THE TILLAMOOK HEADLIGHT, F. C. BAKER, Publisher.

Editorial Snap Shots.

Every I. W. W. should be rounded up and kept in detention camps, for they are enemies of the United States.

Some of the boys, no doubt are now thinking of the girls they have left behind and so hard to break away from.

We are correct in saying that a number of young men who had not enlisted wished they were members of the Coast Company when it left on Sunday.

If the Coast Company is missed, and surely it was after it had taken its departure, there will be a considerable miss in all parts of the country after all the eligible young men have been drafted from the first registration.

It simply means this, if loggers and saw mill employes are to obtain eight hours for a day's work, those who buy lumber will have to pay for the increase cost of production. When the people of the state voted eight hours for road work, those who pay the taxes have to pay more for road work.

There are persons in every community with strong Germany sympathy, and who hope that that country will win the war. It is easy to size up these individuals in a number of cases, for they quite frequently let some word drop or oppose the methods used by the government for the prosecution of the war.

When it became known on Saturday that the Coast Company would leave next morning, it caused some little commotion, probably, because this was the first militia company in the history of the county to leave on active service. It had the effect of bringing home to the people of this county the seriousness of the world war.

It is satisfactory to know that news paper dropped from \$135.00 to \$125 per ton, but this is double previous prices. Some newspaper is being shipped in at one half what the paper trust is now charging, and this may have a tendency to reduce newspaper in the near future. Most newspaper men think they have been bled long enough by the newspaper trust.

The departure of the 10th Company Coast Artillery, on Sunday, showed how dear the boys were to the hearts of the people of Tillamook county. Everybody appeared to take a personal interest in every member of the company, and we feel glad to be able to make this statement, for it showed that the folks at home were heart and soul back of the home boys.

The German war lords may try and fool the German people that the entry of the United States in the war won't cut any figure, but to their sorrow before many months they will find that this country will cut a big figure in the war, for with the large army that is being raised and the financial wealth and wonderful resources of the country, the German war lords don't appear to know what they are up against.

The Tillamook Hose Company has the right spirit. It may be only a small matter in the Hose Company presenting each member of the 10th Company, Coast Artillery, with a fountain pen, but is one of those little acts of kindness that are commendable in the home boys, for it appreciates the sacrifices the members of the Coast Company are making in behalf of the country. We say continue the good work.

A large number of persons showed considerable anxiety as to the names to be drawn in the second draft, and this is liable to increase for it would not surprise us in the least that before many months the whole of the names registered will be drawn. No doubt a large number will be exempt, and it depends what percentage will be exempt before the first registration is exhausted and those about 31 years of age called upon to register.

Some persons are foolish enough to believe that the United States is in the war to help England out. Any excuse is readily accepted by pro-Germans, and we suppose this is one of them. Most people know that England went to war to protect Belgium, but the United States went to war with Germany because that country killed so many of our citizens in a ruthless, cold blooded manner, and threatened to continue it if the United States did not keep its vessels at home.

A person living at South Prairie counted the number of automobiles that passed his place, coming to Tillamook City, and the number was 150 daily, and with the increase in the automobile travel into the county during August, that number will be greatly increased. On the supposition that 150 automobiles are coming into the county from the south, not taking into consideration those which come in by way of Astoria and Seaside, that means 1050 in a week. It is estimated that it costs on an av-

erage \$10.00 a day expenses for each auto out on a pleasure trip, which means that these autos leave \$19,500 in the county each month of the auto season.

The three Busy B's felt happy on Tuesday when the editor was called to the long distance telephone by the State Highway Commission and informed that it was the intention of the Commission to call for bids and rush the hardsurfacing of the road south of the city. When the 29 miles of road is finished, the editor is going to challenge the other two busy B's to a roller skating match over the entire distance, by way of a little stunt when we celebrate the completion of that hardsurfaced road.

Quite a number of citizens have commended the snap shot man for the snap shots in regard to the Chautauqua and the citizens getting behind the home boys. We considered it timely and proper advice, and we are glad to know it set people to thinking and that it met with the approval of so large a number of our citizens. When we saw the large crowd at the depot on Sunday and at other depots along the line, there was not the least doubt about the people of Tillamook being behind their home boys. We want to give a little further advice. Don't allow your interest in the home boys to grow cold and indifferent, or in the Tillamook boys who have joined the navy or other branches of the army. We at home should keep in personal touch with all of them, for, after all, they will appreciate the news from home and other kindly acts we can bestow upon them more than anything else. It was a splendid thing to give them a rousing sendoff, but let us all take the same lively interest in the home boys in the future as we did when we clasped them by the hand on Sunday wishing them divine protection and a speedy return to the home town and the home folks.

