THE TILLAMOOK HEADLIGHT. F. C. BAKER, Publisher.

Editorial Snap Shots.

Now will you be good? The Kaiser made a threat that he was going to make it tropical for the United States greatly appreciate.

What a contrast in weather. The daily newspapers report tropical weather east of the Coast range, while in Tillamook the weather is cool and in the evening a fire is

Auto travel into Tillamook the past few weeks have been exceedingly heavy, which goes to prove how popular the county is with those who are looking for ideal weather and good roads. It used to be that "tin lizzies" predominated, but large cars from all over the state, as well as from other states, are to be seen every day.

The snap shot man is wondering

cat out of the bag. But it shows distinctly how Germany had it figured out to whip the United States. This is how it was to be done: After whipping France and England, the whole of the British fleet was to be turned over to Germany and this fleet with the German fleet was to come to the United States and demand a big in-

hearts hope that that country will see that nobody sets out fire in their a heavy growth of fir trees and today come out victorious in the present devicinity to jcopardize theirs and other a piece of cut-over land, suitable for States government has been exceedingly lenient in not gathering that class up and placing them in detention camps, to be sent out of the country after the war is over. But ing the timber from fire, and we want when people come here from other to impress this matter of fire protecwhen people come here from other countries to impress this matter of hire protection of the protection of the United States, and are in sympathy with another country in which this country is at war, they should be deprived of their citizenship, and sent back to the trict attorney immediately and proscitizenship and sent back to the trief attorney immediately and pros-countries they came from.

The sheriff is quite justified asking that a deputy sheriff be appointed to run down auto speeders, for the lives of our citizens are endangered by reckless driving over the county roads. This county has been exceedingly patient but speeders have become so numerous and so daring it is time to "pinch" them for reckless driving. Although some of our own people are guilty of speeding, the biggest and most numerous sinners are people who have come into this county for a summer outing, and directly they hit some of our good roads they appear to think that they During the heavy summer travel into

Everybody in Tillamook County should visit the Tillamook County fair this year, because it is a local in-dustry and a good place for people from all parts of the county to get together for a few days enjoyment, well as see the great improvements that have been made in bringing blooded stock into the county. Holstein men will be there, boosting for that breed of cattle and contending that Holstein milk is the best for se making. The Jersey breeders will be there with their cattle, and, ous other attractions at the fair be-sides blooded cattle, but this is one feature of the fair that will interest

For the information of those who are interested in the five miles of hard surfaced road to be built on the Till hook-Cloverdale road, the material to be used is Standard bitulithic This calls for a six inch base of crushed rock and two inches of surfacing, 16 feet wide. In addition the road will have 2 feet of crushed rock shoulders and two feet of earth shoulders on either side, making the road bed 24 feet wide. This is one of the best patented pavements on the market, if put down according to

specifications of the Warren Bros. give the people what they voted for. This new stretch of hard surfaced pavement will be a valuable addition

What's the matter with the Port-land Live Stock Reporter? Though only a little over 50 miles in a direct Vernon district in Washington where

the county every day and he can't successful methods of the dairymen be a considerable increase as the pro-"soak" them for 50c. each. We will of Tillamook county, and have induc-"soak" them for 50c. each. We will bet dollars to dough nuts that he is cussing the new free for all highway into Tillamook County. Better put a fence around the old toll gate and decicate it as a grave yard for that an iquated method of road building and graft.

Ex-Ambassador Gerard has let the eat out of the bag. But it shows dissipation of the spirit to say one word about Tilla
Ex-Ambassador Gerard has let the eat out of the bag. But it shows dissipation to spirit to say one word about Tilla
to Tillamook county, and have induction last year for the entire state was but one and one half million pounds, while it is planned to make over two million pounds this year."

"Weather conditions in the West are favorable toward the making of a softer cheese and cheese makers to over two million pounds this year."

"Weather conditions in the West are favorable toward the making of a softer cheese and cheese makers to over two million pounds this year."

"Weather conditions in the West are favorable toward the making of a softer cheese and cheese makers to over two million pounds this year."

"Weather conditions in the West are favorable toward the making of a softer cheese and cheese makers to over two million pounds this year."

