The snap shot man believes that the County Court should be insistent Maybe that the State Highway Commission will not be able to do much road work this year, that is if with the State Highway Commission n having 20 miles or more of hard aufacing done in this county as soon the law is to be contested in the supreme court. Probably this may be good thing, which would give the commission plenty of time to make s the commission have the money. The law seems to be plain on the point that this work is to be done surveys and plan out work for next nmediately, and for that reason we year, and by that time it is hoped the war will be over.

We do not see any good reason why the school district should pay out good money for land that was given for school purposes. It goes to show, however, that school districts should not be anxious to accept land with a string tied to it, and then called upon later to pay money to cut the string. Let's try and reduce taxation, not increase it, is our advice.

For some reason or other the quotations for cheese at Portland mentions Coos, Curry and Myrtle Point prices, but omits Tillamook prices. It must be that some of the Portland newspapers are not giving Tillamook county cheese a square deal in their market reports and are discriminating in favor of Coos and Curry cheese. What's the reason?

Have Germans, who came to this country and joined the socialist party, done so to create discord and strife in the United States? It would seem when German agitators who have never taken out their naturalization papers, undertake to tell us how to run this country. The government is acting wisely in rounding up that class, for it is safe to say they are in this country for no good purpose, but are spies in disguise