It would be a fine thing to throw the doors open to everybody on Sunday as we might thereby be able to sandwich in religious services to a better advantage, and then it would give some who cannot afford the luxury of the Chautauqua an opportunity to attend. This whole hog idea never did set very well with us and it does not set very well in this case.—Herald.

We want to inform our respected friend Bro. Trombley, that it is poor judgment and a poor grade of religion to sandwich religion with cheap vaudeville stunts on Sundays at Chautauqua meetings. How some of our church people can consent to do this is beyond our comprehension. If it is necessary to have religious services at Chautauqua meetings on Sundays then eliminate the vaudeville and other entertaining features. Or is it a case with some of our citizens of swallowing a mountain and straining at a gnat? We don't think it is a proper stunt for church members to take part in and applaud vaudeville stunts on Sunday, especially following a good sermon.

The County Court is to be commended upon insisting that the road to be built south of this city by the State Highway Commission and the county be 16 feet wide, with 2 foot shoulders. It would have been a great mistake to have made the road only 10 or 12 feet wide, for every year the travel will increase between this city and the south part of the county. And that width of road should be built for the main highway through the county. When this additional five miles of road built, it will be the completion of over ten miles of the proposed hard surfaced highway through the county. Next year double that amount of hard surfacing should be done, that is if labor conditions will permit, for there is a possibility that considerable road work will have to be postponed next year. Another matter confronts the county court. At present it is not known whether the county bonds will be sold. Should they fail to be sold, it will be necessary to raise from \$25,000 to \$30,000 to pay for the county's share of hard surfacing the five miles of road, and this could be done by selling that amount of bonds by popular subscription rather than allow the bonding of the five miles of hardsurfacing to fall through for want of funds.

The new German Chancellor, like his predecessor, is striving to blame England for the outbreak of the war, when, as a matter of fact, it was the war lords of Germany who thought the year 1914 was the time to put their ambitions into effect, which was to conquer the whole world and bring it under their rule, the U. S. included. The speech by Secretary of State Lansing, who is in a position to know facts and who passed through a critical time in an endeavor to avoid war with Germany, throws considerable light on the perfidy of the war lords of Germany. Mr. Lansing cited things which Germany has been guilty of which were thought "improbable, yes impossible," before the war—violation of treaties, the crimes of murder, extortion and vandalism in Belgium and France, submarine brutality and bomb-dropping on cities, and iron crosses which have been awarded the perpetrators. Finding they have failed in carrying out their designs, and the Kaiser didn't have his Xmas dinner in Paris 4 months after the war started, the war lords of Germany are now endeavoring to convince the German people and the whole world that England was the cause of the war, whereas it was England that intervened and prevented Germany from overrunning France and imposing another heavy indemnity from that country. No wonder that the Kaiser and his war lords are mad with England now that the United States is in the war, they are making a desperate effort to hold out, but they are doomed.

Attention Ye Swamp Angels. Kiln Tile, all sizes, ready for you Monday, June 25th.—Tillamook Clay Works.

DRAFT DATA GIVEN.

Information About Claims for Exemption Compiled.

Detailed information about claims for exemptions and discharges under the draft, of interest to all men subject to call for military service, have been issued by Adjutant-General George A. White.

The information was contained in the following bulletin sent out from General White's office:

To obtain exemption or discharge from the draft will not be quite the simple matter that some persons have thought it.

The Government does not desire to draft men who have persons actually dependent upon them, or whose exemption on other grounds is clearly desirable. Neither does it intend that any man who should go should be excused. Absolute proof, in the form of sworn affidavits and supporting affidavits, of the truth of every claim for exemption, will be required.

Exemption will not be regarded as claimed because of any statement made on the registration card. A new claim, supported by affidavits, must be made in each case.

Incidentally no claim for exemption or discharge may be made by any man until he actually has been called up by his county exemption board for physical examination.

For example, a man who expects to be called at some future time cannot make his claim for exemption now. The exemption boards are strictly forbidden to receive or consider claims from men who have not been called up for examination.

