

TWO RECEIVERS NAMED FOR BAYOCEAN PROPERTY.

S. B. Vincent Resigns as Receiver Because of Dissatisfaction.

At the request of the owners of lots in the Bayocean project, promoted by the T. B. Potter Realty Company, Circuit Judge Gatens Saturday appointed L. E. Latourette, Assistant City Attorney, and Professor Robert R. Steel as receivers for the company. They have power to name a third man to act with them. Appointment of Mr. Latourette and Professor Steel came following the resignation of S. B. Vincent because of complaint regarding his management of the corporation's affairs during the two years incumbency as receiver.

At the same time Judge Gatens was advised that the lot owners wish immediate action taken to resist the foreclosure by Mrs. T. B. Potter, widow of the late head of the Potter Realty Company, of the \$173,000 mortgage which she holds against the Bayocean property. A motion to foreclose this mortgage is now before the Federal Court.

These results summarize a session before Judge Gatens which lasted all Saturday morning and which was attended by 100 or more men and women who own or partly own lots in the Bayocean project.

The matter did not come before Judge Gatens as a legal proceeding, but was simply a general meeting called by Judge Gatens, who had appointed Mr. Vincent receiver, to allow the lot owners to air their grievances in general.

Word had come to Judge Gatens that the lot owners were dissatisfied with the manner in which Mr. Vincent was administering the receivership, mainly because, as they asserted, the company's were in no whit changed from the statutes in which Mr. Vincent found them two years ago.

The lot owners informed Judge Gatens Saturday that the first move they wish the new receivers to make is in the nature of steps looking to the building of a road into Bayocean at a cost of \$50,000. They represented that none of the improvements promised by the Potter company when it floated its supposedly \$250,000 Bayocean enterprise and which they were told would materially increase the value of their holdings, had been made, or ever even attempted.

Pioneer Citizen Passes Away.

People were surprised and pained to hear of the passing of one of the old time residents of our little valley; Richard Allen. He passed away quietly Saturday, March 9, after an illness of five days.

The funeral took place Sunday, March 10, at two o'clock and the remains were interred in the Gist cemetery. Dr. Montgomery conducting the services.

Mr. Allen was born at London, England, February 24, 1845, coming to the United States in 1862, in 1870 he was married to Miss Lucy Compton and they came to the Nestucca Valley in 1881.

To this union there were born four children, Bertha, Alice, Richard and Guy, of these Alice and Guy preceded their father to the Great Beyond. Mr. Allen was greatly respected by all who knew him and his wife and relatives have the deepest sympathy of the entire neighborhood.—Courier.

Obituary.

Mr. John W. Hopfield who died on February 6, 1918, at the Sister's Hospital, Sacramento, Cal., was born in Fountain, Juneau Co., Wisconsin, May 27th, 1871. He was married to Eva May Myers, March 9, 1902, at Grants Pass, Oregon. They lived for three years in the Willamette Valley and for ten years at Tillamook, Oregon, and went to Natoma, California, in 1916 where Mr. Hopfield was in the employ of his brother Lewis D. Hopfield until the time of death.

Baker's Busy Body.

There is a Commercial Club in Baker, and during 1917 it certainly was a busy body of business men. The Oregon Voter says we have before us the report of Secretary Meacham, and the activities he outlines as having been undertaken and accomplished by the club are sufficient in number and importance to have been performed by a club in a city of 100,000. Space limitations forbid quoting much from the report, but there are two activities which concern every part of the state and we mention them.

One is what the Baker Commercial Club accomplished in getting the law amended to re-apportion the Oregon county receipts from the National Forests. We recently published a table showing how \$69,000 of forest receipts were diverted from counties which otherwise would have received them and were paid to counties which previously had been underpaid under the former system of disbursement. Baker County gained \$10,000 of this \$69,000. The move for amending the law was undertaken by the Baker Commercial Club, and its success is an example of how an enterprising commercial body can get definite returns for its community.

Everybody in Oregon is interested in through roads. There is need for road improvement to connect the fertile Pine and Eagle Valleys of Eastern Baker County with the main highway at Baker. The Baker Commercial Club undertook to raise \$25,000 of local funds for this important road, \$15,000 of it by private subscription, and on the strength of this the state highway commission has agreed to expend \$70,000 additional on the road. The road is one which should be improved by the state, but it would not have been taken up as a state project were it not for the courage of the Baker Commercial Club in undertaking the raising of part of the funds.

At the conclusion of this report, Secretary Meacham appends a list of his happy lines of appeal, which should serve as inspiration of citizens of any community.

Don't sit sumpily on your roost, But come along and help us boost. For better things of every kind, And leave your kickin' clothes behind. Oh, let us boost for better streets, For skads of grain and juicy meats, For greener lawns and better lights, And shorter winded blatherkites. For finer homes and larger trees, And sheep and butter fruit and cheese For better work and better pay, And fewer thistles in our hay, For better men and better roads, And larger trucks to haul our loads, And let the dogs of war be loosed, On every man who doesn't boost.

Big Fire Loss in National Forests.

Forest fires burned over 992,000 acres of National Forest lands in 1917 and caused a loss of \$1,358,000 to the Government in timber, forage, and young growth, according to figures received from Washington by District Forester George H. Cecil. While the loss was larger than for several years past, forestry officials say that, considering the unusually dangerous conditions, it was remarkably light. Protracted drouth and periods of high winds made the conditions they declare virtually the same as in 1910, when many persons were burned to death and 25 million dollars' worth of timber on the National Forests was destroyed.

