Smoke becomes costly. This is an interesting paragraph sent out by the government. "Plans and contracts are completed for two smokeless powder plants, each to cost approximately \$50,000,000. The estimated capacity of each is 500,000 pounds of powder a day, and from 10,000 to 15,000 men will be employed at each plant. The initial output of each factory is expected not later than next August. Much of the product will be available for the allied nations."
