lecture, "Success Where You Are." Mrs. Harriett Gunn Robertson. Evening—Grand Concert. Witepskie's Royal Hungarian Orchestra. Popular Selections. Mmc. Fay Morvilius, accom. by Royal Hungarian Orchestra.

Saturday. Morning—Junior Chautauqua. King Arthur's Court. Afternoon—Prelude. Elizabeth de Barrie Gill. Popular Lecture, "One Blood." Dr. Frederick Vining Fisher. Evening—Harp Concert. Elizabeth de Barrie Gill. Stereopticon Lecture, "American before the World." Dr. Frederick Vining Fisher.

Sunday. Morning—Usual services at all Churches. Afternoon—Prelude. Kekuku's Hawaiian Quintet. Informal Talk, "Children's Rights." Jay Harmon. E. W. C. S. Vesper Service. All Invited. Evening—An evening in Hawaii. Opening Concert. Kekuku's Hawaiian Quintet.

(b) Illustrated Lecture, "Isle of Peace." Frederick J. Halton. (c) Closing Concert, featuring "Aloha Oe" (Good-bye) Kekuku's Hawaiian Quintet. About three weeks from now all these good folks that you see on the program will be delighting you with their offerings. Study this assemblage of "Talent"! Steep yourself in knowledge of what they are bringing to you! Realize that this is the best balanced and strongest program they have brought West, that every individual and every company has been weighed carefully, and that the final selections make a splendid whole.

Let's study it together for just a minute. The Ionians are to open the session. Several years ago they had a similar "opener" and that company—though not as gifted as the "Serenaders"—is still remembered by many of our patrons as the best opening attraction they ever had. The girls are clever, accomplished musicians and trained by the ablest coach in the business.

The Gullotta trio is all that you could hope for in a company of this kind. A really good soprano and a really great violinist.

The Lyric Operatic Company have a unique "stunt" for their afternoon week day program. It might be termed musical burlesque as four favorite operatic characters are given and the whole worked into as clever a thirty minutes as you ever experienced. Think of having Madam Butterfly from Puccini's "Madam Butterfly"; Mephistophiles from Gounod's "Faust"; Carmen from Bizet's "Carmen" and Tonio from Leoncavallo's "Il Pagliacci," all correctly costumed and sung, the action being woven into humorous arrangements that brings out some splendid climaxes.

Witepskie's Orchestra is too well and favorably known to Westerners to need any description. They are supreme in ensembles and artists individually.

The Hawaiians who close the program are the most carefully selected company of Hawaiian singers and players now traveling. The soloists you are familiar with through your talking machine are to be here in person.

Not only in music, however, but in entertainment and instruction, this is a great program. S. Platt Jones and Ruth Meeker are splendid as entertainers. You can't be glum and sit through one of Jones' programs. You will have to "go some" to "keep up with Jones."

Probably the most sought after big man before the American people today is the Hon. Victor Murdock, of Kansas. Get his stories in Collier's Weekly and know the European situation as it is, not as the countries at war want you to think it is. The illustrated lectures are an unusual offering for any Chautauqua program. Dr. Fisher and Mr. Halton have magnificent views and thrilling lectures. Then there are Sias, Boyd and Rob-

erson. Space doesn't permit of telling you all that we might of these interesting people. From first to last there isn't a "filler" on the program. Every person who is there is there by right of having accomplished something worth while.

You are face to face with the opportunity of enjoying all this splendid six day assemblage for a very few shakels. The season ticket costs you \$2.50—a trifle when you realize that in exchange for it you are to secure the ablest services of a lot of clever people who are mighty anxious to number you among their friends. Your season ticket is a passport to knowledge and enjoyment for in excess of the investment. Get yours before they advance in price to \$3.00 which they will after the first allotment is taken.

Commercial Club Meets.

The monthly meeting of the Tillamook Commercial Club took place at the club rooms in the city hall on Monday evening, with Fred C. Baker, presiding.

Secretary Smith made a statement as to the financial condition of the club, and the president announced that all correspondence was being taken care of and answered by the secretary.

