County Clerk Harrison has received a letter from Carl D. Shoemaker, State Game Warden, in answer to an inquiry about fishing in the Trask river which says: "A stream not open to commercial fishing is closed to abutting land owners to fish under the law passed by the last legislature under a consumers' license. The Trask is closed under an order by the Board of Fish and Game Commissioners, therefore a consumers' license cannot be issued to fish therein."

About 30 anti-Hooverites broke into ex-Sheriff Crenshaw's residence before it was light on Sunday morning and commenced cooking a big breakfast before Mr. and Mrs. Crenshaw had got through their night's sleep. They were aroused by the piano playing and coming down stairs the anti-Hooverites made the ex-Sheriff make hot biscuits. Pete Lamar was the first to start in on the biscuits and continued to do so after all the others had quit eating. Henry has got it in for the anti-Hooverites.
There was a meeting of the executive board of the Tillamook Red Cross when arrangements were made to organize the county for Red Cross work. A Very Unique and Interesting Sale to be Held at the Haltom Store Saturday.
Mr. Langhorne, who is conducting the big successful sale at Haltom's says that on next Saturday he is going to give the people of Tillamook and surrounding country the most unique and interesting one day sale they have ever had the pleasure of attending. One special feature will be the enclosing of the balcony and the space underneath the balcony. In these departments he will place some wonderful bargains, which may be secured by those who get tickets of admission. Tickets will be given out Saturday morning beginning at 9:55 to everyone entering the store.

New Tillamook Line is Pushed Into Timber.
Forest Grove, Or., Nov. 23.—The grading on the new road between Wilksboro, on the northern part of Washington county, and Tillamook, was finished yesterday on the first 10 miles. The steam shovel is now about midway on the finished grade. Ties and rails will be laid on the section of the road now completed, the big shovel will be put on the rails, and another mile will then be graded and completed. This will let the new road into the timber belt and logging will begin immediately.
A cut made on the Perkins place about three-quarters of a mile long, cost \$75,000. There will be a grade of only 2 per cent from Wilksboro to Tillamook, with no tunnels. This will be one of the best built railroads in Oregon when completed.

Tillamook County Congratulated.
Editor of The Headlight, Tillamook, Oregon.
My Dear Sir:—In behalf of the National War Work Council I wish to express to you my appreciation of the generous use of your columns in behalf of the Army Y. M. C. A. campaign. We feel that a very large part of the credit for making this campaign a success in your district is due to the hearty support which you have given the movement. As was the case with the Red Cross and the Liberty Loan Campaigns, Oregon has again practically doubled her quota. I congratulate you and your district upon the very fine showing made.
Again thanking you for your cooperation, I remain,
Very truly yours,
O. W. Davidson,
State Campaign Mgr.

Loyal Legion of Loggers and Lumbermen.
Portland, Or. Nov. 25.—Under authority of the Secretary of War, a campaign will begin tomorrow to enlist every loyal member of forest industry in the Pacific Northwest in support of the Government's war program through hastening airplane and ship construction. An organization known as the Loyal Legion of Loggers and Lumbermen has been established by the War Department, members of which pledge their cooperation for the duration of the war and wear a government badge signifying that this patriotic service to their country has been officially accepted. It is to include all men engaged in logging and mill work. A large force of army officers has been detailed by Col. Brice P. Disque, of the U. S. Signal Corps, with headquarters in Portland, to visit camps and mills for the purpose of explaining the urgent need of such cooperation and personally receiving the membership pledges.
The Loyal Legion of Loggers and Lumbermen is promoted entirely by the Government itself, through the War Department. Its primary purpose is to impress upon all woods and mill workers and operators that in their present occupation they are performing patriotic service of great urgency and that the Government appreciates this exactly as it does military service. The Government badge of the Legion will be evidence that the wearer is doing his bit for his country in the way he can help it most. His liberty and his employment relations are in no way restricted, for he merely promises the Government his best effort personally to get out the material which has become of such tremendous importance.
"In short," Col Disque explains, "it gives the loyal worker the opportunity he desires to enlist as a

organized part of the Nation's defense in this time of need, while on the other hand it will tell the Government just whom it can count on. In return the government is afforded an opportunity to show its appreciation, not only now but on any occasion which may arise. It will have an intimate interest in the welfare of members of the Loyal Legion."
In the official communication from the Secretary of War establishing this unique organization in the Pacific Northwest, which is likely to receive prominence from the spread of the movement to other regions and possibly other industries, Secretary Baker telegraphs Colonel Disque:
"I am convinced the organization will prove a great asset to the Government in the successful prosecution of the war, particularly in increasing the needed production of spruce and fir lumber so vitally required at this time and so necessary to the carrying out of the army program for the 1918 offensive."
Newton D. Baker

The pledge required of members of the Legion is:
"In consideration of my being made a member of the Loyal Legion of Loggers and Lumbermen, I do hereby solemnly pledge my efforts during this war to the United States of America, and will support and defend this Country against enemies, both foreign and domestic."
"I further agree, by these presents, faithfully to do my duty toward this Country by directing my efforts every working day possible to the production of logs and lumber for the construction of Army Airplanes and Ships to be used against our common enemies. That I will stand up any sedition or acts of hostility against the United States Government which may come within my knowledge, and I will do every act and thing which will in general aid in carrying this war to a successful conclusion."
A button for members if being issued temporarily, to be replaced by a bronze badge now being manufactured by the Government, showing, between two trees, an airplane hovering over a ship at sea, being symbolic of the forest supply and its two urgent war uses. It bears the initial of the Legion and the authorization of the Secretary of War, also the device of a crossed saw and ax between the letters U. S.
Another high authority greatly interested in the organization is Chairman Howard E. Coffin of the Aircraft Production Board, who is largely responsible to the Government for the success of its entire aircraft construction program. He has wired Colonel Disque:
"It should bring home to the people of Washington and Oregon the realization that every blow struck by an ax in getting out aircraft materials is not less a blow at the enemies of our country and of democracy that a bayonet thrust on the fighting front. The patriotism of the men who go into the woods in the aircraft service is above approach and the value of the service which they are rendering of the most national vital importance."

Announcement.
Mrs. Harley J. Curl has started a vocal class at the home of Mrs. E. Bales.
Mrs. Curl is a graduate of Professor Carson, of Portland.
Any one desiring further particulars may call at the home of Mrs. Emmett Bales on Saturdays.

Ford Offers 12,000 Tractors to France
Henry Ford informed friends at the Detroit Athletic Club in Detroit the other day that he had just notified France that that country could have 12,000 Ford tractors. He is now working on from 6000 to 7000 for England, and all of these will have to be delivered before America's demand is met.
Ford said that all the tractors were being fitted to create their own light for night work. The other night a test was made with one of them, and it plowed an acre in 65 minutes.
