

Teacher's Annual Institute.

The annual institute for Tillamook County was held in this city this week. There was much interest shown by the teachers and a general expression that they had been helped and directed in their work in a very substantial way, from the many valuable lessons delivered by the instructors who are the leading educators of the State and nation: J. A. Churchill, Supt. Public Instruction, Miss Florence Fox, Specialist in Primary Education, U. S. Bureau of Education, Washington, D. C., M. S. Pittman, head of Department Rural Supervision, Monmouth, Oregon, H. C. Seymour, State Leader Boys' and Girls' Industrial Club Work, Corvallis, Oregon, Fred C. Ayer, P. H. D. Specialist in School Administration, Eugene, Oregon, Mrs. Harriet H. Heller, Assistant Supt. Boys' and Girls' Aid Society, Portland, Oregon, R. W. Kirk, Supt. of the schools of Tillamook City, Charles H. Jones of the Oregon Teachers Monthly made up a list hardly equalled by the workers of any former institute.

Superintendent Churchill always gives the teachers such instructions as will be of the greatest use to them in their school duties, and his addresses at this institute were composed of expressions and sentences that were entirely instructive, helpful and applicable.

Miss Fox met all the expectations that had been anticipated from one coming here from the Federal Bureau of Education. She proved her capabilities and gave the institute practical things such as the teachers can make use of in their schools. She endeavored herself to the teachers, not only by her knowledge and the presentation of helpful things, but also by her pleasantness and sociability.

Mr. Pittman has always been a favorite with the teachers of the county and his instructions and sound advice given at this institute brought forth many comments of praise from the teachers.

Mrs. Heller gave messages that expressed her interest in and showed her experience with boys and girls. One could not hear Mrs. Heller without having a deeper interest and greater sympathies for boys and girls and particularly those who have no parents to care for and protect them. Mrs. Heller's talks were very helpful to our teachers, particularly those who are now in the work.

Dr. Ayer gave valuable instructions on school administration. Among other things of importance, what he gave on grading, marking and recording of student's standing will be of much help to the inexperienced or beginning teachers.

Superintendent Kirk's talk on "School Room Discipline" presented many things that are difficult for the beginning or many cases even experienced teachers to act for the best upon. This talk was greatly enjoyed by the teachers who were in attendance on the afternoon of the last day and we regret that every teacher in the county did not hear the suggestion and advice along the lines of discipline spoken from experience and practiced by Mr. Kirk in this address.

Mr. H. C. Seymour, State Leader for Club Work, presented his subject in such a way that every teacher should know just how to begin work with the students. Mr. Seymour knows his work and we believe the teachers now know their duty with reference to the club work and we hope that all will put in practice what Mr. Seymour outlined, beginning at once and carrying to completion by the close of school next spring.

Erwin Harrison, Secretary of the Fair Board, and J. E. Youel spoke briefly to the teachers, the former with reference to the County Fair and the School Co-operation, and the latter on matters of importance to the teachers to be considered at the coming election.

The musical portion of the program was skillfully carried out under the skillful supervision and leadership of Miss Hazel McKown and Miss Mabel Goyle.

The teachers' reception afforded the entertaining portion of the institute and the teachers of Tillamook City are worthy of the vote of thanks extended them from the rural teachers as well as the complimentary clause in the resolutions.

There were more than one hundred teachers enrolled at this institute, besides many ex-teachers and several prospective ones.

We wish to express our appreciation to all who participated both in labor and attendance to make the institute what it was.

W. S. Buel,
County Supt.

The Teachers of Tillamook County in closing their session of three days, heartily agree upon the following recommendations:

I. For the good of the citizenship of Oregon, we believe that the next legislature should enact a law making eight months the minimum term of school in any district in the state.

II. We enthusiastically approve the plan for the reorganization of the State Teachers Association; and will join our efforts with other progressive teachers in Oregon for the promotion of good schools and professional teaching.

III. We recommend that the teachers of this county give thoughtful consideration and study to the proposed legislation for creating a teachers' retirement fund, in order that they may express their wishes in regard to such provisions thru their representatives at the next meeting of the State Teachers' Association, and in order that the bill, when introduced in the Legislature, may be such as will secure the teachers' approval and support.