A motion was carried that it was the sense of the club that business houses should close on the 4th.

C. J. Edwards made some remarks and asked the moral support of the club for the Chautauqua, which is to be held in this city next month. He stated that it was a splendid program arranged for Tillamook, and urged all to help make the Chautauqua a success.

Erwin Harrison, secretary of the County Fair Board, asked if the club had any suggestions to make in regard to the fair, when a general discussion ensued and a number of suggestions offered, one of which was a round up. It was generally conceded that it would be a good attraction to the fair, and Mr. Harrison undertook to look the matter up. Mr. Shrode thought there should be more seating accommodations provided at the fair grounds.

Funeral of Ed. Lyster.

Edmund J. Lyster was born near Eldora, Hardin County, Iowa, Sept. 19, 1877. He came with his parents to Kansas in October 1878, where he grew to manhood. He went to Tillamook County, Oregon, about 8 years ago, where he engaged in the logging business. He accidentally met his death June 7, 1916, being crushed between two logs, his body being terribly mangled. He was always a good and 18 days of age, and leaves five brothers and two sisters to mourn his death. His oldest brother Tom has lived in Oregon for many years, his younger brother Louis went to Oregon about the same time as the deceased. His other brothers Dick, John and Gregg, and his sister Mrs. C. S. Farrand live near the old home. His father I. D. H. Lyster and his mother Mrs. Eliza Lyster were pioneers in this country and have both been dead for several years. Ed was always big hearted and generous, and one of the most polite and gentlemanly young men that ever came into our home. His love, care and tenderness for his invalid sister was very great and stronger family ties than exist in this family are seldom found. His oldest brother and family, his youngest brother and invalid sister, and his cousin, Miss Helen Fowler accompanied his remains from far away Oregon back to Kansas. The body was brought to the old Lyster home, where short services were held, then taken to the Spillman Cemetery where it was laid close beside his father and mother. One of the largest crowds ever assembled in this community gathered to pay their last tribute to the deceased. At his father's funeral in 1888 there was but one buggy in the procession, the other conveyances being wagons. At the mother's funeral in 1907 there was but one wagon, all other vehicles being buggies etc. At this funeral, it is estimated that over 100 autos were in attendance.

A Friend.

Academy Picnic.

On Thursday last, June 15th, the teachers and pupils of the Academy put in one of the happiest days of the past school year. Early Thursday morning the children assembled at the Academy, amid joyous laughter and song we paraded down the street and were soon seen winding our way toward Mr. D. Fitzpatrick's beautiful farm where an ideal spot was selected for our picnic. No sooner had we reached the woods than our fun began. Swings were put up for the occasion, a fish pond was arranged, where we all went "fishing." A good old-fashioned "Tillamook stump" was secured for Dr. Cure-All's drug Store, which was in charge and carefully looked after by Kenneth Martin and Vervyle Hoover. The "Wading Pool" was a short distance from the picnic ground, but all those who had the pleasure of splashing in the rippling brook, came back smiling and perfectly refreshed. Another spot of attraction was the "Ice Cream Stand" presided over by Miss Marie Harries and Miss Clara Plasker. Even our older friends present, seemed delighted to behold the daintily, colored bricks as they were divided among the many rosy cheeked youngsters. Games, races and tricks of all kinds were indulged in for hours. Various prizes were given to those who won the more difficult races. We were pleased to have our pastor, the Rev. Father VanClarenbeck with us a portion of the day; he too enjoyed being with us because he told us so. Miss Nellie Burton was one of the happy crowd—she never came alone, but as usual, was accompanied by one of her close friends, and "Eastman Kodak." We posed as best we could when one two, three, and we were snapped in genuine picnic style. Come again Nellie!

About 6:30 p.m. Messrs John Berns, John Plasker, John Sheets and Nick Pelz came spinning along in their big cars. Again we cheered, so much so that the warbling birds of the forest were at a loss to understand what had happened, but we were now going home and these kind gentlemen well knew that a jolly and speedy auto ride would put the finishing touch to our happy and long remembered picnic. Thanks!

