THE TILLAMOOK HEADLIGHT. F. C. BAKER, Publisher.

Editorial Snap Shots.

The man who had no more patriotism than to get beastly drunk on the 4th isn't much of a man, is he?

It was a good thing for all parties that airing the family linen of two Methodist temperance workers came to a sudden close. It is a pity that it obtained so much publicity.

The new dog law is a peach, but happily, it does not apply to Tillamook county. What a glorious time Oregon is having over freak legislation by the state legislature and the sovereign will of the people.

The Sheridan Sun, in reporting the opening of the Sour Grass road said: "C. C. Chapman, of Portland, editor of the Oregon Voter, was chairman of the meeting." That is on a par with the Oregonian, which said the Sour Grass road is hard surfaced and was built by Polk and Tillamook.

Very little has been published as to the treatment of prisoners in Germany, but it is safe to say when the truth is known it will astonish the whole world with the harsh and cruel treatment they have undergone. We give an account of how Australian prisoners were treated in this issue which will throw some light on the situation.

We don't know how many moonshiners there are in Tillamook, but with Uncle Sam nabbing them as well as the state, they are taking desperate chances. What first started the ball rolling was one moonshiner finding his still was too small sold it to procure a larger one for prospective business. The deal leaked out and the moonshiners as well as others are up against it good and hard and we hope they will get stung good and hard.

The United States is honeycombed with German spies and those who are in sympathy with that country in the world wide war. It is time to take the bull by the horns and place all German sympathizers in detention camps, and this should be done without further discussion. The government tried to be considerate and lenient, but the plotters took advantage of this and plotted against the United States. A good big round-up is needed, and right away.

Tillamook City is going to take a lively interest in the 10th Company Coast Artillery, when it is mustered in. It is right and proper that we should all take a deep interest in our home boys. We can do so by keeping in close touch with them and show our appreciation of the sacrifices they are making. The folks at home will be with them in spirit, and when they return let it be said of the people of Tillamook County that they did their bit to encourage and cheer the home boys.

Why dope Tillamook Cheese with so much coloring? Genuine Cheddar cheese does not contain coloring, but is made and placed on the market in its natural color. This, we think, would enhance the value of Tillamook cheese, and be a saving in making as well, for the coloring that is put into cheese could be eliminated and money saved. Now would be a good time to make a change, on account of the increased cost of coloring. Cheddar cheese made in England is put up into small cans and retails at 75c per pound.

Tillamook County headed the list, with 74 per cent of the registered voters, who went to the polls at the recent special election. Klamath County was the lowest with only 25 per cent. The three Busy B's—Beals, Botts and Baker—as they are called, must have put some ginger into the election in this county when 74 per cent of the registration went to the polls. That should be a good argument with the State Highway Commission when Tillamook's request for state aid is taken up, coupled with the fact that the people of this county voted three to one in favor of the state bonds.

Our respected friend, Bro. Trombley, suddenly "hushed up" about the pavement, probably it dawned upon him that the pavement case brought the city into bad repute and it is time that a settlement was made. But if he wants to scrap it out with the snap shot manshot man, we're ready to do so, for we do like a little scrap once in a while. Even the litigants appear to be getting back to earth and becoming sober and sane, and no doubt now realize that they blowed in a big wad of money foolishly for a little army of high priced attorneys. And for doing the work which any one of our local attorneys could have just as well performed at a moderately small amount. However, our respected brother is now on the "hush, hush, hush," band wagon, and, as usual, the snap shot man is a real bad man because he has jibed the litigants for fooling away a lot of good money on high priced attorneys.

Our attention was called to a little incident about recutting the timber. On a certain timber claim in the county the county cruise gave about five million feet. It was sold recently

on an estimated cruise of fourteen million feet, and a person who is well posted unwittingly said it would log twenty million feet. That shows that some of the timber owners are paying one fourth the taxes they should be on their timber, while the dairyman who improved his farm and stocked it with blooded cattle, have to pay the full value on his property. This is something our Fairview friends should consider, for some of them fell all over the Dougal-Dougally-Doman and tagged after him like a kettle tied to a dog's tail. Let's have a fair and square cruise of the timber, and not "soak" dairymen for the full amount of their property while thousands of acres of timber lands are under cruised and the owners not paying an equal proportion of taxation.

Percentage Voting.

The total number of ballots cast at the special election June 4, was the smallest in proportion to registration of any election since registration was established, undoubtedly due to the circumstance that it was a special election and not a regular election. Even in Multnomah County, where a regular city election was held, the number of ballots cast on state measures was the smallest in the history of the county since registration was established. Only 42 per cent of the registered vote actually cast ballots at the election. In Multnomah County the proportion was 59 per cent, while out in the state it was 45 per cent. Tillamook County headed the list with 74 per cent vote, while Klamath County brought up the rear with a faint 25 per cent.

Road Bonds.

Eighteen of Oregon's thirty-six counties were carried for the road bonds. In the Willamette Valley, the chief beneficiary of the paying, only two counties returned majorities. The two were Yamhill and Washington. It was Eastern Oregon, Southern Oregon, and the coast counties which, with Multnomah's splendid majority, carried the bonds. Six million dollar state road bond issue and highway bill.