IV. We heartily endorse the plan for establishing an Eastern Oregon Normal School at Pendleton, and earnestly urge each teacher to use the greatest influence possible to secure

the adoption of this measure at the coming election.

V. This being the last institute that Supt. Buel will hold institute, desire to express our appreciation of the courteous and fair treatment, the strong support and good advice that he has so generously given us and other teachers who have taught in this County under him.

We hope that the future holds in store for him a prosperous and happy life in whatever course he may choose.

We also wish to thank the County Fair Board of Tillamook County for the careful consideration given the schools of the County in awarding the prizes for school exhibits and other encouragement given.

VII To Superintendent Churchill, for his kind and timely suggestions we extend our heartfelt thanks.

To Miss Fox for her delightful instruction we extend the appreciation of all the teachers.

To Mr. Pittman, for his jolly message of good cheer we are surely grateful.

To Mr. Seymour, for the interest he is showing in the industrial side of our work we extend our hand and hearts for a successful year of work.

To Mr. Ayer, for his splendid words of instruction we are truly grateful.

To Mrs. Heller, for her message to us, full of interest for the less favored of our children, we would give our entire support.

To Mr. Kirk, for his suggestions and helpful instruction we are truly grateful.

PENDLETON IS IDEAL LOCATION FOR NORMAL

CITY'S RAILROAD, HEALTH, EDUCATIONAL AND OTHER FACILITIES ADAPT IT FOR SCHOOL SITE.

Pendleton, Ore.—Pendleton's claims for the establishment of a State Normal School are based upon the unusual advantages offered for such an institution. It is ideally located with respect to railroad facilities and in the center of the country which it will serve. Its health conditions are excellent. It has a bountiful supply of clear, cold, pure mountain water.

It offers a library of 12,000 volumes to which are added 3000 annually housed in a beautiful new building erected at a cost of \$40,000. The largest athletic stadium in the Northwest capable of accommodating 20,000 people; a natatorium, modern and equipped for the use of men and women built at a cost of \$11,000; ample auditorium room for lyceum courses and lectures and a school system that in without equal in a city of its size. Its facilities and the students necessary for practice teaching have been guaranteed by the city board.

NORMAL REGENTS FAVOR MEASURE

BOARD MEMBERS ASSERT ONE SCHOOL AT MONMOUTH CAN NOT SUPPLY NEEDS OF ENTIRE STATE.

Salem, Ore., Sep. 22.—The Board of Regents of the Oregon Normal School filed its final draft of a survey made of the Normal School condition to the State Superintendent of Public Instruction on Thursday. That the State of Oregon is sadly in need of an additional Normal School as is provided by the initiative measure creating such a school at Pendleton is recognized by the Board of Regents in their final report made after an exhaustive survey of the condition of the one present school at Monmouth. They recognize too, in their report, that any new Normal School should be located in a town having public schools large enough to provide ample teacher training practice for the (teacher) students of the Normal.

"It is apparent to anyone who has studied the situation that there is need of additional Normal School facilities in Oregon; the Monmouth School alone cannot care for the number of students who desire to be or should be enrolled in Normal School within the next two or three years, and it will be necessary to send Oregon students to Washington and California for their training."

WESTON PRESIDENT FAVORS PENDLETON

PROF. R. C. FRENCH, FORMER HEAD OF WESTON NORMAL, IS BOOSTER FOR PENDLETON AS NORMAL LOCATION.

Portland, Ore.—Professor R. C. French, ex-President of the State Normal School at Weston, Oregon, prefers Pendleton to Weston as the facilities for practice teaching at Pendleton make it the logical site for the Eastern Oregon Normal School. Here is what he says: "The previous history of the Normal School in Eastern Oregon proves that a large number of young people to whom other educational institutions are not easily accessible are ready to avail themselves of the privileges offered by a Normal School to fit themselves for community service in public school work. The immediate establishment of such a school at some central point, such as Pendleton, would prove a great asset to the State of Oregon."

Football--Friday--At the Fairgrounds.

SALEM HIGH SCHOOL vs. TILLAMOOK HIGH SCHOOL.

This Store will Close from 3 to 5 P.M. Tickets on Sale here until Friday noon.