The graduation exercises of St. Alphonsus Academy students were held in Sacred Heart Church, June 18th, when Rev. F. VanClarenbeck awarded diplomas to the following: Miss Aileen Fitzpatrick, for completing the commercial course; to Marie Durrer and Clement Martin, for finishing the grammar grades; Aileen Fitzpatrick, Marie Durrer and Rose Pelz were also awarded Palmer diplomas. Rev. Father preached a very instructive and appropriate sermon for the occasion, one which we trust will remain fresh in our memories throughout our entire future lives.

With much regret we bid our dear teachers farewell, at least for a little while. We extend to them our sincerest thanks for their many kindnesses and trust that after these fleeting vacation weeks have sped by they will again return to us to resume their school work early in September.

Death of Mrs Sarah A. Dixon.

Mrs. Sarah A. Dixon was born July 8, 1841, in Tennessee, and passed from life Wednesday night, June 21, 1916, having reached the age of 74 years, 10 months and 24 days. She was united in marriage to Mr. I. C. Dixon on Dec. 9, 1858, at Downer's Grove, Ill. Mr. Dixon served his country in the war of the rebellion from two to three years, during which time his wife and three sons remained loyally at home.

Removing from Illinois the family residence was, for many years, at Benton Harbor, Mich., until the year 1907, when they came to Tillamook, Ore. Part of the time since has been spent in Willamina, Ore., until about three months ago when, because of somewhat feeble health, she came to Tillamook to make her home with her daughter, Mrs. A. D. Smith. About a week ago her condition became serious, and all that loving care and professional advice and ministry could do for her was in vain.

With her passing from this life she leaves to mourn, the following children: Robert Dixon, of Grand Junction, Colorado; Mrs. A. D. Smith, of Tillamook; Mrs. Cora McGill of Clatskanie, Ore., and Ora Dixon of Benton Harbor, Mich. Besides these there are several grandchildren and many other relatives and friends. She has been a christian and a member of the church for many years, and her womanly traits of character and her conduct have endeared her to her own and all who have known her. The funeral services took place at the residence of Mr. and Mrs. A. D. Smith, Friday, at 2 p.m., conducted by Rev. J. E. Youel, pastor of the Presbyterian church. Interment at I. O. O. F. cemetery.

Union High School Election Carries.

(From the Courier.) Last Monday occurred the annual school meetings in the several school districts of the county. A proposition was up for organization of a union high school district, comprising the districts of Cloverdale, Woods, Pacific City, Union, Meda, Oretown, Hebo and Neskowin. The law plainly states that the election calling for the election must state where the high school is to be located. Cloverdale was selected as the site for the union high school, in fact it was Cloverdale enterprise that initiated the plan. The vote stood as follows:

Table with 3 columns: District, Yes, No. Cloverdale 49 0, Hebo 10 9, Union 9 7, Woods 11 0, Oretown 1 21, Pacific City 2 6, Neskowin 0 3, Total 84 46.

Drowned in Mill Pond.

About ten o'clock this morning Arthur Burke, who is employed at the Krebs' mill at this place, while placing logs ready to have them hauled into the mill, slipped from the log on which he was standing and was drowned before he could be rescued. Workmen in the mill saw him fall into the water and immediately went to his rescue. He came to the surface twice, trying his best to swim. Walter Aune, one of the employes of the mill reached the spot where the unfortunate man went down and with the first dive brought him up. Every effort possible at resuscitation was made, men being there who understood just what to do. He had been in the water but a few minutes but could not be revived.

Mr. Burke came here from Idaho about a year ago, since which time he has made his home with his uncle, James Burke. He was an exemplary young man and has many friends here. His mother and father live in Salmon, Idaho.

Coroner Wendt was called and arrived here at 12 o'clock. The parents of the deceased have been notified by wire and the disposition of the remains cannot be determined until an answer is received. Courier.

Notice to Creditors.

