Quite a few of our citizens resent the eleventh hour circulars sent out by some of the timber owners, but apart from that, it looks as though the Dougal-Dougally-Do Man lined up the sawmills and others in opposition to county bonding. It is a dead give away, and the circular is worth keeping for future reference to prove that there must have been some coercion to bring about such a combina-

Governor Withycombe, in appointing Charles L. McNary, of Salem, to succeed the late United Senator Harry Lane, may have made a good choice, but a kind of icy chill went over a good many staunch Republicans, for there appears to be a sentiing to actas a boomerang when he the next primary election.

The four voting precincts in the Little Nestucca Valley gave a remarkably vote for the county bonding-319 for and 9 against. This is in a district where onethird of Tillamook cheese is manufactured, and goes to prove that dairymen, who are level headed and don't allow prejudices to sway them, are almost unanimous for Nestucca Valley, you know a good shot man commends you on your

With this issue the Tillamook Headlight enters upon its 30th birthday, which is the pioneer newspaper of Tillamook county. In that brief time many important changes have county, for when the Headlight sparce, with manufacturing and agricultural industries small and insigni ficant. True it is we have met with some disappointment, on account of lack of interest and indifference of our citizens, but for all that, the Headlight has never faltered in taking up any fight that was for the day of June, 1917, when said proposinterest of the county as a whole,

It is satisfactory to know that the people of the south part of the coun ty appreciate the efforts of a number of Tillamook City business men who interested themselves in their behalf. When the state bond measure passed the house there was no provision in the bill for hardsurfacing the county road south of this city. All that it provided for was from Clatsop coun ty line to Garibaldi beach, by way of Wheeler, F. R. The last budget contained \$25. 000 for the Bayocean road, and the hard surfaced road to the grange hall lowest contract to build the road as far as Flower Pot was over \$16,000. It will take another \$5,000 or \$6,000 to complete the road from there to Bayocean property line. This will dicted that the Dougal-Dougally-Do mean \$9,000 additional expense through a foolish butting in of some a bond issue in this county. The elec- of the timber men. But this is not all. he state bonding act provides that where the \$15,000 of the Bayocean toney was used for hardsurfacing. the state would have done the hardsurfacing free of cost to the county Added to the \$9,000 about \$14,000 more and you have a total of \$23,000 the taxpayers have been stung. So much for Dougal-Dougally-Doism.

Anyone, with his ear to the ground, will readily admit that the next agitation in Tillamook County, will be an honest, fair and square ,cruise of the timber in the county, which is brought about by the activities of some of the timber owners attempting to retard the development of the county. There is no disputing the fact that some of the timber is under cruised and not paying a fair proportion of taxation, while other sections of timber is fully cruised and probably in some instances with excessive amounts. This is common knowledge by those who are in a position to ment that McNary was too close to know, and who claim that if an honthe West administration, which is go- est, fair and square, cruise was made, t would add many thousand dollars asks Republicans to nominate him at to the revenue of the county and faced roads. The Mole Must Go.

Unfortunately the mole campaign, organized in the winter, was delayed on account of inability to secure traps These traps arrived after most of the schools had closed, and are being slowly taken up.

A letter this week from Mr. Scheffer state that now is the very best time to trap moles, as they are the most active at this time and the furs

are prime. It is just as important to save the crops raised for our stock as it is to raise it, so let us make an united effort right now to lessen the number of moles my a systematic trapping