For another thing, whether a man files a claim for exemption or not, he positively must appear before the local board for physical examination on the day set in the notification sent him by the board.

A man has seven days from the mailing of this notice in which to make application to his board for exemption. He then has ten more days in which to file proof.

Following are the only grounds for exemption:

1. That you are an officer, legislative, executive or judicial, of the United States, a state or territory, or the District of Columbia. And in every case exemption will not be granted unless specifically claimed.

2. That you are a regular or ordained minister of religion.

3. That you were on May 18, 1917, a student preparing for the ministry in any recognized theological or divinity school.

4. That you are in the military or naval service of the United States.

5. That you are a subject of Germany, whether you have taken out first papers or not. In such case you will not be accepted for draft even if you desire to enlist. The regulations on this point are positive.

6. That you are a resident alien who has not taken out first papers.

Following are the only claims for discharge that can be considered by local exemption boards:

1. That you are an elective county or municipal officer.

2. That you are a customhouse clerk.

3. That you are employed by the United States in the transmission of mails.

4. That you are an artificer or workman employed in an armory, arsenal or Navy-yard of the United States.

5. That you are employed in the service of the United States, under certain conditions.

6. That you are a licensed pilot regularly employed in the pursuit of your vocation.

7. That you are a mariner actually employed in the sea service of any citizen or merchant within the United States.

8. That you are a married man with a wife or child dependent upon your labor for support.

9. That you have aged or infirm parents dependent upon your labor for support.

10. That you are the father of a motherless child under 16 dependent upon your labor for support.

11. That you are the brother of an orphan child or children under 16 dependent upon your labor for support.

12. That you are a member of a well-recognized religious sect or organization, organized and existing May 18, 1917, whose then existing creed or principles forbade its members to participate in war of any kind.

Claims for exemption on the ground that you are employed in a necessary industry, including agriculture, cannot be made to your local exemption board, but may be made to one of the three district exemption boards in Oregon, but only after you have passed your physical examination and have been certified as called for military service and not exempted.

Notice to Dairymen.

I have for sale three Registered Guernsey Bull calves. They are Governor of the Chene and Yeksa breeding. I won three first out of four entries in the cow classes Senior and Grand champion cow at Oregon State Fair 1916.

Correspondence solicited. These calves are priced to sell. W. A. Goodwin, Cornelius, Washington County, Oregon, Owner and breeder of Rose City Guernsey Herd.

ASTOUNDING REPORT FOR TILLAMOOK.

The wife of a merchant had stomach trouble so bad she could eat nothing but toast, fruit and hot water. Everything else would sour or ferment. One spoonful buckthorn bark, glycerine, etc., as mixed in Adler-ika benefited her instantly. Because Adler-ika flushes the entire elementary tract it relieves any case constipation, sour stomach or gas and prevents appendicitis. It has quickest action of anything we ever sold. J. S. Lamar, druggist.

GERMAN PERFDY IS HELD CAUSE OF WAR

Secretary of State Emphasizes Peril of Teuton Ambition for World Dominion.

Madison Barracks, N. Y., July 29.—In a speech here tonight before 1700 members of the Officer's Reserve Corps, Robert Lansing, Secretary of State, emphasizing the peril of German imperialism to the United States and the world, declared his belief that the yoke of autocracy "until the physical might of the united democracies of the world has destroyed forever evils of the military rulers of Germany." That, he added, is the only way to restore the peace of the world.

"Were every people on earth able to express their will, there would be no wars of aggression," he said, "and if there were no wars of aggression there would be no wars and lasting peace would come to this earth. The only way that a people can express their will is through democratic institutions. Therefore, when the world is made safe for democracy, when that principle prevails, universal peace will be an accomplished fact."

German Taught to Worship Might.

"No nation of people will be fit more than the United States when that time comes but it has not yet come. A great people, ruled in thought, in word as well as in deed by the most sinister government of modern times, is straining every nerve to supplant democracy by the autocracy which they have been taught to worship."

When will the German people awaken to the truth? When will they arise in their might and cast off the yoke and become their own masters? I fear that it will not be until the physical might of the united democracies of the world have destroyed forever the evil ambitions of the military rulers of Germany and liberty triumphs over its arch-enemy."

American Cause Righteous.

