DAMP, CHANGING WEATHER Brings its Toll of Sickness to Tillamook People.

Chilly, damp, changing weather is hard on the kidneys. Even more irritating are colds, grip and pneumonia; They congest the kidneys; They bring backache and disordered kidney action.

For weak kidneys use a tested remedy. Residents of this locality recommend Doan's Kidney Pills.

Mrs. R. R. Myers, 470 Lexington Ave., Portland, Ore., says: "I caught a cold, it settled on my kidneys and from that time on I suffered awful pains in my back. Sometimes the pains were dull and steady, and then again sharp twinges would catch me in my back. I felt all out of sorts and that tired feeling never left me. Doan's Kidney Pills cured me and I have never had a symptom of kidney trouble since."

WHEAT CRISIS FORCES CHANGES IN RULES

Households, Eating Houses and Bakers Must Decrease Use of Wheat.

Urgent military necessities of the United States and the Allies has forced a more drastic restriction in the wheat conservation program. Coupled with an earnest appeal to all individuals, households, public eating places and bakers of bread and pastries for their co-operation and support, Herbert C. Hoover has issued a new set of rules designed to further reduce wheat consumption in this country until the next harvest.

These rules and Mr. Hoover's personal appeal are given out through Mr. W. B. Ayer, Federal Food Administrator for Oregon, in the following message:

"If we are to furnish the Allies with the necessary proportion of wheat to maintain their war bread from now until the next harvest (and this is a military necessity) we must reduce our monthly consumption to twenty-one million bushels a month as against our normal consumption of about forty-two million bushels or fifty per cent of our normal consumption, reserving a margin for distribution to the army and for special cases, leaving for general consumption approximately one and one-half pounds of wheat products weekly per person. Many of our consumers are dependent upon baker's bread. Such bread must be durable and therefore requires a larger proportion of wheat products than cereal breads baked in the home.

"The well-to-do in our population can make greater sacrifices in the consumption of wheat products than can the poor. In addition our population in the agricultural districts, where the substitute cereals are abundant, are more skilled in the preparation of breads from these other cereals than the crowded city and industrial populations. With improved transportation conditions we now have available a surplus of potatoes. We also have in the spring months a surplus of milk and we have ample corn and oats for human consumption. The drain on rye and barley as substitutes has already greatly exhausted the supply of these grains.

"To effect the needed saving of wheat we are wholly dependent upon the voluntary assistance of the American people and we ask that the following rules shall be observed:

First—Householders to use not to exceed a total of one and one-half pounds per week of wheat products per person. This means not more than one and three-fourths pounds of victory bread containing the required percentage of substitutes and about one-half pound of cooking flour, macaroni, crackers, pastry, pies, cakes, wheat breakfast cereals all combined.

Second—Public eating places and clubs to observe two wheatless days per week, Monday and Wednesday, as at present, and in addition thereto not to serve in the aggregate a total of more breadstuffs, macaroni, crackers, pastry, pies, cakes, and wheat breakfast cereals containing a total of more than two ounces of wheat flour to any one guest at any one meal. NO WHEAT PRODUCTS TO BE SERVED UNLESS SPECIALLY ORDERED. Public eating establishments not to buy more than six pounds of wheat products per month per guest, thus conforming with limitations requested of the householders.

Third—Retailers to sell not more than one-eighth of a barrel of flour to any town consumer at any one time and not more than one-quarter of a barrel to any country customer at any one time and in no case to sell wheat products without the sale of an equal weight of other cereals.

Fourth—We ask the bakers and grocers to reduce the volume of victory bread—sold by delivery of a three-quarters pound loaf where one pound was sold before and corresponding proportions in other weights. We also ask bakers not to increase the amount of their wheat flour purchases beyond seventy per cent of the average monthly amount purchased in the four months prior to March first.

Fifth—Manufacturers using wheat products for non-food purposes should cease such use entirely.

Sixth—There is no limit upon the use of other cereal flours and meals, such as corn, barley, buckwheat, potato flour, et cetera. Many thousands of families throughout the land are now using no wheat products whatever except a very small amount for cooking purposes, and are doing so in perfect health and satisfaction. There is no reason why all of the American people who are able to cook in their own households cannot subsist perfectly well with the use of less wheat products than the one and one-half pounds a week allowed. We specially ask the well-to-do households in the country to follow this additional programme so that we may provide the necessary marginal supplies for those parts of the community less able to adapt themselves to so large a proportion of substitutes and in order that we shall be able to make the wheat exports that are absolutely demanded of us to maintain the civil population and soldiers of the Allies and our own army.

"With the arrival of the new harvest we should be able to relax such restrictions, but until then we ask for the necessary patience, sacrifice, and co-operation of the distribution trades and public."

How a Thousand Dollars Was Lost.

A MAN who received a legacy kept the money in his home until his death. At that time the administrator of his estate discovered that the money would have earned over a thousand dollars, if it had been deposited in an interest bearing account at the bank. This comfortable sum was lost as a result of the money being idle during its owners life. The money was also constantly subject to loss by fire or burglary as well as being idle. Do not allow money to remain idle at home; but deposit it with this bank for safety and interest earnings.
