Within a few days official lists of the draft serial numbers, showing the order in which they were drawn in the lottery at Washington, will reach the various county exemption boards. Following receipts of these lists, the boards will notify the men called up on the first draft.

Until then it will not be necessary for those subject to call on the first draft to report. But as soon as they receive notification from their boards they must report promptly on the day designated.

The first step taken by each board will be to post in a conspicuous place a list containing the names of all the men registered in its county or district, in the exact order in which they will be called on the first and all succeeding drafts. A copy of this will also be given the press for publication.

Let it be emphasized again that this list will have not only the names of the men to be called out on the first draft, but of every man registered, in the order in which he must be called. No person whatsoever has any authority to change this order.

Having posted this list and giving a copy to the press, the board will then notify by letter every man called up on the first draft. Each man will be directed to appear before the board for physical examination on a specified date, which will be within seven days of the mailing of the notice.

Failure to receive this notice will not be accepted as an excuse for not appearing on the day set. The burden of appearing when he is called is on the man himself; there is a heavy penalty for failure to answer the call. Remember, that regardless of whether a man intends to apply for exemption or discharge, he must appear for physical examination on the day set. He has seven days from the posting of the list and the mailing of the notice to him by the board in which to file application for exemption, and 10 more days in which to file proof.

And remember again, that no claims for exemption because of employment in necessary industries, including agriculture, can be considered by your county exemption board.

Such a claim must be made to one of the three district appeal boards, at Portland, Eugene or LaGrande. Tillamook County is in the Portland district. It can only be made there after the man has passed his physical examination and been certified by the county board as called for military service and not exempt.

After you have appeared before your county exemption board and passed the physical examination, it will still be some time before you will actually be called out to join the army. You will be notified when it is time for you to report for service.

Telegraphic news from Washington states that arrangements are being made for the second draft, which will be made in the near future, and this will include the list we have given below of Tillamook boys. It is the intention of the government to send 1,000,000 men to France and all those who are conscripted first will go there.

TILLAMOOK BOYS MUSTERED IN ON WEDNESDAY.

10th Company, Coast Artillery Will Leave the City August 5th.

On Wednesday the 10th Company, Coast Artillery, was mustered into the United States army and it is expected that the boys will entrain on the 5th of August and go to Fort Stevens for a course of training before being sent for Europe.

The officers are Captain S. S. Johnson, First Lieutenant Ray Wall and Second Lieutenant T. B. Handley.

The company is 109 strong but it is expected that some may fail in the medical examination and in that case more men will be required to fill the vacancies.

The company is camped at the Fair Grounds, where a large proportion of them will sleep at night. The Ladies' Aid of the Christian Church will furnish the meals, the government allowing 25c. for each meal. Some of the boys will assist in the cooking. The company is in need of four more men bring its number up to full strength.

The men of the Oregon Coast Artillery will proceed as soon as possible to Fort Stevens, where they will drill with the big guns. It is the general feeling that men in this branch eventually will see service in France in the handling of heavy field artillery. Although not fully equipped, the officers of the 10th Company, Coast Artillery, have everything arranged so that it could entrain at a moments notice. Orders to entrain may come at any moment.

AGRICULTURAL NOTES.

By R. C. Jones, County Agriculturist.

Silo Progress.

Some Tillamook dairymen are rising well to the food shortage situation and preparing to keep the cows at work as long as possible this fall and winter. Think what it would mean if everyone of our 10,000 cows could have silage this fall and winter and held up in their milk so as to produce even 100 pounds more each than they would on dry hay. This would mean 200,000 pounds more cheese from the county this year. At 25 cents per pound this would mean \$25,000 increased income in the county. The above increase is based on very conservative estimates. Instead of 100 pounds more milk per cow per year I have no doubt that the wise use of silage would increase the production 500 pounds per year or 500,000 pounds of cheese for the county. See what this would mean in this year of food shortage. Our greatest lack at the present time is meat animals. Cheese is a substitute for meat. It is up to every dairyman to keep his cows milking to their capacity this fall and winter, and if he is not prepared with a silo this year not to let another year go by without.

The silo at all times, and particularly now, offers to the farmer one of the best means of reducing his feed bills. The present great national emergency places these questions before every farmer who keeps cattle: Have you a silo? If you have not, your herd is not most economically fed; why not build a silo and fill it before frost comes? If you have one, is it big enough to supply all the silage your cattle can eat before the next crop is harvested? If not, build another. You can buy one ready to erect, or you can build it yourself. Home made silos of concrete or wood can be erected with little trouble.

Silos More than Double This Year. There have been some 30 or 35 silos built this year which is an increase of about 175 per cent in the silos of the county. This is a start but does not by any means measure the number that should have been built.

