HEAR WITHOUT EARS.

Police and Detectives Are Using Lip Reading in Place of the Dictagraph.

Thousands of deaf people are today throwing away all hearing devices and enjoying all conversation. This method is easily and quickly acquired through our system. Absolutely the only thing of its kind in the country. Our proposition is entirely original. Cost is trifling. See what New International Encyclopedia says on Lip Reading. Hundreds of people with normal hearing are taking up Lip Reading for the many additional benefits gained. You can understand what the actors are saying just as far away as you can see them. The eye understands beyond the range of hearing. Send no money, but mention this paper and state whether or not you are deaf. All particulars will be sent you absolutely free and with no expense to you. Address, School of Lip Language, Kansas City, Missouri.

"Martha" to Be Presented in Costume

THE comic opera "Martha" is probably one of the best known of the humorous operas. It is to be presented on the Chautauqua program by the Boston Lyric Opera Singers, a quartet of soloists especially selected for the parts in this opera.

Gullotta Trio to Appear in Concert

Trio of Soloists to Present Strong Musical Program at Chautauqua

THE Gullotta Trio, concert ensemble, presenting a repertoire of instrumental and vocal numbers, sound the quality keynote of the musical portion of the Chautauqua. This is their second western Chautauqua tour, the ovations accorded them last year rendering a return engagement imperative. Each member of this trio alone has been considered by Chautauqua patrons a star attraction. The combination is immense.

Victor Murdock Coming to Chautauqua

Famous Statesman and Newspaper Man of Kansas to Spend Summer on Western Chautauqs

VICTOR MURDOCK, the redheaded, fringed faced Irish insurgent from Kansas who unburied Uncle Joe Cannon and scattered corrupt politics to the winds, is coming to Chautauqua. Probably no other Chautauqua announcement has created such a stir. Murdock is one of the ablest speakers on the American platform, and his long and active career in Washington has fitted him to talk to voters "straight from the shoulder." Murdock has just returned from the trenches, where he has been gathering material for stories for publication in Collier's Weekly.

Pepsin Used for Rennet in Cheese Manufacture.

A five per cent solution of scale pepsin in water, used at the rate of four ounces of solution to 1000 lbs. of milk, has been found by experiments at the Oregon Agricultural College to be a substitute for the use of rennet in cheese making, forming a product that judges are unable to tell from the normal rennet curd.

This is said to be highly important to cheese manufacturers of Oregon. Leading manufacturers of rennet extract have been unable to secure the normal supply from Europe during the war, and the scale pepsin substitute may prove a satisfactory solution of the problem. Oregon cheese men are advised to try out this pepsin as a rennet substitute before the supply of rennet is entirely exhausted. The first pepsin cheese made at the college, May 31, has been sampled both during the make-up and up to the present time. No extensive investigations have been conducted as to the keeping qualities of pepsin made

milk was set at 86 degrees F. and at 21 of one per cent acid. It was 24 minutes from the time of setting to cutting. The loss of fat in whey amounted to .26 to .32 of one per cent, the original milk testing 4.8 per cent fat. After setting, the process of handling the curd is exactly the same as when set with rennet extract.

In order to bring the rennet back to normal it is absolutely necessary that cheese makers throughout the country cooperate in every way with rennet manufacturers buying from farmers and local slaughter houses. Some leaders in this movement have gone so far as to suggest that rennet should be supplied only to those factories which in turn supply the manufacturer rennet for extract making. This is for the good of all parties concerned.

Instructions have been prepared for making the stomachs of calves ready for shipment to rennet manufacturers. These instructions may be had by application to the dairy department of the agricultural college.

Chicago has killed the goose that laid the golden egg. That city is not likely to be favored by the choice of another Republican convention. The charges were exorbitant. Hotel rooms ordinarily costing \$3 to \$5 a day were let for not less than from \$12 to \$15 a day. At the best hotels within the "Loop" it was impossible to purchase an ordinary dinner for less than \$2.50 or \$3. A lunch by no means elaborate cost \$2. For a moderate breakfast \$2 was regarded as an average outlay. Food charges were in excess of the established rates of the large hotels in New York. One Chicago hotel charged \$1.10 for a portion of blueberries. As a breakfast dish, blueberries are worth intrinsically so to speak, about 10 cents a bucket.
