

**THE KAISER EXPOSED.**

**Silent Celluloid Speaks Louder than Words in "The Kaiser, The Beast of Berlin."**

"The Kaiser, The Beast of Berlin," the latest and most timely of super-photoplays dealing with the present world war comes to the Gem Theatre after thrilling New York, Chicago, Boston and Denver audiences for weeks during their respective indefinite runs. The showing will be made at the Gem Theatre, Monday, July 15, afternoon and evening.

"The Kaiser, The Beast of Berlin" has been produced by Rupert Julian from the scenario prepared by the director and Elliott J. Clawson. The photoplay delivers a powerful patriotic message and gives the public an "inside" story of the life of the man who, by his despotic and barbarous ideas, has set the entire world aflame. The photoplay gives us a more forceful, clearer understanding of why the United States has entered the war—to stamp out kaiserism. It shows how the kaiser planned the sinking of the Lusitania and awarded a special medal to the captain of the U-boat that launched the fatal torpedo. It also shows how the visions of drowning women and children haunted Captain Von Neigel who received the kaiser's honors, and finally drove him to insanity.

The film graphically pictures the tearing up of the famous "scrap of paper" that guaranteed Belgium her rights to peace and happiness by the Hohenzollern and the challenge to America when Ambassador Gerard informed his majesty that President Wilson and the American people would no longer tolerate Germany's ruthless naval warfare.

Beginning the story of the kaiser's life (from fact) the photoplay shows the kaiser being knocked down by one of his captains whom he had insulted and humiliated in the imperial reception. Knowing the penalty for his offense the young captain commits suicide.

Physicians who examined the kaiser immediately after he had been struck have claimed that had the blow landed three inches higher on the ruler's head that it would have burst a cancer near the kaiser's ear and rendered him a madman.

Following the encounter between kaiser and captain the photoplay shows how the emperor ordered the routing of his troops bound for Paris, through Belgium, and without the use of scenes of land battles or of naval engagements carefully, forcefully unravels its story of German culture, forced upon Belgium, shows the American ambassador Gerard conveying President Wilson's message, asking for the termination of wholesale murder of neutrals on trans Atlantic ships, the torpedoing of which the kaiser has ordered and continues to visualize historic facts until the last reel, in which the author leaves fact for fancy to picture what seems likely to be the result of the Hohenzollern's campaign.

**Letters from Tillamook Boy at Camp Lewis.**

Camp Lewis Wash., June 29th, 1918.  
Mr. Rollie W. Watson Tillamook.  
Dear friend.—We arrived here about 8 o'clock Thursday and so far must admit we find it better than ever expected. Plenty to eat, lots of enjoyment, and are well located. The boys from Tillamook are all together except four which are in the 20th Co. But I learn today that three of the boys couldn't pass the examination and have returned home.

We are in quarantine for 3 weeks and after that I may get a pass to go home for a short time on business. Very truly yours,  
Jay Michaud,  
13th Co. 166 D. B. 4 Bn.

Camp Lewis, Wash. July 2, 1918.  
13 Co. 166 D. B., 4 Bn.  
Dear Brother Stephen—Having nothing to do in the evening, will write a few lines to pass the time and let you know that I am well, and would be glad to hear from you.

How are you getting along and did you find any help yet?  
It seems a shame to see men here by the thousands doing nothing as it seems, when help is so badly needed on the farms, and yet it is the only way to maintain our liberty.

I will tell you just how much and what we do. In the morning when the bugle calls at 6 we get up and dress, make our beds and out for reveille or roll call at 6:15. At seven o'clock we have breakfast. At seven o'clock call is sounded and those who have ailments, report and are taken to the infirmary for attendance.

At 7 the rest of the company are formed into platoons of 50 men, then divided into squads of eight with a leader or corporal and are drilled until 9:15, then back to barracks for 15 minutes, then drill again from 9:30 until 10:30, when we are taken to the theatre for school or lecture until 11 or 11:30, then back to barracks again to prepare for dinner.

About 12:30 we go and drill again until about 3, then for another lecture until 4 p.m. and back to rest until retreat, at 5:15 form in double lines in front of our camp and answer the roll call again and that is all for the day.

At no time while drilling in the field, do they drill without resting, they give us a rest about every 5 or 10 minutes.

Our mess is good and very much on the same scale as at St. Mary's Home, all dishes are granite and each one when finished carries out his own plate.

The only thing I dislike is that it seems I should be working instead of this. We are in quarantine for two weeks more, which is like being in jail, only permitted to go about four blocks one way and two the other. If I were alone it would be much more lonesome than it is now, as all our bunch from Tillamook are still together, with the exception of four who were put into another company. John Nelson, Joe Kuper, Elmer Baker and I are sleeping in the same room. John and I are always together.

I wish we could stay all in the same company, but will soon be changed around. I suppose Tillamook will have a big celebration this year. Well go and have a good time and take one for me who cannot be there. Every evening there is all kinds of amusements—phonograph and piano here in K. C. hall and also at Y. M. C. A., besides base ball games twice a week, foot ball, basket ball, boxing, singing of war songs by Y. M. C. A. Club and everybody sings.