The Silo Saves Grain. Which is needed for human consumption and at the same time keeps up the flow of milk.

Baseball.

The Tillamook Hose Co., baseball nine defeated the Garibaldi boys by the decisive score of 9 to 4, at the local Fair Grounds, Sunday afternoon last, in a good fast game save for two or three eventful, (for us, the ventful against, the quarry boys,) innings.

Thayer as usual pitched an unbeatable game, and Teisel, better late than never, came into the game in the third canto, relieving Crimmins who took up his post in the left garden and held it also unbeatable, and between strikeouts and caught flights it was one two three for the Garibaldi contingent.

Toots Cardiff did a come-back and held down second base for the Firemen in a mid season form. His hitting was a noticeable feature of the game. Big Charley Mahan busted a couple for heart rendering drives and to see him twaddle around the bags was worth the admission alone. Charlie is making good on first.

The Firemen started with a weakened lineup, but things took a turn for the better as the game progressed and with heavy hitting on our part and tight defensive playing we showed them from the north that they can't beat us twice in a row at least. We hope to get even on the Wheeler nine when we meet again.

The lineup for the Firemen: Driscoll, Plasker Joe, Himes, Crimmins, Mapes, Plasker Ben, Cardiff, Heisel, Thayer, Mahan.

Constipation and Indigestion. "I have used Chamberlain's tablets and must say they are the best I have ever used for constipation and indigestion. My wife also uses them for indigestion and they did her good," writes Eugene S. Knight, Wilmington, N. C. Chamberlain's tablets are mild and gentle in their action. Give them a trial. You are certain to be pleased with the agreeable laxative effect which they produce. For sale by Lamar's Drug Store.

Twenty-Five Cents is the Price of Peace. The terrible itching and smarting, incident to certain skin diseases, is almost instantly allayed by applying Chamberlain's Salve. Price 25 cents. For sale by Lamar's Drug Store.

PROVISION IS MADE FOR SECOND DRAFT

Five Billions to Be Added to War Expenses.

Washington, July 24.—Plans worked out in Congress for raising war revenue were overturned today by announcement of forthcoming additional estimates for war expenditures aggregating more than \$5,000,000,000, principally in anticipation of assembling a second army of 500,000 men under the selective draft.

Secretary McAdoo, at a special meeting of the Senate finance committee, revealed that the War Department alone is preparing estimates to cover additional expenditures of nearly \$5,000,000,000, and asked the committee to hold up the \$1,670,000,000 war tax bill until the detailed estimates of all departments are submitted. The committee agreed to the request and pigeonholed a report on the measure which it had planned to submit during the day.

The new estimates, including \$500,000,000 additional for the shipping board and \$100,000,000 for the Navy department, are to be submitted to the committee late this week. Then there will be another revision of the war revenue measure, probably resulting in an increase of the bill's gross tax levy by from \$350,000,000 to \$1,500,000,000. Further credits may also be authorized in the form of bonds or indebtedness certificates.

Besides the additional sums needed for the American war program, Secretary McAdoo told the Senate committee that the \$2,000,000,000 authorized for loans to the allies probably would last only to October and that about \$2,000,000,000 for their further assistance would be needed. Provision for this, however, is not planned in connection with the pending revenue legislation. It probably will be considered at the next session.

BIG AIR FLEET TO ATTACK GERMANY.

U. S. Now Has \$640,000,000 For Speedy Construction of 20,000 Airplanes.

Washington, July 24.—The \$640,000,000 airplane bill became a law today with President Wilson's signature. This immense appropriation is only the beginning of preparations for the campaign intended to overwhelm Germany from the air. More than 20,000 planes are to be built as a first increment and there will be many thousands of aviators. The first task will be the instruction of the vast army of American flyers.

Germany, realizing the danger of the air campaign, already is feverishly building airplanes to fight the fleets coming to overwhelm her. The element of speed, therefore, is foremost in building the American fleet. Howard E. Coffin, chairman of the aircraft production board of the council of national defense, today said all industrial records for the development of a new art must be broken in rushing through the program to completion.

Vote of Condolence.

Whereas, the reaper, death, has entered our midst and removed therefrom our brother, John Sheets, who was a charter member of the Fairview Grange, No. 273; and Whereas, it is meet and proper and a custom long observed by Fairview Grange that we take this opportunity to honor the memory of our departed brother; be it Resolved, that while we, Fairview Grange, realize and very keenly feel our loss, it is nothing compared to the sorrow of the family; be it further Resolved, that as a token of respect sympathy for the friends a page of the journal be dedicated to the memory of John Sheets, and that our

charter be draped in mourning for 30 days. L. S. Maynard, S. V. Anderson and Rose Crawford, Committee.