Table showing percentage of registered voters for road bonds by county.

Total 77,316 63,803. Majority for 13,515. Adopted by per cent of votes cast 52 per cent. Adopted by per cent of votes registered, 26 percent.

A Chemical Tariff Joker.

The Journal of Industrial and Engineering Chemistry of the American Chemical Society published a lively editorial in its March issue. It has to do with the tariff bill in its relation to dyestuffs. At the last moment in the framing of the bill by the House Committee on Ways and Means the following exceptions from the special duty of five cents per pound were added: "Natural and synthetic alizarin and dyes obtained from alizarin, anthracene and carbazol, natural and synthetic indigo, and all indigos whether or not obtained from indigo and medical flavors." The record of the bill is followed up in detail. On its face it frees from the special duty imports of turkey red and other alizarin colors and indigo. This was effected through the influence of the late Mr. Caesar Cone, of Greensboro, N. C., who used the colors in his factories. Congressman Kitchin, also of North Carolina, chairman of the Ways and Means committee, is asked to explain why. It is pointed out very clearly that the manufacture of the unprotected products has not been undertaken, and if the country finds itself involved in war, the lack of them will render us just so much more backward in the making of munitions, for both industries are very closely related.

Then follows the exposition of the joker, which consists in the words "all indigos whether or not obtained from indigo." The climate of the United States, except in the Philippines, is not tropical enough to grow natural indigo, so that this need not cause worry. And if synthetic indigo is available it is so much cheaper and better than the natural product that the latter drops out of use. The joker is in the word "indigoids." What "indigoids" means is undetermined. Excellent authorities hold indigoids to include all of the so-called sulphur colors of which vast quantities are now made in this country, and, owing to war conditions, are exported. It brings up the question whether a large part of the dyestuffs made in the United States will be really subject to the specific duties set forth in the bill. The handwriting of the Ger-

man color agent shows up between the lines. How he worked this joker in, is what the editor of the Journal of Industrial and Engineering Chemistry wants to know.

LITTLE NESTUCCA ROAD GETS CONSIDERATION

Secretary of Agriculture Approves Fifteen Road Projects in Oregon

District Forester George H. Cecil, Portland, Oregon announces that approval has been given by the Secretary of Agriculture to cooperate road work in Oregon involving \$1,114,194 which is distributed to fifteen projects. This amount is matched by the State, assisted in some instances by counties. Cooperation of this nature is warranted by the Shackleford Road bill, which became an Act July 11, 1917, and which is the direct outgrowth of an effort by Chief Forester Graves and Secretary Houston to make the National Forests contribute to road building enterprises pending the time when large timber sales from these forests will automatically help the county exchequers.

The projects on which cooperation is authorized by the Secretary are as follows:

- McKenzie Pass Road. Mount Hood Loop Road. Eugene-Florence Road. Pendleton-LaGrande Road. Medford-Klamath Falls Road. Ochoco Creek Road. Canyonville-Galesville Road. Reedsport-Coos Bay Road. Little Nestucca Road. John Day Road. Flora-Enterprise Road. La Pine-Lakeview Road. Pilot Rock-Prairie City Road. Crescent-Klamath Falls Road. Zigzag Road.

Little Nestucca road, the location of which has not been determined, will serve as an outlet for the Willamette Valley to the various coast resorts in Tillamook County. The length of this project is approximately 5 1/2 miles.

NATIONAL GUARD TO BE DRAFTED AUG. 5

Standing as U. S. Troops to Be Unquestionable.

Washington, July 9.—The last step necessary to make the entire National Guard available for duty in France was taken by President Wilson today with the issue of a proclamation drafting the state troops into the army of the United States on Aug. 5. To make certain that the purpose of the National defense act is carried out, the proclamation also specifically declares the men drafted to be discharged from the old militia status on that date.

In that way the constitutional restraint upon use of militia outside the country is avoided and the way paved for sending the regiments to the European front.

Prior to the application of the draft, regiments in the Northern and Eastern section of the country are called into the Federal service as National Guardsmen in two increments to be mobilized on July 15 and 25.

Many units already are Federalized and presumably they will be mobilized with the other troops from their states. The guard from the other states will be mobilized on the day of the draft. The arrangement was necessary to provide for movement of the regiments to their concentration camps without congestion.

The operation of the draft law was delayed until August 5 so that all regiments can be taken into the army simultaneously. Fourteen camp sites for the 16 tactical divisions into which the guard will be organized have been selected already and the militia bureau is preparing the railway routing of the troops to the camps.

Seven of the sites selected are in the Southeastern department, five in the Southern and two in the Western. The two others will be in the Southeastern department and until they are approved assignments of regiments to camps and divisions cannot be fully worked out. The only two divisions positively assigned are the Nineteenth, including the California Guard which will go to Linda Vista, Cal., and the Twentieth, including Oregon, Washington and other states in the Northwest, which will go to Palo Alto, Cal.