In addition to this actual loss in timber and forage, the fires of last year entailed extra expenditures by the Government of \$1,121,415. This, it is pointed out, means that to hold the fires down large number of men have to be withdrawn from productive work and much money spent for supplies. At a time like the present, when it is necessary to practice the utmost economy as a war duty, the Forest Service officials are emphasizing the criminal wastefulness of forest fires that can be prevented from starting.

Of the 7,814 fires which were fought on the National Forests, all but 2,132 set by lightning were caused by human agencies and could have been prevented. There were 952 incendiary fires, which occurred for the most part in Oregon, California, and Arkansas. Careless campers were responsible for 1,288. Railroads, partly through failure to comply with the law and use proper spark arresters, set, 1,003. The remainder were caused by various forms of carelessness on the part of settlers and other users of the National Forests.

Effort is being made by the Forest Service to impress upon the public the necessity of keeping out of the woods, especially now that the country needs its man-power so badly for other purposes than fighting unnecessary fires. The campaign of education against carelessness and indifference which has been waged for years, through fire-warnings, posters, talks and lectures, "movies," and in other ways, it is asserted, will therefore be pressed with renewed energy the coming season.

Chamberlain's Cough Remedy a Favorite for Colds.

J. L. Easley, Macon, Ill., in speaking of Chamberlain's cough remedy says, "During the past fifteen years it has been my sister's favorite medicine for colds on the lungs. I myself have taken it a number of times when suffering with a cold and it always relieves me promptly."

Herbie Hoover.

(A piece to speak.)

Little Herbie Hoover's came to our house to stay, To make us scrape the dishes clean, An' keep the chumps away, An' learn us to make war bread, and' save up all the grease For the less we eat of butter, the sooner we'll have peace, An' all us other children, when our scanty meal is done, We gather up around the fire an' has the mostest fun A-listenin to the proteins that Herbie tells about, An' the Calories that get you

EF you don't watch out An 'tittle Herbie Hoover says, when the fire burns low, An' the vitamins are creepin' from the shadows, so' and slow, You better eat the things the food folks say they's plenty of. An' crate the garbage pail an' give all butcher's meat the shove, An' gabble up the corn pone an' vegetables an' fish, An save your drippin and yer sweets An' lick clean every dish, An' don't get fresh a talkin' of what you want to do without, Or the Calories'll get you

EF you don't watch out Oregon's Popular War Governor Seeks Re-Election.

If the people of Oregon are of the opinion that I have served them faithfully, I should be pleased to receive a vote of confidence at their hands. The Governor of the State has the car of the people. It is therefore in his power to assist in creating and maintaining a healthy public sentiment on the many subjects which make for community welfare. I have been mindful of this fact, have mingled with the people and have done all in my power to promote the development of the state, to bring about the construction of good roads, to emphasize the importance of education and especially to maintain at white heat the devotion of the people to the great cause of liberty and democracy for which the country is fighting. If re-elected I shall continue to do everything I can to accomplish these ends.

Oregon has given twenty thousand of her sons to the great world war. These men are the flower of our young manhood and we have no clearer duty than that of loyalty supporting them, providing for their health and comfort and safeguarding their morals. I shall continue to render them every service in my power. Under our form of government the conduct of a foreign war develops on the President of the United States, who is the commander-in-chief of the Army and Navy. I shall do everything in my power to assist the President in making the power of this country effective in the great world conflict. I shall particularly exercise every power and authority which I possess to promote a maximum efficiency in our local industries which are related to the war activities. No other duty is so pressing or at this time so important as that of winning the war. No sacrifice is too great if it looks to the triumph of the forces battling for international righteousness.

I shall stand in the future, as in the past, for rigid law enforcement and for a cleaner and greater Oregon. Oregon is firmly committed to the principles of prohibition and equal suffrage and, while they are no longer issues in the state, I shall continue to give these causes my full support. Every legitimate phase of state development should be supported, but at this time when our country is engaged in the most terrible war in the world's history the most rigid economy in state expenditure should be observed.

We have state problems of great magnitude to be worked out—for the increase of desirable population; for the encouragement and manufacturing enterprises; for the enlargement of flocks and herds of the best breeds; for the eradication of fruit pests and other destructive agencies in orchard and farm; for the general encouragement of productiveness in all lines of endeavor; for the careful, intelligent handling of the several state institutions and their wards, observing as far as possible the best lines of modern treatment while at the same time securing for these and for every department of state business the closest possible economy.

Domestic tranquility and business confidence are intimately related to the public welfare. I shall do all in my power to promote them. I note with pleasure the growing disposition of employers and employes to consider each other's rights and to adjust differences by discussion in a spirit of fairness and equity. The routine duties of the office will not be neglected by me, but every effort will be put forth to bring each branch of the state service to a condition of maximum usefulness. The efficiency of the service must never be sacrificed for the sake of political advantage.

I shall be mindful of the fact that I am the representative of the whole people and shall welcome suggestions from any citizen to the end that the

collective wisdom may be brought to bear on all problems.

If honored by a re-election I shall continue to give the best that is in me to every branch of the public service.

A MERCILESS JUDGE

One Who Shows No Favor.

A merciless judge is Father Time. Before him the weak and the wanting go to the wall. Only the truth can stand. For years the following statement from a Hillsboro resident has withstood the sternest of all tests. Wm. Wolf, W. Jefferson St. Hillsboro Ore, says: "I was laid up with my back and I could hardly get about. Hearing of Doan's Kidney Pills, I decided to give them a trial. The result was very satisfactory, for I received almost immediate relief and when I had finished one box, my back was all right. That was nearly a year ago and I haven't had a symptom of kidney trouble since." (Statement given September 23, 1911.)

On April 26, 1916, Mr. Wolf said: "I am ready to back up every word of my former statement about my experience with Doan's Kidney Pills. I take them when I need a kidney medicine and they always give splendid results."
