Anyone can see that it is going to be many years before a hard surfaced road is completed from one end of the county to the other if the county is not bonded for \$400,000.

It is now only a few weeks to the new year, so make your plans to grow more garden truck next year. The best way to conserve food is to grow more of it. Everybody in Tillamook county should raise a big whooping garden next year.

With all food stuffs at outrageous prices, brough about by speculators, we do not see any good reason for prohibiting people from hunting and fishermen, and fishermen without be-ing restricted. The people need the food, and fish and game make good

After weeks of anxious waiting the Red Cross was finally organized this week in this city. Better late than never, but it was no fault of the ladies that it was delayed. The ladies are now going to do their bit and we hope it will be a permanent organization after the war, for there is much to be done to stamp out tuberculosis in this country. We wish the new organization success.

If the present beautiful fine weather continues, the farmers will have hay to dispose of to those who are holding hay. The mild weather this fall have given a whole lot of green feed, and very little hay has been used thus far, which is a great contrast to last year. Thousands of dollars are being saved every week and Old Sol have done something to Hooverize cow feed in Tillamook county.

Declaring that when the farmers can't hire men to dig potatoes and dozens of able-bodied "loafers" sit dozens of able-bodied "loafers" sit and play cards all day, it is time some action was taken, Sheriff A. S. Robertson has ordered all card tables removed from sakoons, clubs and pool halls in Livingston, Mont. legging going on in this county and the violators of the prohibition law should be rounded up and made to pay for their unlawful acts. It was bootlegging that brought the local contion law into disrepute and it seems tends that its secondary right is intended to the continuous continuo oring to bring the prohibition law in-to disrepute. That considerable bootlegging is going on all over Oregot is proven by the large number of prosecutions. When men can make a profit of \$5.00 or more out of a bottle of whiskey it is safe to say that there are men who will take the risk instead of earning a living in some ligitimate manner.

The speaker at the city hall last week took a fling at those who attended the movies that evening. He said that place of amusement should be closed when patriotic meetings were being held. We want to say this, which, probably, never entered the speaker's mind. Those who attend the movies are helping to pay the cost of the war and whenever the Stars and Stripes appear on the screen or the orchestra plays "The Star Spangled Banner," which is now often done, here is a spontaneous outburst of patriotism. And another thing, when money was needed for the company fund and the Honor Guard neede money, it was the management and those who attend the movies who helped out. It is safe to say that the gentleman who was sent here in behalf of the Y. M. C. A. drive had all his expenses paid and was drawing a nice salary out of the Y. M. C. A. Funds. And still another point we wish to refer to, Messrs Partridge and Morrison have registered and are lia-ble to be drafted when the next call is made to defend their country.

Dr. Boyd, of Portland, is wanting churches in small towns to Hooverize It is a wise suggestion, but suppose the different Protestant denominations did get together and all worship under one roof, there is no assurance that in a few years other new fangled churches will not spring up and there will be as many different religious denominations. People who religious denominations. People who hold strong religious prejudices are hard to Hooverize, especially, those who claim that their church is the only way by which one can reach heaven. Take Tillamook City for an illustration, the building of so many churches it is true have furnished an haveness of seating accommodation. abundance of seating accommodation for those who attend places of wor-ship, but the sparce congregations and the empty pews is the cause of much discouragement, not only to those who have labored hard to build up a large congregation, but to those who attend church and are not mem-bers as well. Without attempting to Hooverize all the Protestant churches of this city at one lick, why not start on one at a time? There was never any real need of building the U. B. church in this city, and to start in to do a little Hooverizing, we would suggest that the members of that church affiliate with the M. E. church. That will save the expense of running

one church. So here is a chance to cut out waste in church work.
