THE TILLAMOOK HEADLIGHT. F. C. BAKER, Publisher.

Editorial Snap Shots.

You don't have to believe it, but Tillamook hogs get on a jag after drinking whey that have fermented. We hope the boozers who drink all kinds of rot won't get in the habit of imbibing whey with the kick in it.

We are getting awful tired receiving so much advice from Washington on how to win the war. It might help some if those fellows who are holding down easy jobs at Washington were drafted into the army.

The lumberman who wanted state road building stopped are, we suppose the same old mossback timbermen who have been bellyaching of late years, endeavoring to stop the growth and progress of the State of

The 10th Company Coast Artillery, is in need of 20 more men to bring the local company up to full strength and 20 young men of Tillamook County should volunteer their service es and join the home company. Next month the government will make the second draft and this time Tillamook County will be included, so why not join the home company.

No one has claimed the 30 quart bottles of whiskey which prosecuting Attorney T. H. Goyne found in the out houses of the Allen House a few weeks ago. The sheriff's office is guarding and taking as much care of the tangle foot as though it was gold dust, having it locked up in the vault, and not even a newspaper man can get a smell of a cork. It is suggested that the county official may be keeping it for Christmas.

All pro-Germans who are holding public office should be politely told to resign, and all pro-Germans who have borrowed money from either the federal or state governments should be compelled to refund the money forthwith. There are persons in this country who have availed themselves of many privileges offered by the gov-ernment and the state, but when it comes to assisting the government in buying a Liberty Bond they refuse to

This is one reason why people become prejudice against attorneys. A Eugene attorney took a case involving \$5504 in a life insurance policy, and he entered into an agreement that if he won the case he was to receive two-thirds of all money received. Having won the case he now wants \$3308 and is suing to obtain it. No one wants to deprive attorneys of a fair amount of compensation for their services, but there are too many "getrich-quick" schemes in the legal pro-fession, and this one of them.

Brighton is entitled to a better road. The Brighton Mills Co. is paying \$20,000 a month in wages, and is entitled to a good deal of consideration when it comes down to road improvement, for it is industries that help to build up Tillamook County. The proposed special tax of 5 mills in road district No. 1, will help to give Brighton a better road, and as most of the road money in the county have been used on roads for the benefit of farming, no one should raise any objection if more of the road funds are used to benefit the industries of the

Court has failed to make any provis-ion for the completion of the Bay-ocean road in this year's budget, not should immediately reduce the taxes ruling of the umpires without demur, of Bayocean one-half. The property owners there are assessed altogether too high without a road or a way out and it is an injustice to Bayccean property owners to have to pay so high taxation without receiving any benefits. Bayocean appears to be pe-culiarly unfortunite. The Potter Realty Co., failed to live up to its promises and contracts with those who invested in property, and the company to a very large extent is responsible situation, for it has failed to live up to its agreement to start building road on the Bayocean property that is to connect with the county road, and pay its taxes, which it should have done in good faith. This is probably why the county court have delayed the completion of the road, but i is hardly right to punish the individual property owners for the sins and short comings of the Potter Realty Co. Added to this was the repeated delay in building the road to Bayocean. There is just two things for the county to do. Complete the road as soon as possible or reduce the taxes in Bayocean one-half.. We are quite aware that the County Court had to divert as much money as possible in road district No. 2 to meet the county's part of the expense of the five miles of hard surface road being built by the State Highway Commission, owing to the technicality in the county road bond petition. and that it took a whole lot of figuring and cutting down work in other part of the district, to meet this extra expense. But the court should give some assurance, if the bond-measure is re-submitted and is carried, that the road will be completed to Bayocean says she can get along without it,"

try is now located on the road, that of the ship building plant, and it will not be long before others follow as

Regarding Special Taxes.

The new 1917 law regarding taxes under Section 3664, provides; that it shall be the duty of every school discity, and of each public corporation the ensuing year for Tillamook Counauthorized to levy a tax, to notify, in ty. Oregon. writing, the county assessor and counfirst day of December of each year, for other purposes, and shall remain a part of the records of their respective offices; provided, however, that the county assessor may, if a good and sufficient reason exists therefor, and if application be made to him is writing, make a reasonable extension of the time for the filing of the notice herein required by any school district, town, city, other public corporation authorized by law to levy a tax

Section 3665. All counties, cities, school districts, and other corporations which are vested with the power of levying taxes, shall make their total levy in dollars and cents, and not otherwise, and shall so report the levy to the county assessor and county clerk at the time and in the manner provided in Section 3664.

Girls And Soldiers.

A letter from a high army official t one of the big training camps says: "It is about time that people especially females) woke up to the fact that officers are down here for the very serious purpose of learning now to whip Germany, not for the purpose of adorning parlors at pink teas, or maintaining foolish correspondence with sentimental members of the feminine gender. A great many good men failed to get commissions at Fort Blank because their superiors noticed that they were paying more attention to girls than they were to army matters. The young lieutenants hould not be encouraged to bother about girls at this stage of the game. much more important

work on hand.
"Perhaps the greatest scandal in connection is the number of small girls still in their 'teens who are allowed to come here and visit, even at the hotels, with young officers, without so much as a pretense of chaperoning.

"The best service the woman folks can do for their country is to keep their silly daughters at home, and leave these men, officers and privates alone as they may keep their minds on the serious work of learning how to lick the kaiser."