Each Co. building has a piano and if there is a musician in the crowd we have the benefit of it. Besides the Military Band is playing in the parade ground all day. So you can judge what it is like to be here.

But it makes no difference what a person has, there is always something lacking. If you can send me a paper sometime for you can't imagine how anxious one is to hear from home, especially when you see everybody getting letters and you have none. I have sent the folks a picture of the camp and have marked with an X where our Co. building is. Well I will bring this to a close, wishing you all the best of health and success.

I remain your brother,  
Jay Michaud.

**Notice to Creditors.**

Notice is hereby given that the undersigned has been appointed administrator, with the will annexed, of the estate of Hugh Faraday Barnard, deceased, by the County Court of Tillamook, Oregon, and has qualified as such.

All persons having claims against the estate are notified to present the same for allowance to the undersigned, at the office of H. T. Botts, Attorney at Law, Tillamook City, Oregon, within six months from the date of this notice.

Indigo is now being made from coal tar in this country. At Midland, Mich., 1,000 pounds of 20 per cent paste are produced daily. All the tariff bills of the nation, commencing with the tariff of March 3, 1883, and including the tariff of October 3, 1913, placed indigo on the free list. Not until Sept. 5, 1916, was a bill passed putting a duty on it. It was the first schedule that braved the anger of the German dye-maker.

**Value of Our "New" Daylight.**

If we save and thereby better our financial position and at the same time help our government win the war are we deserving of credit? The editor of the Duluth Herald thinks not. In a recent editorial he wrote:

"When Uncle Sam asks us to save to help win the war he asks us to do ourselves a great favor; and yet, simply because the need is great and the appeal urgent, and because the nation pleads with us to do this simple thing we are prone to look upon it as a great favor to the country, and to stick feathers in our hats and go strutting around because we granted it. It's patriotic, all right. It helps the country—not only now, but later, not only for the war, but for the trial of national fiber that comes after the war—but it helps us even more.

"And it is so easy, so much more helpful to ourselves than to the country, so small a thing to do compared with what our boys in arms are doing that it really is a joke to pin roses on ourselves for doing it.

"We ought to do it. We must do it. But instead of expecting Uncle Sam to decorate us for heroism we ought to get on our knees and thank him for the opportunity of getting a little sound sense pounded into us at last. And that goes as to the average individual, and as to the Nation and people as a whole."

**German Plans Frustrated.**

According to the Weekly Bulletin of the American Manufacturers' Export Association, advices have been received at Washington that Germany has manufactured a large quantity of Dresden china and is attempting to export the article to the United States through a neutral country, where the gift, not available in Germany, is applied and the goods forwarded as a product of the neutral country. The Washington authorities, it is stated, have taken the proper measures to prevent the goods from reaching this country. It is also reported that Germany has continued the manufacture of cheap toys for export and hopes to regain its former large volume of business in that article.

Exporters will be glad to learn that the State Department and the War Trade Board are making a careful survey of the Russian situation with a view to determine in what manner we can assist Russia quickly in its fight to preserve itself from commercial domination by Germany. If we are to resume our trade with Russia at an early date, the difficulty will be to prevent our goods reaching German hands. The problem, according to the Washington correspondent of the American Manufacturers' Export Association, is a difficult one but not impossible of solution; and a successful resumption of our business with Russia in the near future, even on a limited scale, should help us materially to hold our own in that potentially rich market.

Mrs. H. Linyard, Fourth Ave., Forest Grove, Ore., says: "Three years ago my kidneys were in a bad way. My back nearly killed me, it ached so and for several days at a time I could not get about to do my work. My kidneys were congested and my limbs began to swell. My head felt dull and at times I was so dizzy I could hardly stand. All sorts of spots seemed to appear before my eyes. I felt so miserable I didn't care if I did anything or not. I had taken only two boxes of Doan's Kidney Pills when I began to feel better in every way. I used four boxes in all and they cured me of the backache and put my kidneys in a normal condition."

Did you ever stop to think that about 25 per cent of feed that is fed without cutting is wasted? And that feed put up in a silo is worth about 30 per cent more than if put up dry? Mr. Rancher do some figuring.

Was Condition of Indiana Lady Before Beginning to Take Card-u-i, the Woman's Tonic.

Kokomo, Ind.—Mrs. H. Hankemeier, of this town, says: "I look so well, and am so well, that it does not seem as if I ever needed Cardui. But I was not always this way... I think I have taken a dozen bottles... before my little girl came.  
I was feeling dreadfully bad, had headache, backache, sick at my stomach, no energy... I was very irritable, too, and nervous.  
I began taking Cardui about 6 months before my baby came. As a result all those bad feelings left me, and I just felt grand, just as if nothing at all was the matter, and when the end came I was hardly sick at all.  
Since that I have never taken Cardui at all... It has done me good, and I know it will help others, if they will only try it."

Many women have written grateful letters like the above, telling of the good that Cardui has done them. Why should it not help you, too? If you suffer from any of the ailments so common to women, and feel the need of a safe, reliable, strengthening tonic, we urge you to begin today and give Cardui a fair trial.
