"Miss U. S. Is Proud of Tillamook and Oregon
Dear Mr. Baker.—Again I am asking you once more to change the address on my paper, I trust this may be the last time for a while, I realize it is putting you to a great deal of trouble, but I enjoy getting the news from home so much, that I certainly would miss the Headlight if I could not get it. I have been noting with great pride the untiring efforts the people of Tillamook County have put forth in the Liberty Bond, Red Cross and Y. M. C. A. drives, and no little credit is due the Headlight, for it has played its part well. It is great sport to hear the fellows discuss which state or city is making the biggest and best results in these different drives, as each is strong for his state or town [at they generally end up by saying "You'll have to hand it to Oregon, for she has not been beaten in anything yet," and that makes me feel glad that I may count myself as one from Oregon. May she always uphold that record is all I have to say. Thanking you for your kindness in this matter, and beg to remain loyal to the last, sincerely,
G. W. Stiverson.

DISTRICT ATTORNEY SUED.
For Destroying Cider, Plaintiff Claiming \$2,525.00 Damages.
Claude Meinecke and Phillip S. Seabrook, doing business under the name and style of Meinecke & Seabrook vs. J. H. Goyne, is a suit filed in the circuit court growing out of a seizure and destruction of cider. The complaint alleges that the plaintiffs were engaged in the manufacture and sale of sweet apple cider and apple cider vinegar, their place of business being Willamina, Oregon, and that on or about the 16th of October, 1917, the plaintiffs were the owners of and entitled to the possession of a certain amount of sweet apple cider, viz., 210 gallons and caused the same to be shipped to Tillamook. The cider was consigned to Claude Meinecke at Tillamook, it reached its place of destination on the 17th of October, 1917, where it was placed in a warehouse of the railroad company that conveyed it, and the defendant wilfully and lawfully seized, took possession of and converted the same to his own use and destroyed the same by pouring same out and causing it to run in the streets of Tillamook. That at all times plaintiffs were the owners of the cider and entitled to the full possession, the value of which was \$73.50. Because of this wrongful act of the defendant, and because of the wilful and wanton destruction of plaintiffs' property, plaintiffs were deterred from selling a great lot of cider in Tillamook and other places, and were unable to fill large orders for sweet cider and vinegar which they otherwise could have filled. That plaintiffs' business, name and reputation have been damaged because of the alleged wrongful act and abuse of authority on the part of the defendant, and plaintiffs have been put to great expense and trouble because of the acts of the defendant and that the sum of \$2,250.00 is a reasonable sum to be allowed plaintiffs as special compensation for the damages alleged.
District Attorney T. H. Goyne was somewhat surprised to be sued by these parties, for instead of destroying the cider, he could have brought suit against the parties, who, however put up a pitiful hard luck story that he took a charitable view of the case, and did not do so, and the parties even thanked him for letting them off so easy. The district attorney is not worried for he has affidavits that put quite a different complexion on the case.

Mrs. C. J. Edwards, Crairman, Red Cross, Tillamook County, says: "In some places in the county the Red Cross sewing chairmen are being criticised for enforcing rigid laws regarding the sewing, such as basting, etc. The sewing chairmen are working under direct laws from the superior chapter and they are compelled to enforce these laws. They have no choice in the matter. The National Red Cross have to make laws under which all classes of people can work and produce good results. They have to provide for unskilled labor which is willingly offered as well as skilled.
"I appeal to the women of Tillamook county to obey the laws gladly, and in every way possible advance the work for our organization. While we waste our time and energy quarreling and fault finding, the enemy are killing our boys and winning the war."