Mr. Lansing sought to drive home to the student officers the righteousness of the cause for which they had volunteered to go to France and fight, asserting that America would win "because our cause is the cause of justice and of right and of humanity."

"The immediate cause of our war with Germany—the breaking of her promises as to indiscriminate submarine warfare—has a far deeper meaning," he said, "a meaning which has been growing more evident as the war has progressed and which brings it home to all thinking Americans."

"The evil character of the German government is laid bare before the world. We know now that that Government is inspired with ambitions which menace human liberty, and that to gain its end it does not hesitate to break faith, to violate the most sacred rights, or to perpetrate intolerable acts of inhumanity."

Promises Made to Gain Time.

"It needed but the words reported to have been uttered by the German Chancellor to complete the picture of the character of his government when he announced that the only reason why the intensified submarine campaign was delayed until February last was that sufficient submarines could be built before that time to make the attacks on commerce efficient."

"Do you realize that this means, if it means anything, that the promises to refrain from brutal submarine warfare, which Germany had made to the United States, were never intended to be kept, that they were only made in order to gain time in which to build more submarines, and that when the time came to act the German promises were unhesitatingly torn to pieces like other scraps of paper?"

World Dominion Wanted.

"It is this disclosure of the character of the imperial German government which is the underlying cause of our entry into the war. We had doubted, or at least many Americans had doubted, the evil purposes of the rulers of Germany. Doubt remained no longer. In the light of events we could read the past and see that for a quarter of a century the absorbing ambition of the military oligarchy which the master of the German empire wanted was for a world dominion."

Asserting that the future of the United States is at stake, Secretary Lansing said that "if any of you have the idea that we are fighting others' battles, and not our own, the sooner he gets away from that idea the better it will be for him, the better it will be for all of us."

Imagine German Victor in Europe because the United States remained neutral!

Who then, think you, would be the next victim of those who are seeking to be masters of the whole earth? "Would not this democracy be the only obstacle between the autocratic rulers of Germany and their supreme ambition? Do you think that they would withhold their hands from so rich a prize? "Every man who fights the armies of the German Emperor goes forth to fight for his country and for the preservation of those things for which our forefathers were willing to die. To those who thus offer themselves we owe the same debt that we owe to those men who in the past fought on American soil in the cause of liberty."

Answering those who he said, might think it improbable that Germany would attack the United States if she won the war, Mr. Lansing cited things which Germany has been guilty of which were thought "improbable, yes impossible," before the war—violation of treaties, the crimes of murder, extortion and vandalism in Belgium and France, submarine brutality and bomb-dropping on cities. "Yet, God help us, these things have come to pass," he exclaimed, "and iron crosses have been awarded the perpetrators!"

THE TILLAMOOK HEADLIGHT Makes Clubbing Arrangement With The Oregon Farmer Offers Unusual Opportunity to Its Readers

AMONG our large circle of readers there are a great many who are interested directly or indirectly in fruit growing, dairying and other branches of farming. All of these naturally wish to keep in close touch with agricultural activities throughout the state; and to know about any fight which is being waged for the measures Oregon farmers want and against all sorts of schemes that are detrimental to the people and agricultural interests of this state.

We have, therefore, made a special clubbing arrangement with THE OREGON FARMER whereby any farmer or fruitgrower, who is one of our regular subscribers and who is not now a subscriber to THE OREGON FARMER, will be entitled to receive THE OREGON FARMER in combination with this paper at the same rate as for this paper alone.

This offer applies to all those who renew or extend their subscriptions as well as to all new subscribers. If you are interested directly or indirectly in Oregon agriculture, do not miss this unusual opportunity, but send your order in now.

THE OREGON FARMER is the one farm paper which is devoting itself exclusively to the farming activities and interests of Oregon. It has a big organization gathering the news of importance to farmers, dairymen, fruitgrowers, stockraisers and poultrymen; and it has the backbone to attack wrongful methods and combinations and bad legislation, and support honest leaders and beneficial measures. We are confident that our readers will congratulate us on our being able to make this splendid and attractive clubbing offer.

Table with 2 columns: Publication Name and Price. Rows include 'TILLAMOOK HEADLIGHT, 1 yr \$1.50', 'OREGON FARMER, 1 year - \$1.00', 'By Our Clubbing arrangement, both for . . . . . \$1.50'.