"Weather conditions in the West are favorable toward the making of a softer cheese and cheese makers to solve two million pounds. The way are favorable toward the making of a softer cheese and cheese makers to over two million pounds. The way are favorable toward the making of a softer cheese and cheese makers to over two million pounds. The way are favorable toward the making of a softer cheese and cheese makers to solve two million pounds. The way are favorable toward the making of a softer cheese and cheese makers to solve two million pounds. The way are solve two million pounds this planted to make over two million pounds. The way are solve two million pounds. The way are solve two million pounds the solve two million pounds. The way are solve two million pounds the solve two million po spirit to say one word about Tilla-mook cheese in its market reports, and this we want to imprass upon the also makes a considerable difference

> the East for a few days its going the no easy matter to prevent fortter than most people realize, and it this season of the year.

One thing is very noticeable in What a sorry plight America un-road building in Tillamook county, prepared would have been in to face can drive at a furious pace over them, cutting around corners in a reckless manner. We hope the motor cycle deputy sheriff will "pinch" a big raft of them, for by doing so it will prevent accidents and loss of life of innocent persons.

During the heavy summer travel into the county some of the roads are being torn up and improved. Take for illustration the Three River road. It is not our intention to cast any reflections on the County Court, but it seems to us that many of these roads. seems to us that many of these road improvements could be finished before the summer travel is on, if the court would start in earlier with its ging the county bond money, and from the road things, food, feed and firel, and it makes official, in the face of the billfund. This makes nearly \$600,000 to be expended on road work in this county next year, not taking into consideration federal and state aid, We contend that now is the time to map out where this money is to be expended and not wait until next expended and not wait until plans of course, will point out the merits of that breed. The new Guernsey Breeders' Association will make a good showing, for dairymen of this county are buying this breed most readily and some valuable animals so as to give contractors plenty of readily and some valuable animals as as to give contractors plenty of have been added to the dairy herds. The fair will be interesting to every dairyman of the county, for, after all the financial success of the dairy business is in having the best producing animals. The dairymen who keep scrub cows and does not know what amount of milk they produce the force next summer's travenue. what amount of milk they produce every day, should go to the fair this year and get their eyes open about blooded stock. There will be numerompleted before next summer's travvocate, and every section of the county should help to impress this upon the County Court and not wait not now long endure. Prices on a until next spring before a move is number of commodities will go down until next spring before a move is number of commodities will go down made to expend that large amount of to a reasonable level as soon as man For the information of those who to induce the county court to plan out whether they will do the reducing

We have received a copy of a Wisto the county, and, in our judgment, far superior and more economical than concrete. It is only a question of time when some of the concrete roads in this county will have to be covered, which will greatly add dustry. There is nothing very edifyto the cost of construction. To those ing or instructive in the report, for it who contend for a concrete base, it simply relates to what most of us have is estimated that this would cost now known in this county for many years. in the neighborhood of \$3,00 a square Like most government officials who yard. When the five miles of bitu-lithic pavement is finished, the peo-eting trips, they amount to very litple of the South part of the county will soon be convinced that it is far more preferable than concrete, and the snap shot man is glad that it is bitulithic and not cement. People who have to travel over the Tilla-wrote the report, but he may be the mook-Cloverdale road summer and winter, and in all kinds of weather, will have the benefit of this improvement next winter, which they will the report to show that the matter referred to simply refers to whate we all know:

line west from Portland, the Live dairying has been practical for a Stock Reporter of that city evidently number of years, the land is pretty is not aware that Tillamook is the rich and the farmers are making ioneer cheese producing county of money. Coos and Curry counties are the state, for in its market reports it never mentions the price of Tillamook cheese and always mentions the price of Coos and Curry cheese. This is how the market report is "fixed:"

"The state, for in its market reports it noney, coos and curry countries are planning to market two and one half million pounds of cheese this year, while in Tillamook county they plan to market four and one half million pounds of cheese. The total production for the state of Oregon will be in the state of Oreg "fixed:"
"Cheese—Full cream, twins and triplets, buying price, 22c; Young Americas, 23c.; Coos and Curry twins and triplets, f. o. b. Myrtle Point, 211/4c.; longhorns, 221/4c; Young Americas 221/4c."

Iton for the state of Oregon will be in the neighborhood of nine million pounds, a gain of a half of million pounds over last year. New factories and increased production, the latter made possible through the instruction offered by the Bureau of Animal Inhow the toll road man at Dolph feels with hundreds of autos coming into the county every day and he can't successful methods of the dairymen be a considerable increase as the pro-

Do your bit to prevent forest fires quarter of mile in width, just the United States and demand a big indemnity. Which all goes to prove that there are big fools in Germany and the time is long passed when the chip should be knocked off Germany's shoulder. And it will be.

There is no denying the fact that the United States is honeycombed with persons who are in sympathy with Germany, and down in their hearts hope that that country will see that nobody sets out fire in their land is very productive. The mountains are alson, are unproductive. In the early days these valleys were covered with a heavy growth of fir trees and today.