Captain S. S. Johnson has received orders that the 10th Company Coast Artillery, will be called out on the 25th and mustered in on the 5th of August.

Presumably the Oregon Coast Artillery will be directed to mobilize at the forts at the mouth of the Columbia, particularly at Fort Stevens.

No information has been received throwing any light on the question as to what disposition is to be made of the Coast Artillery troops. By many it is believed they will be utilized by the Government to man the heavy artillery that must be provided for the American Army in France.

There are 12 companies of the Oregon Coast Artillery, situated at Ashland, Medford, Marshfield, Roseburg, Cottage Grove, Eugene, Albany, Portland, Tillamook, Astoria and Hood River.

ANARCHISTS DRAW TWO YEARS IN PRISON

New York, July 9.—Emma Goldman and Alexander Berkman, anarchists, convicted here tonight of conspiracy to obstruct operation of the selective draft law, started for prison in the custody of Federal Marshals a few hours after the verdict had been returned.

Berkman will be taken to the Federal penitentiary at Atlanta Ga., and Miss Goldman to the state penitentiary at Jefferson City, Mo. Each was sentenced by Federal Judge Mayer to imprisonment and to pay a fine of \$10,000.

In addition to the severe sentence, Miss Goldman and Berkman are liable to be deported. Berkman is not a citizen and Miss Goldman claims citizenship only on her father's application.

The jury deliberated 40 minutes and as they filed into the court room it was expected, if their verdict was against the prisoners, a demonstration would be made by many anarchists present. There was no disorder, however, and when Judge Mayer passed sentence the anarchists appeared to be completely awed.

In sentencing the prisoners, Judge Mayer said he regretted they had not put their abilities to better use, since they could have been "highly influencing elements in imparting knowledge to the foreigners who came here." He added the Government "is part of our lives and we are part of its life, and so it shall remain the greatest standard in the world of true democracy."

Twenty-Five Cents is the Price of Peace.

The terrible itching and smarting, incident to certain skin diseases, is almost instantly allayed by applying Chamberlain's Salve. Price 25 cents. For sale by Lamar's Drug Store.

Notice.

Statement of the First Bank of Bay City, of Bay City, Oregon, showing the amount standing to the credit of every depositor July 1st, 1917, who has not made a deposit or who has not withdrawn any part of his deposit, principal or interest, for the period of more than seven years immediately prior to said date, with the name, last known postoffice address of such depositor, and the fact of his death, if known.

Name of depositor, Fagan, W. A., Bay City, Oregon, \$5.15. State of Oregon, County of Tillamook, ss:

I, John O. Bozorth, being first duly sworn, depose and say, upon oath, that I am the cashier of the First Bank of Bay City, Tillamook County, Oregon, and that the foregoing statement is a full, true, correct and complete statement, showing the name, last known residence, fact of death, if known, and the amount to the credit of each depositor as required by the provisions of Chapter 148, of the General Laws of Oregon, 1917.

John O. Bozorth, Cashier. Subscribed and sworn to before me this 10th day of July, 1917.

L. F. Brode, Notary Public for Oregon. My Commission expires Oct. 4, 1920.

Advertisement for Card-u-i The Woman's Tonic. "I was very weak," Mrs. Edwards goes on to say, "and could not sleep without suffering great pain... Nothing seemed to help me until I heard of Cardui and began the use of it... I gradually gained my strength... I am now able to do all my work." If you need a tonic take Cardui. It is for women. It acts gently and reliably and will probably help you as it helped this lady. All Druggists.

We use the genuine Ford parts and give you the benefit of the regular standard Ford prices. Touring Car \$360, Runabout \$345, Sedan \$645, Coupelet \$505, Town Car \$505—all f.o.b. Detroit. On display and for sale by Ackley & Murphy, TILLAMOOK GARAGE. DR. ELMER ALLEN, DR. GEORGE J. PETERSON, Dentists. National Building. Tillamook, Oregon. Gold Going to Japan. The New York Sun of June 30 states that the largest consignment of gold in history for shipment to Japan was withdrawn from the sub-treasury June 29. It is understood that about \$50,000,000 is scheduled to be shipped to Japan by September 1. Already about \$23,000,000 has been sent. The New York Journal of Commerce of June 30 says: "Yesterday's engagements of the precious metal for export make the total for the week \$12,550,000. Approximately \$10,000,000 of this was transferred to San Francisco for shipment to Japan. This continuous outflow of gold to the latter country is explained by the large balance of trade in favor of the large balance of heavy purchases of Japan because of our heavy purchases of a variety of articles and manufactures which were formerly bought from Germany." The Underwood Free-Trade tariff is proving to be a great blessing to Japan. It will be a still bigger blessing when the war ends. But what will it be to our country if in the absence of a protective tariff we continue to invite and promote imports from Japan and all the rest of the world? Ornamental Fire Places Built of Brick and Stone. All Fire Places absolutely guaranteed not to smoke or money refunded. Brick work of all kinds done on short notice. We make a specialty of repairing smoking Fire Places. RALPH E. WARREN, TILLAMOOK ORE.
