"Jack and the Beanstalk" at Gem

William Fox, film wizard, decided to make motion picture especially for children. He waded his magic wand at the Fox Western studios, and lo and behold, there sprang up, as if made by fairies, the beautiful spectacular age-long fire-side tale of "Jack and the Beanstalk."

Everybody knows the story, which has been handed down from the earliest days of the English-speaking peoples as a heritage of delight to the little ones of modern times. It is filmed for children, by children, and will be released by the Fox Film Corporation at the first of the regular monthly "Fox Kiddie Features" and will be presented to the theatre goers of Tillamook at the Gem Theatre next Tuesday, April 23rd. Don't let the children miss this one.

How many grown-ups recall the moments of real joy when as a child they listened while someone read to them from a book about the giants and pigmies, the fairies and other wonderful marvels of the make-believe world. Now these wonderful stories are to be visualized by master hands and placed before the delighted eyes of the children of the world.

To more appreciably realize the effect of this announcement one has but to recall the desire, after hearing the tales, to see the picture in the book—of the giants and dragons and dwarfs, and then would come the longing for pictures of the whole story. No one has appreciated this longing more than William Fox whose love for children has been largely instrumental in the picturing on the screen of these of these wonderful subjects.

Gem Theatre Program for Week.