The Real Kaiser

America is in the war and will not have to reckon single-handed with do a great deal of damage by setting out fire, burning up other people's property, or campers or hunters leaving fires burning, so it is wise to use the utmost precaution and keep a close watch, for should the wind turn dertake the job alone. We have wisely chosen the first alternative.

The supreme service rendered to the American people by Mr. Gerard is in his authoritative and convincing or that reason don't let us close our exposition of the actual German not only now our enemy but he has

without an ally a victorious and re-lentless Kaiser.—Oregonian.

An End of Unreasonable War Prof-

With the signature of the president today the food control bill, safe at last in harbor after a long and perilous court would start in earner with its road work. This is what we hope the County Court will do from now on, for next year will be an important year for road building in Tillamook county. It is known now that the county Court will have \$375,000 of the government power to regulate the county will have \$375,000 of the government power to regulate the county will have \$375,000 of the government power to regulate the county will have \$375,000 of the government power to regulate the county will have \$375,000 of the government power to regulate the county will have \$375,000 of the government power to regulate the county will have \$375,000 of the government power to regulate the county will be an important year for road building in Tillamook the government power to regulate the government power to require the government powe voyage through the rough waters of sale and distribution of, among other ingsgate of Senator Reed, the position of Mr. Hoover as supervisor of the national food situation. In 30 days the new law will make it illegal wine and beer.

It took congress so long to make up ts mind about the bill that pending its passage there has been a great scramble for war profits while the profiteering was good. "Unconscionable profits" is how one government official styles recent margins of gain. It was certain that sooner or later price control would be a fact, and with that knowledge in mind the food and fuel men got what they could while they could.

But we have a governmental assurance that this sort of enterprise will

THE TILLAMOOK HEADLIGHT

Makes Clubbing Arrangement With

The Oregon Farmer

Offers Unusual Opportunity to Its Readers

MONG our large circle of readers there are a great many who are interested directly or indirectly in fruit growing, dairying and other branches of farming. All of these naturally wish to keep in close touch with agricultural activities throughout the state; and to know about any fight which is being waged for the measures Oregon farmers want and against all sorts of schemes that are detrimental to the people and agricultural interests of this state.

We have, therefore, made a special clubbing arrangement with THE OREGON FAR-MER whereby any farmer or fruitgrower, who is one of our regular subscribers and who is not now a subscriber to THE OREGON FARMER, will be entitled to receive THE OREGON FARMER in combination with this paper at the same rate as for this paper

This offer applies to all those who renew or extend their subscriptions as well as to all new subscribers. If you are interested directly or indirectly in Oregon agriculture, do not miss this unusual opportunity, but send your order in now.

THE OREGON FARMER is the one farm paper which is devoting itself exclusively to the farming activities and interests of Oregon. It has a big organization gathering the news of importance to farmers, dairymen, fruitgrowers, stockraisers and poultrymen; and it has the backbone to attack wrongful methods and combinations and bad legislation, and support honest leaders and beneficial measures. We are confident that our readers will congratulate us on our being able to make this splendid and attractive clubbing offer.

A SAFE TEST.

For those who are in need of a remedy for kidney troubles and backremedy for kidney troubles and back-ache, it is a good plan to try Doan's Kidney Pills. They are strongly re-commended by McMinnville people. Arthur Branson, 339 B Street, No. McMinnville, Ore., says: "About six or eight years ago, I had rheumatic pains in my back and legs so bad that I wasn't able to do my work. At times, it was all I could do to get around. Sharp, shooting pains caught me in the small of my back and for a minute I could hardly move. When I got down to do anything it was all could do to straighten up as my back felt so weak and stiff. After taken six or eight boxes of Doan's Kidney Pills I was cured. Since then I haven't had any rheumatic pains and my kidneys have been as strong as ever.

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Branson had. Foster-Milburn Co. Props., Buffalo, N. Y.

Notice of Final Account.

Notice is hereby given that the un-dersigned has filed his final account at administrator of the estate of Leone Dutton Morrow, deceased, with the County Clerk of Tillamook County, Oregon, and that the County Court of said County has appointed Saturday, September 1st, 1917, at the County Court room at the Court House, Tillamook City, Oregon, at the hour of 10 o'clock in the forenoon as the time and place for hearing obections to said account and the settlement thereof.

Dated Aug, 2, 1917. H. T. Botts, Administrator of the Estate of Leone Dutton Morrow, Deceased.