Notice is hereby given that the undersigned has been appointed administrator of the estate of Absalom B. Allison, deceased, by the County Court of Tillamook County, Oregon. All persons having claims against the estate are hereby required to present the same to me at Tillamook County Bank, Tillamook, Oregon, within six months from the date of this notice. Dated June 29th, 1916. Erwin Harrison, Administrator.

Gun Accident.

Howard Crane, aged 16, son of Frank Crane of Gribaldi, accidentally shot himself in the face on Sunday last. Young Crane was looking after some cows for Mr. McMillan on the Miami and was either crossing the river or was walking along the bank when his gun in some manner shot off throwing a charge up into his face, knocking out two teeth and penetrating the left eye in two places, necessitating the removal of his eye. When the gun discharged he fell into the river. However, he managed to pull himself out and walked a mile to his aunt's house where he received help. He was brought to the Tillamook Sanitarium at once and on Monday morning the injured eye was removed. He is getting along as nicely as can be expected.

Sunday School Convention

The Tillamook County Sunday School Convention began its sessions here on Friday evening, continuing them until Sunday evening.

Rev. Phipps, known as the Sunday School man, and who is Secretary of the Oregon Sunday School Association, was in attendance at all the sessions and gave some interesting addresses. He laid much stress upon the importance of the Sunday School work as a safeguard to those children who were born in unchristian homes. He said that two million children out of three million born in this country every year, were born to mothers who did not teach their children to pray. The work of the Sunday School is to look after those children who have no other way of learning about God, so that our country may not gradually grow into a Godless nation.

As the convention progressed interest increased and the Saturday night and Sunday services were well attended. On Saturday the following officers were elected for the ensuing year: Mrs. C. J. Edwards, president; Mr. McClew, vice-president; Mrs. H. T. Botts, secretary and treasurer.

AGRICULTURAL NOTES

By R. C. Jones, County Agriculturist. Three requests for aid in drainage work were answered this past week. Two of them involve considerable acreage and will probably require the formation of drainage districts to handle them advantageously. Steps are already under way for the organization of one of these districts, to be known as the Frask Drainage District. This involves about 4.3 acres of wet and overflow land which is not producing at present, one half what it will if well drained.

There is a great deal more land in the county that needs drainage and help will be given as far as possible to all who ask it. Prof. Larsen, drainage expert from O. A. C., expects to be in the county again soon, so if you have some drainage problems that you need help on get your name in early. We already have several requests. What Shall the County Exhibit At the State Fair? The prime object of an exhibit at the State Fair is to advertise the chief industries of the county and get our products before the eyes of the state. Dairying is our chief industry. Why not this year concentrate our efforts on a magnificent cheese exhibit and a dairy cattle exhibit? Exhibits of this kind would attract more attention to the county than all the big pumpkins and canned fruits in the county.

The cheese exhibit has never been developed anywhere near to the extent that it might be. With the County Court backing it, a pamphlet could be issued on the "Story of Tillamook Cheese." Receipts for cheese dishes could be printed in the booklet and the possibilities of cheese as a substitute for meat set forth. Cheese dishes, of various kinds, could be prepared in the booth and served, in a small way, to the people. The careful inspection system could be set forth and the consuming public could learn why Tillamook cheese is the best on the market. This would increase consumption.

The advantages to be gained by an exhibition of our live stock are many. One or two cars of dairy stock could be assembled in the county, of which the county could well be proud. The owners, in fitting this stock, will get a lesson on what care will do for it. When they lead it out in the ring they will have a chance to compare it, first hand, with other stock and to see the strong and weak points. Some breeders in the Valley think that we do not know good stock from poor, and are sloughing off their inferior bulls to us. An exhibit of this kind will show them that we do know good stuff and that Tillamook County can no longer be a dumping ground for cull stuff. An exhibit of this kind will call attention to our greatest agricultural assets, dairy cattle and cheese. Is it not worth while?

Deafness Cannot Be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitution remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENKY & Co., Toledo, Ohio. Take Hall's Family Pills for constipation.

The government is in the market for 62,344 horses and mules for use in the Mexican border.