The letter also scores the young married officers and their wives. many of whom have set up social establishments close by and are acting as though the whole thing is a splendid lark, with social prestige the chief achievement.'

This is a serious business. What wirl or young wife in her right mind wants to hamper a man in his work, hold him back from his promotion Yet that is exactly what they do. The place for the girls of the countr way from the army camps. Let them show their patriotism and affection There is no denying the fact that by making supplies at the Red Cross -supplies of which the loved ones may soon be in dire need. Let them write cheerful, chatty letters, with-out any slush to upset the emotions. And let them stay away from the

Americans as Bombers.

When it comes to bomb throwingvery different thing from bomb dropping-the Englishman beats the erman every time.

The man who has been well accustomed to shy a cricked ball straight and true to the wicket-keeper from the outfield makes no difficulty about It will be noticed that the County throwing so as to drop it nicely on its ourt has failed to make any provis-objective—there are thereabouts. In fact the discipline of the cricket field has exercised a wonderful influence one cent being set aside for that road. on the adaptability of our men. They That being the case, the County Court have been accustomed to accept the and they do so in the army.

But as a bomb thrower the American baseball player—and there will be thousands of them presently in France is likely to outshine the British ally The thrownig in baseball is an eyeopener even to seasoned cricketers. not only for its extreme sureness of direction, but for its amazing swiftness of flight and wonderful length.

Who Made the Kaiser.

Some people were made to be soldiers But the Irish were made to be cops. Sauerkraut was made for the Ger-

And spaghetti was made for the wops Fish were made to drink water, And bums were made to drink booze. Banks were made for money. And money was made for the Jews. Everything was made for something, Most everything but a miser-God made Wilson for president. But who in hell made the Kaiser?

Another Useless Organ.

A lady in Chicago had given her County Jail, etc outcher her daily order over the phone and a few minutes later de-cided to change it. On calling up the Corner fees and inquests ... outcher again she said: "You remember that I gave you an order for a pound of liver?

"Yes," he replied.
"Now I find that I will not need it, Health officer nd you need not send it.

"Take out Mrs. Blank's liver. She Fire Warden

> THE BUTTER AND CHEESE SITUATION.

The above lines are quoted from the Black and White record and were used as headline to the following arti-

'The total holdings of butter in 332 storage houses reporting show an crease for October 1 over September 1 of 3,354,098 pounds, according to a compilation made by the United Stat es Food Administration. However these houses show a loss of 3,064,602 ounds, as compared with the san late in 1916, or about three per cent. "The exports for butter for July ar August this year decreased 2,437,55 pounds as compared with the same month in 1916. The exports of cheese owever increased 3,224,694 pounds in these months.
"The average wholesale price

utter for September in the United States was 43.48 cents per pound while the average retail price was 50 cents. The regulated wholesale price in England was 53.76 cents per pound.
"The average wholesale price of cheese in the United States during September was 25.78 cents per pound and the average retail price 36.1 cents. In England the regulated wholesale price was 38 cents per pound."

In the above article there is much

food for thought, this is especially so to the dairymen who are depending on their income solely from the cheese industry. You will note that while the butter shipments decreased; the export of cheese increased, this of course can no doubt be attributed to the meat supply greatly diminishing in Europe and cheese being substitut-pound" while in the United States the wholesale price was 25.78 for September, and the retail price 36.1 cents per

> Why should there be such a wide difference in wholesale and retail price of cheese as compared to butter? Then again, why should a profit of 10.23 cents per pound be charged for the price of cheese between the wholesaler and consumer?

> Mr. Kuppenbender's article recent issue of the Headlight hat touched the right chord, which should meet with an immediate and ready re sponse from the cheese producersthe dairymen and factory directors of every dairy and factory in Tillamook County—by getting action on this business direct from the factory to consumer, thus saving the middlemen's profits as well as increasing the earning thereby to those that produce the article, this, it seems to me could be accomplished by a judicious advertising campaign for Tillamook cheese. Get your pencil to work and see what this would mean to Tillamook County in a very short time. Rollie W. Watson.

Announcement.

Mrs. Harley J. Curl has started a vocal class at the home of Mrs. E.

Mrs. Curl is a graduate of Professor Carson, of Portland. Any one desiring further particulars nay call at the home of Mrs. Emmett

Certain Cure for Croup. Mrs. Rose Middleton, of Greenville Ill., has had experience in the treatment of this disease. She says, "When my children were small my son had

Bales on Saturdays.

croup frequently. Chamberiain's Cough Remedy always broke up these attacks immediately, and I was never without it in the house. I have taken it myself for coughs and colds with good results." For Sale by Lamar's Drug Store.

A SAFE TEST.

For those who are in need of remedy for kidney troubles and backache, it is a good plan to try Doan's Kidney Pills. They are strongly re-commended by McMinnville people. Arthur Branson, 339 B Street., No. McMinnville, Ore., says: "About six or eight years ago, I had rheumatic pains in my back and legs so bad that I wasn't able to do my work. At times, it was all I could do to get 450.00 around. Sharp, shooting pains caught 500.00 me in the small of my back and for a minute I could hardly move. When I got down to do anything it was all could do to straighten up as my back felt so weak and stiff. After I had taken six or eight boxes of Doan's Kidney Pills I was cured. Since then I haven't had any rheumatic pains and my kidneys have been as strong Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Branson had. Foster-Milburn Co.
